

TIJUANA SAN DIEGO

WORLD DESIGN CAPITAL SAN DIEGO TIJUANA 2024

Powered by community, connected by design.

**WORLD DESIGN CAPITAL SAN DIEGO TIJUANA 2024
IS A ONCE-IN-A-LIFETIME OPPORTUNITY TO
SHAPE THE FUTURE OF OUR REGION
THROUGH THE POWER OF DESIGN.**

By showcasing our region as a global hub for design, innovation, arts, and culture, WDC 2024 will foster lasting economic, social, cultural, civic, and environmental impact.

WHAT IS DESIGN?

DESIGN IS A METHOD OF CREATIVE PROBLEM SOLVING.
DESIGN ADVOCATES FOR PURPOSE AND IMPACT.
WE DESIGN WITH PEOPLE, NOT FOR THEM.

The design mindset values curiosity, empathy, creativity, innovation, collaboration, iterations, and critical thinking to generate functional, aesthetically pleasing, and people- and planet-friendly solutions.

There are many approaches and disciplines of design and we celebrate all.

Professional designers practice their craft in graphic design, architecture, landscape, urban planning, neighborhoods, mobility, software, hardware, apparel, everyday objects, and much more. Everywhere you look you will find tangible artifacts (and invisible outcomes) of design.

THE SAN DIEGO TIJUANA REGION,
RICH IN DESIGN HISTORY, THRIVES
WITH TALENTED DESIGNERS
FUELING THE CREATIVE ECONOMY.

IN 2024, WE WILL CELEBRATE
**MEANINGFUL DESIGN FROM OUR
UNIQUE, CROSS-BORDER
COMMUNITY AND SHARE IT WITH
THE WORLD.**

**THE WORLD DESIGN ORGANIZATION®
(WDO) PROVIDES THE PLATFORM
FOR US TO ACHIEVE THIS.**

With more than 200+ International Design Member Organizations, WDO is a globally recognized non-governmental organization that aims to promote and advance the discipline of design.

“Design is a strategic problem-solving process that drives innovation, builds business success, and leads to a better quality of life through innovative products, systems, services, and experiences.”

