Alvarado 2nd Extension Pipeline Project

Upcoming Work Near Russell Parkway

Crews on the Alvarado 2nd Extension Pipeline Project are continuing to make progress installing pipeline along Friars Road.

Starting on Monday, Sept. 29, crews will begin working near the intersection of Russell Parkway and Friars Road. Access in and out of Russell Parkway is expected to be maintained throughout this one-week period, however, a temporary closure of Russell Parkway, for up to two days, may be needed. Signage will be posted by the contractor in advance of any closure, should one be required. Another email blast will also be provided should a closure be required.

This portion of work is estimated to be completed by Friday, Oct. 3. Once work in the intersection is completed crews will continue to install pipeline in the westbound lanes of Friars Road moving east toward I-805.

This traffic control map below shows the detour route for Russell Parkway should a closure be required, **but at this time we do not expect a closure to be needed.**

The working hours will be Monday through Friday from 7 a.m. to 5 p.m. Traffic control and the barriers around the work zone will remain in place around the clock, so after a shift is finished there will still be traffic control elements staying in the roadway.

During working hours, typical noise and dust are expected. All work will take place behind

safety barricades set up in the roadway, please allow extra time when traveling through the work zone, and follow all posted signage.

In addition to installing new pipelines, crews will also be replacing select curb ramps along the project alignment to bring them up to current ADA standards. After the pipeline has been installed, crews will install temporary paving to cover the trench and continue to install pipeline. Throughout this work, crews will maintain the cleanliness of the work zone to minimize any dust leaving.

Future updates on the phasing and schedule of work will be provided via email to subscribers, please feel free to forward this email to friends or neighbors and encourage them to join the subscriber list.
