

November 9, 2025 Planning Commission Meeting
Vice-Chair Matthew Boomhower

“If members of the public during public testimony are ***making threats that could be intended to influence a decision by an appointed board or body***, is that something they should be warned against?” Boomhower asked.

“Are you talking about threats of litigation?” (Asst. City Attorney) Neuffer replied.

“Potentially,” Boomhower said, “***or just, I don’t know, designating a project that a member of a board might have in process?***”
