#### Morena Conveyance South and Middle Project-wide Update

Crews are continuing to work at three locations on the Morena Conveyance South & Middle and Conveyance Bike Lanes Project. Outlined below are status updates for each portion of work, with working hours and estimated schedules.

As a reminder, initial temporary paving will be installed shortly after crews install new pipeline, and it will then be replaced with final paving in the future. All roads impacted by construction will be paved curb-to-curb and re-stripped before the project is completed.

##### **Clairemont Drive and Rappahannock Avenue:**

Work to install pipeline is approaching the Clairemont Drive and Rappahannock Avenue intersection, moving northbound on Clairemont Drive. In late April, additional traffic control will be installed overnight and crews will then begin installing pipeline between Rappahannock Avenue and Ute Drive. The project team remains in contact with the schools in the area to mitigate impacts to their operations as much as possible. Crews are working between 7:30 a.m. and 4:30 p.m. to install pipeline. Welding and other activities to finalize pipeline installation occur between 4:30 p.m. and 11:30 p.m.

##### **Clairemont Drive and Fairfield Street:**

Work to install pipeline on Clairemont Drive is moving east/northeast on Clairemont Drive from Fairfield Street towards Burgener Boulevard. This portion of work will be finished in early May once crews reach Burgener Boulevard. Crews are working between 7:30 a.m. and 4:30 p.m. to install pipeline. Welding and other activities to finalize pipeline installation occur between 4:30 p.m. and 11:30 p.m.

##### **Morena Boulevard and Sherman Street:**

Work to install pipeline along Sherman Street has reached the Morena Boulevard and Sherman Street intersection. After installing pipeline within the intersection of Morena Boulevard and Sherman Street, work will proceed north/northwest on West Morena Boulevard. Crews are working between 9 p.m. and 5 a.m., Sunday nights through Thursday nights. Traffic will be maintained through the Morena Boulevard and Sherman Street intersection, though lanes may be reduced.

Thank you for your patience and understanding as we make progress on this important project.

**Safety of the construction crews and community is our top priority. Please slow down near work sites and follow pedestrian instructions.**

### About Pure Water San Diego

Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally by 2035. Pure Water San Diego will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The Program offers a cost-effective investment for San Diego's water needs and will provide a reliable, sustainable water supply.

Phase 1 includes several projects that will clean recycled water to produce 30 million gallons per day (mgd) of high-quality purified water, reducing the City of San Diego's dependence on imported water.
