

Supervisor Paloma Aguirre, Senator Steve Padilla, and teachers support Antonio Martinez.

Antonio Martinez is a life-long resident of the district and has spent his career fighting for our communities.

After graduating from the University of Pennsylvania, Antonio served as a healthcare educator for the Nestor Community Clinic and as a congressional representative for Congressman Juan Vargas, helping residents and small businesses navigate government, securing resources, and making San Diego a more affordable place.

As a member of the San Ysidro School Board, Antonio strengthened curriculum, secured funding to modernize aging schools, and established the Citizens Bond Oversight Committee to ensure the public knows how their money is spent.

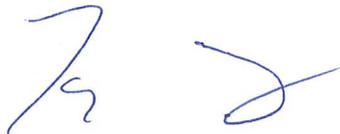

Our communities deserve our fair share.

As our Councilmember, Antonio Martinez will fight to make San Diego more affordable, support working families, address the homelessness crisis, increase funding for first responders, and invest in neighborhood infrastructure.

Our communities have been left to fend for themselves. Antonio is the fighter we need, and he has the skills and experience necessary to ensure our district gets our fair share.

Antonio Martinez is the fighter and the voice we need for San Diego's District 8.
