## **Clairemont Community Plan Update**

The current Clairemont Community Plan was adopted by the city in 1989. This outdated document will be replaced by a new Community Plan Update this year. This new planning document will serve as the blueprint for the Clairemont community for many years to come as the long-range vision for land use, mobility, urban design, public facilities and services, natural resources, historic and cultural resources, and economic development.

The Community Plan Update was in the process of being developed by city staff prior to the pandemic in 2020. Over a 3-year period, the Planning Group and interested community members provided significant feedback prior to the document going on hold in 2021. In the next few months, City staff is soliciting community feedback regarding the final modifications to the Community Plan Update with the intention of obtaining approval from the City Council before the end of 2025.
