Alvarado 2nd Extension Pipeline Project

Russell Parkway & Friars Road Work Update

On Wednesday, October 1, crews on the Alvarado 2nd Extension Pipeline Project will begin installing a new phase of traffic control along Friars Road between Russell Parkway and Qualcomm Way to accommodate pipeline installation.

Once the traffic control has been installed:

- The **southbound lane of Russell Parkway** onto westbound Friars Road will be **reopened**.
- The **northbound lane of Russell Parkway** from westbound Friars Road will be **closed**.

During the closure of northbound Russell Parkway, access will be maintained via Mission Center Road and Qualcomm Way.

We anticipate that the entrance into Russell Parkway will remain **closed for approximately three weeks**. As construction progresses eastward, **Russell Parkway will be fully reopened** once activity has cleared the intersection.

The working hours will be Monday through Friday from 7 a.m. to 5 p.m. Traffic control and the barriers around the work zone will remain in place around the clock, so after a shift is finished there will still be traffic control elements staying in the roadway.

During working hours, typical noise and dust are expected. All work will take place behind safety barricades set up in the roadway, please allow extra time when traveling through the work zone, and follow all posted signage.

In addition to installing new pipelines, crews will also be replacing select curb ramps along the project alignment to bring them up to current ADA standards. After the pipeline has been installed, crews will install temporary paving to cover the trench and continue to install pipeline. Throughout this work, crews will maintain the cleanliness of the work zone to minimize any dust leaving.

Future updates on the phasing and schedule of work will be provided via email to subscribers, please feel free to forward this email to friends or neighbors and encourage them to join the subscriber list.
