<sup>1</sup> The City of San Diego approved an update to the Jurisdictional Runoff Management Plan (JRMP) in FY 16. The update of the JRMP was performed in compliance with Order No. R9-2013-0001.

<sup>2</sup> See the JRMP Annual Report FY 2025 Appendix, Attachment 1 for a citywide summary of this data.

<sup>3</sup> The number of enforcement actions issued does not equal the number of identified illicit discharges or connections because some discharge complaints in the last quarter of FY 2025 were still under investigation at the end of FY 2025.

<sup>4</sup> The number of ongoing Standard and Priority Development Projects in review as of 6/30/2025. The City processes other types of permits, in addition to those included in the JRMP Annual Report, that are not subject to the requirements of the MS4 Permit.

<sup>5</sup> The number of ongoing Priority Development Projects in review as of 6/30/2025. Only a portion of the projects that the City processes qualify as a Priority Development Project.

<sup>6</sup> The number of Priority Development Projects approved in FY 2025.

<sup>7</sup> This Granted Occupancy number includes the permits associated with Priority Development Projects (PDP) approved in FY 2025. A single PDP may have multiple permits that cover different types of work at the project.

<sup>8</sup> Represents the total number of completed Priority Development Projects in the City's inventory for FY 2025. These projects include completed projects that were entered into the inventory in previous years.

<sup>9</sup> The number of Priority Development Project structural BMP violations included Notices of Violation, Notices of Deficient Maintenance, and Administrative Citations that were issued to public and private entities within the City's jurisdiction in this watershed.

<sup>10</sup> The number of enforcement actions included Notices of Violation and Notices of Deficient Maintenance issued to public and private entities within the City's jurisdiction in this watershed.

<sup>11</sup> Each City (municipal) facility is to be inspected twice per year by staff of the department responsible for the facility, as described in the JRMP. This is higher than the MS4 Permit minimum inspection frequency standard, which requires each site to be inspected once per Permit term and 20% of the overall existing development inventory (industrial, commercial, and municipal) to be inspected each year.

<sup>12</sup> The reported number of commercial businesses includes stationary, fixed facilities, such as gas stations or restaurants, located within the watershed management area. Mobile business inspections are not required by the municipal permit, and mobile businesses are not reported as part of commercial inventory on the JRMP Annual Report form due to the lack of a related, stationary facility to inspect. Mobile businesses are mainly addressed through the City's education and IDDE programs. Inspections of mobile businesses are conducted on an as needed basis if a mobile business is identified as a source of illicit discharges.

<sup>13</sup> Existing facilities for residential uses are characterized as Residential Management Areas (RMA), which could include hundreds of residences. When all of the residences in an RMA are inspected by City staff, they are only counted as one inspection. However, individual issues noted at each residence during an RMA inspection are counted as separate violations and/or enforcement actions. In the event that only a portion of the overall RMA is investigated (e.g., in response to a complaint), violations and enforcement actions may be recorded, but it is not counted as an RMA inspection.

<sup>14</sup> See the JRMP Annual Report FY 2025 Appendix for the FY 2025 Fiscal Analysis.

<sup>1</sup> The City of San Diego approved an update to the Jurisdictional Runoff Management Plan (JRMP) in FY 16. The update of the JRMP was performed in compliance with Order No. R9-2013-0001.

<sup>2</sup> See the JRMP Annual Report FY 2025 Appendix, Attachment 1 for a citywide summary of this data.

<sup>3</sup> The number of enforcement actions issued does not equal the number of identified illicit discharges or connections because some discharge complaints in the last quarter of FY 2024 were still under investigation at the end of FY 2025.

<sup>4</sup> The number of ongoing Standard and Priority Development Projects in review as of 6/30/25. The City processes other types of permits, in addition to those included in the JRMP Annual Report, that are not subject to the requirements of the MS4 Permit.

<sup>5</sup> The number of ongoing Priority Development Projects in review as of 6/30/25. Only a portion of the projects that the City processes qualify as a Priority Development Project.

<sup>6</sup> The number of Priority Development Projects approved in FY 2025.

<sup>7</sup> This Granted Occupancy number includes the permits associated with Priority Development Projects (PDP) approved in FY 2025. A single PDP may have multiple permits that cover different types of work at the project.

