AGENDA

Meeting Adjourned

AB 361 amended the Brown Act and provides relaxed rules for teleconferenced participation in meetings. It requires the legislative body to reevaluate the state of emergency and the need for teleconferencing every 30 days. City Council has made this determination for itself and all City boards and commissions since AB 361 went into effect and is expected to make these findings again on August 2, 2022. Council is not expected to reconvene until September 12, 2022, and will not be able to reconsider the state of emergency and need for teleconferenced meetings until then, unless a special meeting is called.
