

CONSTRUCTION NOTICE:  
Work on Clairemont Drive and Erie St.

Construction for the Morena Conveyance South & Middle and Morena Conveyance Bike Lanes Project is progressing, with work continuing on the southbound lane of Clairemont Drive between Denver Street and Erie Street. Crews are currently working on finalizing a pipeline tie-in point, connecting the Middle pipeline segment to the South pipeline segment. Please advise that pipeline tie-in activities will take approximately two weeks to complete.

Daytime work hours will take place between 7:00 a.m. to 3:30 p.m. All the work will take place behind the barricades of the work zone to ensure the safety of the public and crews while working. While crews are working, typical noise associated with construction may be heard. Throughout this work, crews will maintain the cleanliness of the work zone to minimize any dust leaving.

Increased noise and dust are expected throughout the duration of the grinding and paving work. For the safety of the public and workers, traffic control measures will be in place throughout the work zone. Residents and commuters are asked to follow all posted signage, exercise caution, and adhere to traffic control directions. On-street parking will be restricted for the duration of the work. Due to the scale of this week-long operation, delays in the area are anticipated. Please allow extra travel time and plan commutes accordingly.

Please be advised that rain and inclement weather may impact the project schedule. Thank you for your patience and understanding as we make progress on this important project. We sincerely appreciate your patience and cooperation as we work to complete this critical infrastructure project for our community.

Regular project updates will continue to be shared via email blast. We strongly recommend adding yourself to the subscriber list to stay informed on the project. Please scan the QR code to the right, enter your contact information, and select lists # 4 & # 5 for the Morena South and Morena Middle Pipelines.

Please contact [purewatersd@sandiego.gov](mailto:purewatersd@sandiego.gov) or 833-MOR-PWSD (833-667-7973) with questions about the City's Pure Water Program and the Morena Conveyance South & Middle and Conveyance Bike Lanes project, and a team member will get back to you within one business day.

**Why:**

Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally by 2035 and significantly reduce treated discharges from the Point Loma Wastewater Treatment Plant. Pure Water San Diego will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The program offers a cost-effective investment for San Diego's water and wastewater needs. San Diegans are getting dual value from this investment — reliable, sustainable drinking water and avoided wastewater costs. The Morena Conveyance South & Middle and Conveyance Bike Lanes project is one of several major projects in Phase 1 of Pure Water San Diego.