<sup>8</sup> Represents the total number of completed Priority Development Projects in the City's inventory for FY 2025.

These projects include completed projects that were entered into the inventory in previous years.

<sup>9</sup> The number of Priority Development Project structural BMP violations included Notices of Violation, Notices of Deficient Maintenance, and Administrative Citations that were issued to public and private entities within the City's jurisdiction in this watershed.

<sup>10</sup> The number of enforcement actions included Notices of Violation and Notices of Deficient Maintenance issued to public and private entities within the City's jurisdiction in this watershed.

<sup>11</sup> Each City (municipal) facility is to be inspected twice per year by staff of the department responsible for the facility, as described in the JRMP. This is higher than the MS4 Permit minimum inspection frequency standard, which requires each site to be inspected once per Permit term and 20% of the overall existing development inventory (industrial, commercial, and municipal) to be inspected each year.

<sup>12</sup> The reported number of commercial businesses includes stationary, fixed facilities, such as gas stations or restaurants, located within the watershed management area. Mobile business inspections are not required by the municipal permit, and mobile businesses are not reported as part of commercial inventory on the JRMP Annual Report form due to the lack of a related, stationary facility to inspect. Mobile businesses are mainly addressed through the City's education and IDDE programs. Inspections of mobile businesses are conducted on an as needed basis if a mobile business is identified as a source of illicit discharges.

<sup>13</sup> Existing facilities for residential uses are characterized as Residential Management Areas (RMA), which could include hundreds of residences. When all of the residences in an RMA are inspected by City staff, they are only counted as one inspection. However, individual issues noted at each residence during an RMA inspection are counted as separate violations and/or enforcement actions. In the event that only a portion of the overall RMA is investigated (e.g., in response to a complaint), violations and enforcement actions may be recorded, but it is not counted as an RMA inspection. RMAs are required to be inspected once every five years.

<sup>14</sup> See the JRMP Annual Report FY 2025 Appendix for the FY 2025 Fiscal Analysis.

# FY 2025 JRMP Annual Report Appendix

## 1.0 Notable Water Quality Efforts

The City continued to implement the key elements of the JRMP. The following are stormwater accomplishments and notable updates that occurred during the FY 2025 reporting period.

### 1.A Water Quality Improvement Plans

In FY 2025 the City continued to implement the Water Quality Improvement Plans (WQIPs) that included City jurisdiction. The goal of the WQIPs is to protect, preserve, enhance, and restore the water quality of receiving water bodies. These WQIPs identify the adaptive planning and management process necessary to address the highest priority water quality conditions within a watershed. The WQIPs also identify strategies to achieve improvements in the quality of discharges from the Responsible Agencies' storm drain systems. The City is the lead on the WQIPs for the San Dieguito, Los Peñasquitos, and Mission Bay watersheds. The City is also a participating agency in the San Diego River, San Diego Bay, and Tijuana River watersheds.

### 1.B General Plan and Community Plan Amendments

The Planning Department is developing Community Plan updates that incorporate measures to address stormwater quality. The Community Plan updates include recommended best practices to enhance the quality of experiences for the public. For example, the planned circulation networks in these Community Plan updates can incorporate street enhancements that provide water quality benefits such as tree plantings, pervious pavements, and stormwater capture. The Planning Department completed or worked on developing Community Plan updates that incorporate stormwater best management practices for the following areas in FY 2025:

- Clairemont Community Plan Update
- College Area Community Plan Update
- Mid-City Community Plan Update
- Rancho Bernardo Community Plan Update
- Otay Mesa Nestor Community Plan Update

## 1.C JRMP Modifications

There were no modifications to the JRMP in FY 2025. The City's JRMP is available at <https://www.sandiego.gov/stormwater/plansreports/jrmp>

# 2.0 Fiscal Analysis

## 2.A General Budget Information

The City's Storm Water Department (SWD) collects information from other City departments and combines that with data from SWD programs to produce the JRMP Annual Report each year.

SWD is also responsible for reporting annual expenditures in accordance with the requirements in Regional Board Order No. R9-2013-0001 (as amended by Order Nos. R9-2015-0001 and R9-2015-0100) (2013 Permit). During the reporting period, SWD collected and analyzed financial data from over 20 City departments/divisions through its "Annual Report Form" questionnaire, as well as data provided by SWD. A summary of the fiscal analysis findings is included in the following sections.

