#### **Diagram 113-02V**

##### **Mezzanines**

[No change in text.]

(E) *Atriums*. *Gross floor area* includes the area of the horizontal projection into the *atrium* from each adjacent *floor* in plan view. If the *secondary use* is non-residential development, it must be a different non-residential use than the *primary use*. *Development* that contains a research and development use within Prime Industrial Land and Prime Industrial Land – Flex identified in the *land use plan* does not require a *secondary use*. For a premises of at least 5 acres, the primary use may be residential development, if the premises contains at least 200,000 square feet or retail sales and/or eating and drinking establishment uses.

The EMX zones are differentiated in Table 131-07B based on *floor area ratio* and *structure height*.

**§131.0719 Maximum Floor Area Ratio**

Maximum floor area ratio is specified in Table 131-07B and is subject to the  
following additional regulations:

(a) Floor Area Ratio Bonus for Child Care Facilities

In the EMZ and RMX zones a floor area ratio bonus over the otherwise  
maximum allowable gross floor area is permitted at the rate of 10 square  
feet of additional gross floor area for each 1 square foot of gross floor  
area devoted to the child care facility to be added to the total area of the  
premises when determining the floor area ratio for a development. The  
area designated for the child care facility must maintain an ‘E’ occupancy  
permit for a minimum of 10 years from the time of construction permit  
issuance and must be in compliance with the requirements of Section  
141.0606 (Child Care Facilities).

**§132.1404 Public Space In Lieu Fee**

If a development is unable to comply with a Community Plan Implementation Overlay Zone supplemental development regulation and the City Engineer

determines the installation of public *right-of-way* improvement would create undesirable drainage or traffic or pedestrian circulation conditions, the *applicant* may choose an alternative method of compliance and shall pay a Public Space in Lieu Fee equal to 1.5 times the entire cost of the required public *right-of-way* improvement, to the “Public Space in Lieu Fee Fund,” in accordance with San Diego Resolution R-XXXX. If the *development* satisfies a portion of the required public *right-of-way* improvement, the *applicant* shall pay 1.5 times the cost of the remaining required public *right-of-way* improvement to the “Public Space in Lieu Fee Fund,” in accordance with the San Diego Resolution R-XXXX. To be eligible for the Public Space In Lieu Fee under this subsection, the following additional requirements shall apply:

- (a) The *applicant* shall develop a cost estimate of the public *right-of-way* improvement required by the Community Plan Implementation Overlay Zone supplemental development regulation; and

##### **BUILDING COLOR GUIDE:**

To more accurately define the earthtone and pastel colors noted in this Section, the following specific color ranges are given in three color systems.

Under the Hicketheir 1000 International Color System colors are specified very precisely by a specific numerical system. Further information is available in the book "Color Mixing by Numbers: by Alfred Hicketheir, Van Nostrand Reinhold Company, New York, available at graphics and art supply stores.

For the convenience of Applicants, equivalent colors are also specified under Ameritone and Frazee color designations because these paints are widely available in the San Diego area.

Equivalent colors by any other manufacturer are also acceptable upon prior approval by the Development Services Director. In addition, colors similar in hue and tone to those designated may be used with the prior approval of the Development Services Director.

The following range of earthtone and pastel colors are acceptable. These numbers are based on 1983 color codes and the numbers may change over time, refer to La Jolla Planned District Color Chart in the City Planning Department for acceptable exterior building façade colors.
