

San Diego Police Department

Firearms Training Unit

Second Shift of the year Pistol,

Less Lethal Shotgun and 40mm Launcher Training

SHOOTING PORTION

***50 pistol rounds**

25 YARD LINE

4 rounds, 2 Xs

no time limit

5 YARD LINE (from the holster)

MALFUNCTION PORTION: Have your officers unload their weapons at the 5 yard line. Instruct them to remove the magazine, clear the chamber, allow the slide to go forward on an empty chamber, place the loaded magazine back in the weapon and holster.

When the target turns, clear the “type 1 malfunction” and fire 3 rounds. This will be done only one time. The remaining 2 times will be the normal draw and shoot 3 rounds in 3 seconds.

3 rounds, 3 Xs

3 seconds

10 YARD LINE (from the holster)

3 rounds strong hand only, 3 Xs 5 seconds

15 YARD LINE (start up on target)

3 rounds, reload 3 rounds, 4 Xs 10 seconds

BEAN BAG SHOT GUN

***5 “Super-Sock Bean Bag” rounds**

Discuss:

- **do not load until deploying.**
- **inspect each and every round.**
- **have lethal cover.**
- **have a plan, BB shotguns should not be rushed into a scene.**
- **announcements (“drop weapon or you will be shot” and “firing bean bag” before firing each round)**
- **approved impact locations (use less lethal color coded targets in shed for reference).**
- **safe distances, minimum (10 feet) and maximum distances (60 feet).**
- **BB rounds are not to be fired at lights, car or residential windows or any animals, for use on suspect(s) only.**

10 YARD LINE

5 rounds, fire at the rubber target impacting the approved hit locations.

40mm LAUNCHER

***3 – 40mm training rounds**

Discuss:

- **do not load until deploying.**
- **inspect each and every round.**
- **have lethal cover.**
- **have a plan, 40mm launcher should not be rushed into a scene.**
- **announcements (“drop weapon or you will be shot” and “firing 40” before firing each round)**
- **approved impact locations (use less lethal color coded targets in shed for reference).**
- **safe distances, minimum (10 feet) and maximum distances (120 feet). Make sure to let them know that accuracy of the 40mm round is impacted at the maximum distances.**

40 mm rounds are not to be fired at lights, car or residential windows or any animals, for use on suspect(s) only.

10 YARD LINE

1, 40mm round, fire at the rubber target impacting the approved hit locations.

15 YARD LINE

1, 40mm round, fire at the rubber target impacting the approved hit locations.

20 YARD LINE

1, 40mm round, fire at the rubber target impacting the approved hit locations.
