

I am a proud Latina, school parent, advocate for families, whistleblower, and community trustee. My record reflects safety, governance, transparency, and accountability.

I commit to standing up for the people and empowering our communities because they deserve leadership that honors their voice and rights. I ask hard questions and speak up when something isn't right. I will not be silenced when standing up for taxpayers and protecting them from unnecessary fees.

District 8 families are struggling with rising cost of living. I will always put families first — before fees and special interests disconnected from neighborhood needs.

Public safety is one of my top priorities. I support professionals working every day to keep neighborhoods safe. I am advancing practical solutions such as security cameras and safer schools to protect children.

With your vote we will improve our economy, bring good jobs, and support businesses. I'll fight for clean air and clean water while advancing science-based solutions to the Tijuana River Valley crisis. I will pursue practical housing and homelessness solutions that work for our community.

I am not a career politician. District 8 deserves bold leadership that listens to our community and delivers results. I am ready to lead with your vote.
