

## **CONSTRUCTION NOTICE: Nighttime Water Main Replacement Work at Nobel Drive and Genesee Avenue Intersection**

Weather permitting, beginning Tuesday, February 17, the City of San Diego Morena Northern Pipelines and Tunnels' contractor will be working overnight at the Nobel Drive and Genesee Avenue intersection to replace and install new water mains. This work will take approximately 2 months.

Work will take place Monday through Friday from 9 p.m. to 5 a.m. each night. The work will be completed using two traffic control configurations. The traffic controls shown on the maps included below will only be in place during the nighttime work hours and will be picked up from the intersection at the end of each shift.

For one of the traffic control set-ups, the Nobel Drive and Genesee Avenue intersection will be closed to northbound and southbound traffic. Northbound traffic on Genesee Avenue will be detoured to turn right onto eastbound Nobel Drive and detoured left onto Towne Centre Drive and La Jolla Village Drive to return to Genesee Avenue. Southbound traffic on Genesee Avenue will be detoured to turn right onto westbound Nobel Drive and detoured left onto Cargill Avenue and Decoro Street to return to Genesee Avenue.

For the second traffic control set-up, the Nobel Drive and Genesee Avenue intersection will be closed to eastbound and westbound traffic. Eastbound traffic on Nobel Drive will be detoured to turn right onto southbound Cargill Avenue and detoured to turn left onto Decoro Street and left onto Genesee Avenue to return to eastbound Nobel Drive. Westbound traffic on Nobel Drive will be detoured to turn right onto northbound Genesee Avenue and detoured to turn left onto La Jolla Village Drive and left onto Regents Road to return to Nobel Drive.

Planned, temporary water outages are anticipated to be part of this work. Advance notice will be provided prior to the planned outages.

The City and project team are committed to completing construction as safely and efficiently as possible, and the University City community's patience and coordination are appreciated. Please note that construction schedules are subject to change at any time.

### **What to Expect:**

- Electronic message boards will be placed as advanced notification about the traffic control shift.
- Parking restrictions will be enforced; please avoid parking in areas with "no parking" signs. Vehicles in violation of these signs will be towed.
- 24/7 access for emergency vehicles, residences and businesses will be maintained.
- Please anticipate traffic delays and construction noise.

- For safety reasons, please follow all posted signs including detours for traffic.

**Why:** Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally by 2035 and significantly reduce treated discharges from the Point Loma Wastewater Treatment Plant. Pure Water San Diego will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The program offers a cost-effective investment for San Diego's water and wastewater needs. San Diegans are getting dual value from this investment — reliable, sustainable drinking water and avoided wastewater costs. The Morena Northern Pipelines and Tunnels project is one of several major water infrastructure projects in Phase 1 of Pure Water San Diego.

The City is committed to clear communication and providing up-to-date information about construction activities. Properties along the construction area will receive printed notices before work begins near their address, and construction notices will be regularly posted on [utc.purewatersd.org](http://utc.purewatersd.org). Please contact [purewatersd@sandiego.gov](mailto:purewatersd@sandiego.gov) or **833-UTC-PWSD (833 882-7973)** with questions about the City's Pure Water Program and the Morena Northern Pipelines and Tunnels project, and a team member will get back to you within one business day.
