RE: Birney Elementary Joint Use Field Adjustment for Whole Site Modernization

Dear Andy,

The Whole Site Modernization project at Birney Elementary will require a temporary adjustment to the Joint Use Field area from December 10, 2025, through August 30, 2029. Please see the attached plan outlining the temporary reduction in the joint use area, which will be utilized as a construction laydown area to support the contractor's operations.

Public access to the remaining open portion of the field is expected to be maintained throughout the duration of the project.

Prior to the closure, we will coordinate with Parks and Recreation staff to review the existing field irrigation system. Impacted lines will be capped, and remaining sprinkler heads will be modified as needed. Upon completion of the project, the field will be fully restored to its current condition—or better.

Please don't hesitate to reach out if you have any questions or would like to discuss further. Thank you for your continued partnership.

Sincerely,

Gene Fuller
