ENTITY MAKING ENVIRONMENTAL DETERMINATION: City of San Diego Engineering & Capital Projects Department

STATEMENT SUPPORTING REASON FOR ENVIRONMENTAL DETERMINATION: The City of San Diego conducted an environmental review which determined that the project meets the following categorical exemption criteria set forth in CEQA State Guidelines: Section 15301 (Existing Facilities), which allows for the minor alteration to existing public facilities involving negligible or no expansion of existing or former use, such as removing an existing streetlight and concrete panel so that they may be replaced; Section 15302 (Replacement or Reconstruction), which allows for the replacement of existing facilities where the new structure will be located on the same site and have substantially the same purpose and capacity as the facility replaced, such as the replacement-in-place and in-kind of an existing streetlight and concrete sidewalk panel; Section 15303 (New Construction or Conversion of Small Structures), which allows for the construction of limited numbers of new, small facilities or structures, such as the furnishing and

installation of a protection post, a pull box, conduit, and other electrical appurtenances; Section 15304 (Minor Alterations to Land), which allows for minor public alteration in the condition of land which does not involve removal of healthy mature, scenic trees, such as the minor excavation and backfilling required for the installation of conduit and streetlight foundation; and where the exceptions listed in Section 15300.2 would not apply.