## 2.B Fiscal Analysis Methods

The City used the format and guidelines included in the Fiscal Analysis Method for reporting purposes except where modifications were necessary to address how the City tracks accounts internally. The final fiscal analysis numbers were worked out separately between City Department of Finance and SWD staff, and the consultant team does not have the detailed backup data for those numbers. Modifications to the expenditure categories are described in the relevant sections below. In many cases, estimated percentages were used to allocate expenditures into the appropriate municipal permit component categories, including watershed and regional.

### 2.B.1 Fiscal Analysis Results

#### 2.B.1.1 Expenditures

The City's FY 2025 JRMP Regional Program total expenditures for implementing the Municipal Permit requirements are summarized in Table 3.1.

**Table 2.1: FY 2025 Jurisdictional and Regional Expenditures Summary**

Jurisdictional Component	
Administration	\$15,866,568
Development Planning (including public and private projects)	\$7,152,674
Construction (including public and private projects)	\$1,270,567

<b>Jurisdictional Component</b>	
Municipal (including Non-Emergency Fire Fighting expenditures)	\$54,904,402
Stormwater Capital Improvements Program (CIP)	\$97,969,320
Industrial and Commercial	\$1,307,950
Residential, Education, and Public Participation	\$1,476,838
Illicit Discharge Detection and Elimination (IDDE)	\$9,440,348
<b>Jurisdictional Total</b>	<b>\$189,388,667</b>
<b>Regional Component</b>	
Administrative Costs for Regional Component	\$5,390
City of San Diego's Regional Cost Share contribution for education efforts, monitoring, document reviews, regional meeting attendance, and special projects	\$170,516
<b>Regional Total</b>	<b>\$175,906</b>
<b>Total Costs</b>	<b>\$189,564,573</b>

## **JRMP Expenditures**

Expenditures were provided as actual costs in most cases, and when the actual costs could not be determined, estimates of actual costs were provided. SWD used the expenditure categories detailed in the Fiscal Analysis Method for jurisdictional reporting. However, because of implementation overlap with the City's education, public participation, and residential Municipal Permit components, it is difficult to separate out individual component costs. Therefore, the expenditures for residential, education, and public participation are reported as one expenditure category.

A total of \$189,388,667 was expended in FY 2025 to implement JRMP activities citywide. This amount includes costs paid by sewer and water rate payers (which are used for sewer and water-related services) and costs reimbursed by project applicants. An overview of the expenditures reflected in this component is described below.

The Engineering & Capital Projects Department - Field Division completed the following activities in FY 2025 in accordance with the requirements of the JRMP:

- Storm drain and construction site inspection & cleaning to determine if onsite BMPs were adequately treating or collecting stormwater to ensure that pollutants such as sediment do not enter the storm drain system;
- Training for staff;
- JRMP annual report preparation;

The costs for the JRMP required activities conducted by these departments in FY 2025 are estimated to be approximately \$5,000,000. Costs for these inspections are not included in the Citywide summary presented in Table 3.1. However, the City has developed backup documentation regarding the costs that is available for review upon request.

#### **Administration \$15,866,568**

Activities identified in this section represent personnel and non-personnel expenses for administration and contracts, grant management, citywide management, staff training, reporting, and assessment of the Municipal Permit.

#### **Development Planning \$7,152,674**

Activities identified in this section represent personnel and non-personnel expenses for plan check reviews, incorporating BMPs into project designs, BMP Design Manual development, and General Plan updates. This category includes expenses for private and public projects.

#### **Construction \$1,270,567**

Activities identified in this section represent personnel and non-personnel expenses for plan check review services, field inspections related to grading permits, public improvements, and building activities. This category includes expenses for private and public projects.

#### **Municipal \$54,904,402**

Activities identified in this section represent personnel and non-personnel expenses for street sweeping, storm drain and channel maintenance, BMP implementation, and municipal facility and activity inspections. Additionally, this section includes the expenditures for Fire Department activities not related to emergency firefighting, such as facility inspections, stormwater BMPs, etc.

