

Our Neighborhoods Are Worthy of Better

District 4 residents deserve a strong voice at the table, and I am committed to being that advocate for our communities. The need is visible every day, storm channels left uncleared, homes still flooding after the January 2024 storms, crumbling roads, underperforming schools, lack of green space and neglected parks. I am running to address this pattern of disinvestment and to ensure District 4 receives the attention, investment, and resources our neighborhoods deserve.

My Experience

- People-centered decision making: As a nurse, I'm trained to listen first, assess real needs, and act with compassion to deliver real results
- Public health expertise: I understand how housing, access to fresh food, quality schools, clean air, and access to green spaces directly affect health.

My Commitment

People First:

- Restoring trust by bringing residents into the decision-making process, listening, and holding leaders accountable.

Healthy and Engaged Neighborhoods:

- I will push for thoughtful growth and fair investment in public services and housing, ensuring District 4 neighborhoods are places where people don't just live, but truly thrive.

Every decision I make will reflect my guiding principle as a nurse and an advocate: people first, always.
