Date: 3/2/25

From (your name): [redacted]

Organization: [redacted]

Address: [redacted]

Phone: [redacted]

E-mail: [redacted]

HERITAGE TREE Significant for its age or historical value, including:
• Trees 50 years or older
• Connected to a historical event, building or district or denoted by a historically significant individual

PARKWAY RESOURCE TREE Groups of trees in public right-of-way, open space, designated environmentally sensitive lands, conservation easement or parkland:
• Consistent design theme with similar size, shape, health and form
• Trees creating a canopy over a public way

TYPE OF NOMINATION:
 LANDMARK TREE
 HERITAGE TREE
 PARKWAY RESOURCE TREES
 PRESERVATION GROVE
Species: African Fern Pines (Afrocarpus falcatulus)

Location & Nearest Cross Street: 1897 Lyndon Rd. Previously known as 4205 St. James Place

Estimated Height: 25 feet

Estimated Width: 25 inches (dbh)

Condition: Good

Estimated Planting Date: 110 years old (growth ring) Specific proof of age may be difficult to determine, but estimates based on the age of surrounding development or the size of tree are adequate.

PRESERVATION GROVE Groups of trees in public-right-of-way, open space, designated environmentally sensitive lands, conservation easement or parkland:
• 6 or more trees with trunks within 100 feet of each other
• Same or similar species and form
• Native, naturalized or endemic and surviving without intervention

Two African Fern Pines (Afrocarpus falcatulus) located on 1897 Lyndon Rd. (formally known as 4205 St. James Place), just outside and between the boundaries of the Mission Hills Historic District and the National Register Inspiration Heights Historic District. These exceptional trees stand at 65 feet high and have a dbh of 25 inches. These specimens are exceptional examples of providing high aesthetic value to the neighborhood. They have not been impacted by utility wires and thus provide significant canopy cover for the adjacent home and sidewalk.
