

# STORM SAFETY

## BEFORE THE RAIN

**Clear trash and debris** near storm drains and gutters.

**Close trash bin lids** and place the bins **at least two feet from the curb** to allow rainwater to flow easily.

**Turn off irrigation to save water** and minimize runoff.

**Prepare your pets.** Have transportation ready for all animals under your care.

**Know the safest routes** to and from your home or property in case flooding occurs.

**Report non-emergency** problems via the Get it Done app.

## STORM PREPAREDNESS

Scan for more information: [sandiego.gov/storm-preparedness](http://sandiego.gov/storm-preparedness)

## DRIVING IN THE RAIN

**Reduce driving speed** and leave room before the car in front of you.

**Turn on** your headlights.

**Slow down** and do not drive through flood waters.