#### **Capital Improvement Program \$97,969,320**

Activities identified in this section represent personnel and non-personnel expenses for implementation of new construction and planned improvements to existing facilities for stormwater management. Projects may include, but are not limited to, the construction, purchase, or major renovation of buildings, utility systems, and other facilities to achieve stormwater requirements. In addition, they may also include land acquisitions and roadway projects to install stormwater facilities.

#### **Industrial and Commercial \$1,307,950**

Activities identified in this section represent personnel and non-personnel expenses for inspection of industrial and commercial facilities. This also includes personnel and non-personnel expenses for the stormwater components of the Public Utilities Department's (PUD) Food Establishment Wastewater Discharge Program (FEWD) and Industrial Wastewater Control Program (IWCP) inspections. The stormwater components of these

PUD inspections are paid by SWD per the terms of an internal agreement between the departments.

#### [\*\*Residential, Education, and Public Participation \\$1,476,838\*\*](#)

Activities identified in this section represent personnel and non-personnel expenses for educational materials, outreach efforts and events, public service announcements (PSAs), household hazardous waste (HHW) and used oil outreach, and community events.

#### [\*\*Illicit Discharge Detection and Elimination \\$9,440,348\*\*](#)

Activities identified in this section represent personnel and non-personnel expenses for identification and elimination of illicit discharges, enforcing the City's stormwater ordinance and implementation of the administrative civil penalties and citation process, and the urban runoff monitoring program.

#### [\*\*Regional Expenditures \\$175,906\*\*](#)

The City's FY 2025 regional expenditures for the implementation of the regional Municipal Permit requirements are primarily the City's share of regional Copermittee stormwater program costs. Additional costs include estimated staff time to attend regional meetings and other related administration costs. The regional expenditures included in this report only capture City expenditures, and do not account for any expenditure disbursed by other Copermittees in the region.

#### [\*\*Grant Funding for Special Studies\*\*](#)

In addition to resources identified for Municipal Permit requirements, the City actively seeks grants, and other funding sources, for special studies and Capital Improvement Projects. For the most part, funding for these projects may be limited to the projects specified and the City may restrict funding reallocation to other projects. Therefore, these resources are currently not incorporated in calculations for total Municipal Permit requirements expenditures. Table 2.2 lists the grants that were issued in FY 2025. See below and Section 1.A for additional information on SWD's funding sources.

**Table 2.2: FY 2025 City Stormwater Department Grant Funding**

Funding Source	Project	Amount (\$)	Matching Fund Amount (\$)
Federal Emergency Management Agency	Upper Auburn Creek Revitalization	\$50,000,000	\$21,230,210
	Jamacha Drainage Channel Upgrade	\$50,000,000	\$28,750,000

#### **Funding Sources**

Citywide implementation of Municipal Permit requirements is funded through four main types of governmental funds: The General Fund, Special Revenue Funds, Enterprise Funds, and Internal Service Funds.

#### **1.1.1.1 General Fund**

The General Fund is the main fund for the City and is supported by major revenue sources, including property tax, sales tax, transient occupancy tax, and franchise fees. Departments funded by the General Fund provide core community services.

#### **1.1.1.2 Special Revenue Funds**

Special Revenue Funds account for revenues received for specifically identified purposes. Some of the larger funds that fall under this category include TransNet, Gas Tax, and Special Promotion programs. The City of San Diego Stormwater Department secured \$733 million in federal funding from the U.S. Environmental Protection Agency (USEPA) under the Water Infrastructure Finance and Innovation Act (WIFIA). The Stormwater Department created the Think Blue Infrastructure Division to deliver Capital Improvement Projects (CIP) under the loan program.

#### **1.1.1.3 Enterprise Funds**

Enterprise Funds are initiated for specific purposes and funded through fees for services. This funding type is designated for the operations, management, maintenance, and development of the department providing the service. The implementation of citywide JRMP activities is funded through the following enterprise funds:

- Airports Fund
- Development Services Enterprise Fund
- Golf Course Enterprise Fund
- Recycling Fund
- Refuse Disposal Fund
- Sewer Revenue Funds
- Water Utility Fund

#### **1.1.1.4 Internal Service Funds**

Internal Service Funds are comprised of fees for services provided by one City department to another City department or division. The implementation of citywide JRMP activities is funded through the following internal service funds:

- Engineering and Capital Projects Fund
- Equipment Division Funds
