Morena Conveyance South & Middle and Conveyance Bike Lanes Construction Alert

April 22, 2024

To learn more about projects in the Morena/Bay Park/Clairemont neighborhood, visit morena.purewatersd.org, call the project hotline at **833-MOR-PWSD (833-667-7973)** or email purewatersd@sandiego.gov.

*Para informes en español, por favor comuníquese al **833-MOR-PWSD (833-667-7973)**.*

Upcoming Work Near Schools on Clairemont Drive

Starting the week of April 29, traffic control will be installed on Clairemont Drive, extending the work zone up to Ute Drive. Crews will then begin installing pipeline northbound on Clairemont Drive towards Ute Drive.

Throughout the work, the loading zone used by Marston Middle School for student drop off and pick up will remain open, however there will be only one lane of traffic northbound and southbound through the work zone. A Resident Engineer will be on site during the first few days of the new traffic control setup to observe arrival and dismissal times and help minimize any impacts. Working hours are between 7:30 a.m. and 4:30 p.m. to excavate and install pipeline in the road, and between 4:30 p.m. and 11 p.m. to weld the pipeline.

The graphic below outlines how traffic control will allow vehicle traffic to flow through the work zone. Please exercise caution, observe any signage, and follow any traffic control and/or flaggers on site if you travel through the work zone.

Construction notices are posted on morena.purewatersd.org. Please contact purewatersd@sandiego.gov or **833-MOR-PWSD (833-667-7973)** with questions about the City's Pure Water Program and/or the Morena Conveyance South & Middle and Conveyance Bike Lanes project, and a team member will get back to you within one business day.

Visit the project website for more information

Safety of the construction crews and community is our top priority. Please slow down near work sites and follow pedestrian instructions.

About Pure Water San Diego

Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally by 2035. Pure Water San Diego will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The Program offers a cost-effective investment for San Diego's water needs and will provide a reliable, sustainable water supply.

Phase 1 includes several projects that will clean recycled water to produce 30 million gallons per day (mgd) of high-quality purified water, reducing the City of San Diego's dependence on imported water.
