Re: San Diego Unified Solar Project at Innovation Middle School

Dear Andy,

San Diego Unified School District began the solar installation project at Innovation Middle School on April 4, 2025. Please accept our apologies for the lack of prior notification.

The solar panels will be installed within the joint use parking lot, and a portion of this work will temporarily restrict public access from June 1 to June 30, 2025, due to panel installation occurring outside the main project footprint. Maintenance access will remain available through the vehicle gates during this time.

Attached is the site plan showing the temporary fencing layout and the location of the new panels. All impacted areas will be restored to equal or better condition upon project completion, which is expected by August 31, 2025.

Please don't hesitate to reach out if you have any questions.

Best,

A handwritten signature in blue ink that reads "Gene W. Fuller".
