#### Looking Ahead: Dakota Dr. Intersection and Work Moving South

Starting next week, November 13, crews will work within the Dakota Dr. and Clairemont Dr. intersection to install pipeline. Traffic control will be in place within the intersection to give crews a safe space to work, and may require detours during working hours. We're estimating that this work will be completed by November 17.

After the intersection work is completed, starting the week of 11/20, crews will begin working near the Iroquois Ave. and Clairemont Dr. intersection to install the second pipeline in the roadway. As they make progress, crews will move north on Clairemont Dr. towards Dakota Dr.

Work to excavate and install pipeline in the roadway will occur **during the day**. Welding and additional work to complete pipeline installation will occur **during the afternoon or night**. Crews will do everything they can to keep the noise to a minimum while working at night.

Day work hours are from 7:30 a.m. to 4:30 p.m. Afternoon and night work hours are from 4 p.m. to 12 a.m. Work will not occur on 11/10, 11/24 and 11/25 for the Veteran's Day and Thanksgiving holidays.

Parking restrictions will be in place throughout the work area, please avoid parking in areas with no parking signs. Please exercise caution, observe any signage, and follow any traffic control and/or flaggers on site if you travel through the work zone during this time.

Noise and dust are expected throughout the duration of the work.

Construction notices are posted on [morena.purewatersd.org](https://morena.purewatersd.org). Please contact [purewatersd@sandiego.gov](mailto:purewatersd@sandiego.gov) or **833-MOR-PWSD (833-667-7973)** with questions about the City's Pure Water Program and/or the Morena Conveyance South & Middle and Conveyance Bike Lanes project, and a team member will get back to you within one business day.

Visit the project website for more information

**Safety of the construction crews and community is our top priority. Please slow down near work sites and follow pedestrian instructions.**

### About Pure Water San Diego

Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally by 2035. Pure Water San Diego will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The Program offers a cost-effective investment for San Diego's water needs and will provide a reliable, sustainable water supply.

Phase 1 includes several projects that will clean recycled water to produce 30 million gallons per day (mgd) of high-quality purified water, reducing the City of San Diego's dependence on imported water.
