Guide for Reading eBooks
Kobo Devices

1. Borrowing eBooks

- On your PC, open your web browser and open https://www.yourcloudLibrary.com

- Login with your San Diego Public Library card number and PIN

- Search and borrow desired ebook

- Under **My Books** select ebook and left click three dots next to "Return" and select

   Download for Offline Reading

2. Download and Install Adobe Digital Editions (ADE)

- Open a new web browser and search https://www.adobe.com/solutions/ebook/digital-editions/download.html

- Once installed, login with your Adobe ID and Password

 (if you do not have an Adobe ID, create one using the create Adobe ID link on the menu)

- Once in ADE, click **File** in upper left menu and select **Add to Library**

   Navigate to folder with the downloaded ebook file and open it.

   The eBook will now open in ADE.

3. Importing ebook to Kobo reader

- Connect Rakuten Kobo device to PC using USB cable and allow file connection on device once discovered.

- On the ADE application screen, under **Bookshelves** and **All Items,** right click desired item and select **Copy to Device**

- After ebook has been transferred, safely disconnect device from PC

- Enjoy your read!

*Please contact your local branch library if you need to create/update your card or PIN number
