Alvarado 2nd Extension Pipeline Project

Ongoing Work On Friars Road Between Napa Street and Via Las Cumbres

Crews on the Project are working during daytime hours to install pipeline on Friars Rd. between Napa St. and Via Las Cumbres, moving east on Friars Rd. as they progress.

As part of this work, traffic control equipment has been installed in the roadway to give crews a safe space to work. During this phase of work, access into and out of the Mission Valley YMCA is provided via eastbound Friars Rd. Vehicles can only make a right turn into and out of the Mission Valley YMCA parking lot. For vehicles traveling westbound on Friars Rd., the recommended detour provided is via Colusa Street, Riley Street, Azusa Street, Gaines Street and Napa Street. Please see the map below for the recommended detour route.

The Project team is estimating that this phase of work and the associated traffic control setup will last for approximately four weeks. The map below outlines the suggested detour for vehicles to access the Mission Valley YMCA.

Regular Project updates are provided via email. To sign up for Project updates, scan the QR code below, enter your contact information, and select list "Project Updates: Alvarado 2nd Pipeline Extension."
