Re: San Diego Unified Solar Project at Hearst Elementary

Dear Andy,

San Diego Unified School District will begin the solar installation project at Hearst Elementary on or about April 28, 2025. While this work will not prevent public use or City maintenance of the joint use field, the solar panels will be placed within the joint use area. It is our understanding that the existing permit with Navajo Softball is scheduled to end on April 26, 2025, prior to this project commencing.

Please see the attached plan detailing the temporary fencing layout and the location of the new panels. All areas will be restored to the same or better condition upon project completion, which is expected by October 31, 2025.

Let me know if you have any questions.

Best,

Gene Fuller  
Director, Real Estate  
San Diego Unified School District
