FY27 INDIVIDUAL ARTIST FELLOWSHIP PROGRAM

Applicant List & Conflict of Interest Disclosure Materials for Panelists

Purpose of This Document

As part of the FY27 Individual Artist Fellowship review process, panelists are asked to carefully review the applicant list included in this packet and disclose any relationships, affiliations, or potential conflicts of interest prior to participating in the panel process. The names on this list appear as they were entered by applicants in their submitted application materials

A conflict of interest includes any personal, professional, financial, collaborative, supervisory, familial, or institutional relationship that could compromise, or reasonably appear to compromise, a panelist's ability to provide an impartial evaluation of an application. Disclosing a relationship does not automatically disqualify a panelist from participation; rather, disclosures help City staff determine whether recusal or other steps may be necessary to ensure a fair and equitable review process.

Panelists are expected to disclose both current and recent relationships, including collaborations, mentorships, employment connections, financial interests, or other affiliations that may create real or perceived bias. We recognize the interconnected nature of artistic communities and appreciate your thoughtful participation in supporting a transparent and ethical review process.
