

Statement on Klauber Project Outcome

For too long, District 4 has carried the weight of planning decisions that excluded and disinvested in our community.

The Klauber project raises concerns regarding alignment with the adopted community plan, lacks transparency, and did not involve any meaningful community engagement with our residents.

Not a single resident of Encanto expressed support, and that speaks volumes. I just could not support the project. Our neighborhoods deserve better.

I will continue to push for a balanced housing approach; one that includes for-sale homes and gives working families a real opportunity at building generational wealth.
