## **Robert Egger Sr. South Bay Community Park Americans with Disabilities Act (ADA) Improvements**

SAN DIEGO – Earlier this year, the City of San Diego began construction on the Robert Egger Sr. South Bay Community Park Americans with Disabilities Act (ADA) Improvements:

This project consists of design and construction of ADA improvements for the children’s play areas and associated paths of travel to comply with accessibility requirements at Robert Egger Sr. Park.

**“I have made it a priority to build more parks in our neighborhoods and provide children and families access to active recreation opportunities.”**

These enhancements not only include ADA improvements to the park, but will also include two new play areas with rubber surfacing for children and a new adult fitness area.

Construction for this project started early this year and is planned to be completed by winter of 2024.

The total estimated cost of this project is \$7 million. More information on the Robert Egger Sr. ADA Park Improvements can be found [here](#).
