
Upcoming Work at Morena Blvd. and Milton St. Intersection

January 30, 2026

Construction on the Morena Conveyance South & Middle and Conveyance Bike Lanes Project will begin at the intersection of Morena Blvd. and Milton St. during the week of February 2.

Work is expected to occur from 7 a.m. to 3:30 p.m., Monday through Friday, for approximately three weeks. **Please be advised that the intersection of Morena Blvd. and Milton St. will be closed 24 hours a day, seven days a week, for three weeks.** Crews will install two new pipelines that will connect to the previously constructed pipeline on Milton St., marking a major milestone for the Pure Water Program. Outlined below are the work plan and the expected impacts your neighborhood. This work plan is designed to allow the contractor to progress as quickly and safely as possible through the area.

A detour route will be in place throughout this three-week phase of work. Please see the map below illustrating the traffic control plan that will be in place throughout the duration of this phase of work. For your safety, please follow all posted signage and plan extra time when traveling in the area to accommodate traffic delays.

All the work will take place behind the barricades of the work zone to ensure the safety of the public and crews while working. While crews are working, typical noise associated with construction may be heard. Throughout this work, crews will maintain the cleanliness of the work zone to minimize any dust leaving.

The map below outlines the traffic control that will be in place for approximately three weeks.

Why: Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally by 2035 and significantly reduce treated discharges from the Point Loma Wastewater Treatment Plant. Pure Water San Diego will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The program offers a cost-effective investment for San Diego's water and wastewater needs. San Diegans are getting dual value from this investment — reliable, sustainable drinking water and avoided wastewater costs. The Morena Conveyance South & Middle and Morena Conveyance Bike Lanes project is one of several major projects in Phase 1 of Pure Water San Diego.