– WDO Professional Practice Committee

A PLACE FOR THE **EXCHANGE** OF HUMAN EXPERIENCES

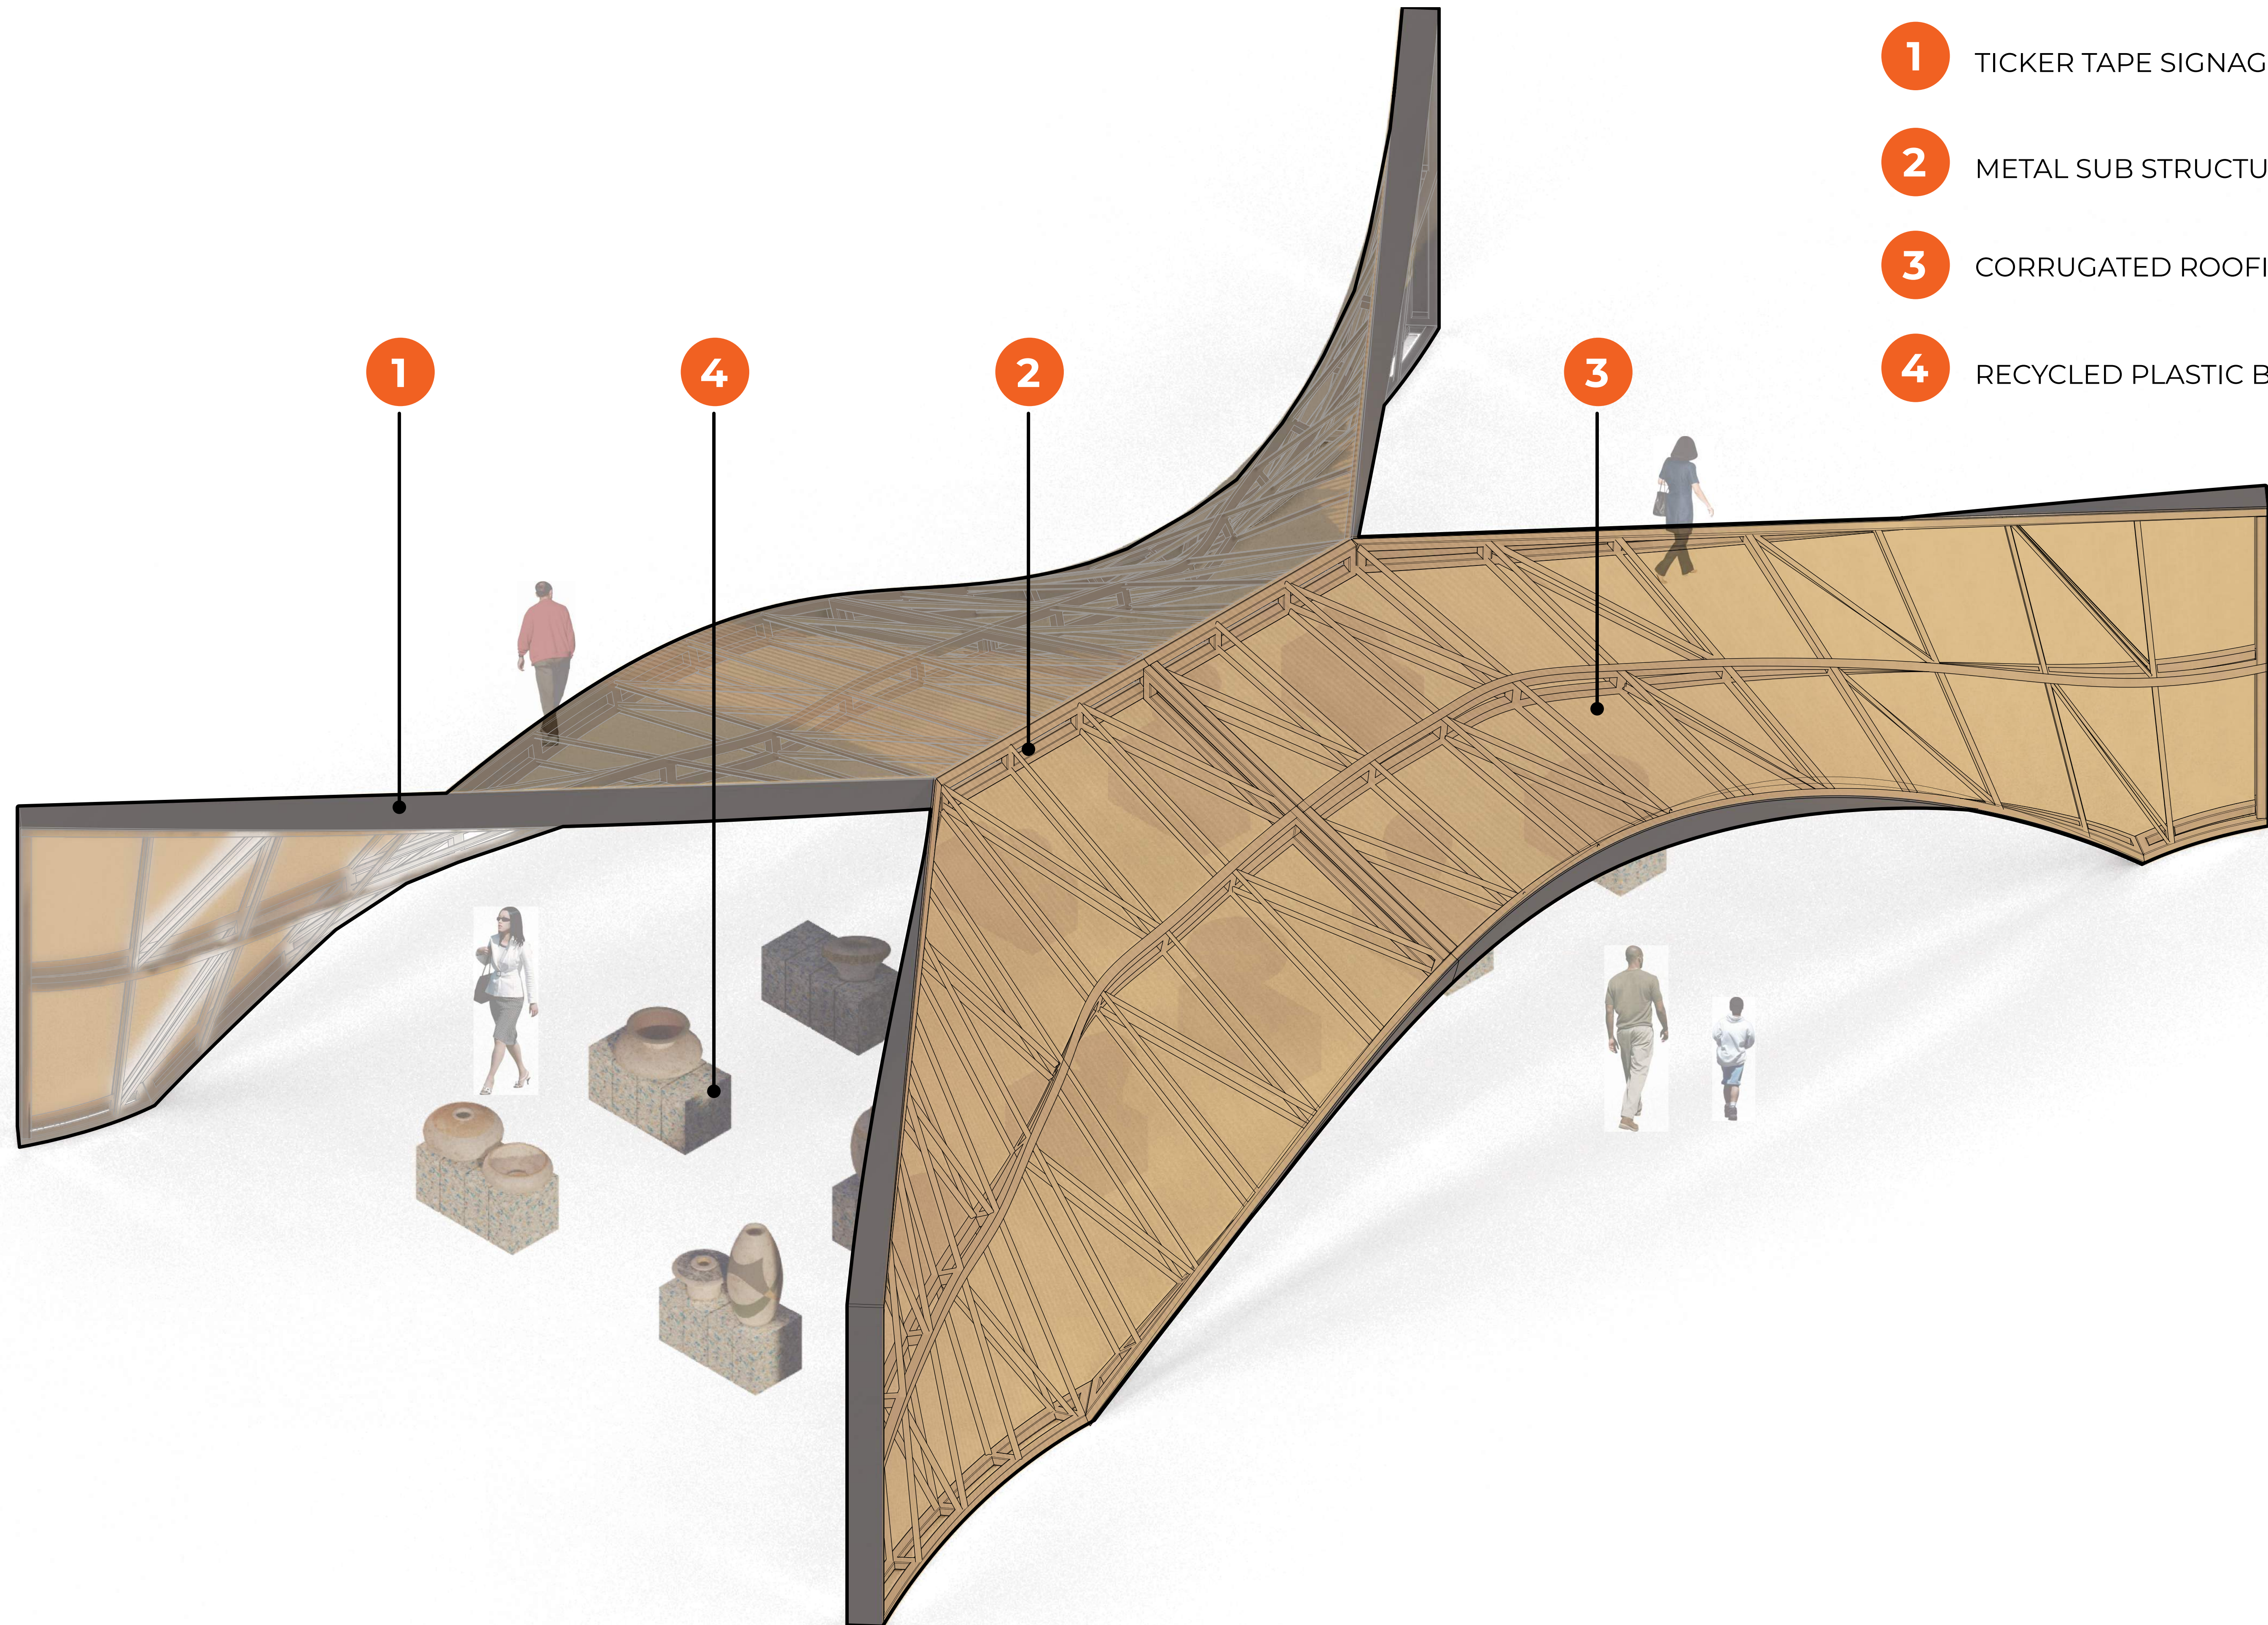

Transforming a “no-man’s-land” into a vibrant nexus, surrounded by socio-political constructs guiding lifelines through channeled streams of perpetual trade and cultural evolution, the “EXCHANGE” embodies a unique spatial metaphor. It achieves this by breaking down walls, facilitating unimpeded movement for all inhabitants of this uninhabitable space—an environment designed to host a diverse spectrum of collective experiences.

Purposefully constructed for seamless visibility from both inside and out, the “EXCHANGE” serves as a conduit for continuous data transmission during every encounter. Its design aims to inspire and encapsulate the essence of the crossroads it establishes, with a skeletal structure commanding both physical and visual presence. Meanwhile, a dynamic digital skin envelops its form, streaming a ceaseless flow of language.

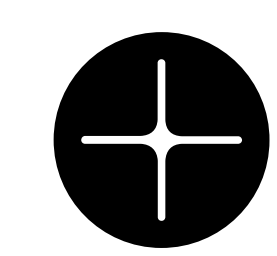

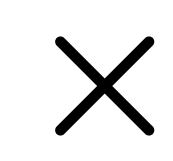

In essence, the “EXCHANGE” stands as a temporary and mobile milestone, illustrating the region’s commitment to human-centered design. It is a manifestation of interconnectedness, embracing the fluidity of cultural exchange and trade within an ever-evolving social landscape.
