

Statement on San Diego County's New County Counsel

I want to congratulate Damon Brown on his unanimous confirmation as San Diego County's new County Counsel and welcome him to our region.

Mr. Brown brings strong statewide experience from the State of California Attorney General's Office, where he served as a senior adviser to Rob Bonta, working on civil rights, voting rights, immigration, and consumer protection. He also made significant contributions to Assembly Bill (AB) 3121, California's Reparations Task Force, which studied the harms caused by slavery and developed proposals for reparations to African Americans. He has also served as a city attorney and worked in the private sector, bringing a well-rounded legal background to this role.

This is a significant appointment, as Mr. Brown's breadth of work and experience will contribute to bringing change to our region.

I wish him success as he takes on this important responsibility.

- Councilmember Henry L. Foster III
