HISTORY AND NOTES

Include any history or notes you have about this tree or these trees

A large, beautiful, heritage Chinese Elm tree with interesting branching patterns and a wide, weeping, and shade producing canopy. It provides a home to morning cloak butterfly, their eggs, and caterpillars.

Estimated to be an original tree in the 1950's neighborhood of allied gardens. According to neighbor who has lived in the neighborhood for more than 50 years, the tree pre-dates her and she believes it was planted in the late 1950's or early 1960's. Which correlates with a calculation based on its size/ diameter.

20.7" diameter x3 (species specific growth factor) = 62.1yrs old
Est planting date 1963

For the above tree(s) to be considered for designation as protected, this request has been forwarded to Right of Way Management Division. The tree(s) will be inspected by the Urban Forestry Program personnel to make sure all designation criteria are met. If they meet all criteria, the request will be forwarded to the Community Forest Advisory Board (CFAB) for evaluation and possibly protected status.

Requested Action: Transportation Department Right of Way Management Division requests that a Community Forest Advisory Board Arborist evaluate the nominated tree for confirmation. If the nomination is approved by CFAB, the tree will be added to the City of San Diego's Tree Protection Status as described in the Tree Protection Policy adopted by City Council in May, 2005.
