CONSTRUCTION NOTICE: Final Paving on Genesee Avenue, Nobel Drive and Towne Centre Drive

For the Morena Northern Tunnels and Pipeline project, crews have completed installation of the 48-inch and 30-inch pipelines, as well as the base repairs required for final paving. Paving is complete on Genesee Avenue from Appleton Street to Governor Drive.

Final Paving and Restoration

Beginning Friday, June 26, crews will begin paving on Genesee Avenue and Nobel Drive. Work will start at Decoro Street and Genesee Avenue, continue toward Nobel Drive, proceed along Nobel Drive to Towne Centre Drive, and then move along Towne Centre Drive to Executive Drive and Judicial Drive.

The paving schedule is as follows:

- Genesee Avenue and Nobel Drive: Friday, June 26 – Wednesday, July 1, 2026
- Towne Centre Drive and Executive Drive: Wednesday, July 1 – Wednesday, July 8, 2026

Crews will grind the roadway with heavy equipment before applying a new layer of asphalt. Work will occur nightly from 8 p.m. to 6 a.m. through July 8. Traffic control will remain in place throughout the work zone, and on-site crews will guide vehicles through intersections as needed.

What to Expect:

- Increased noise and dust are expected throughout the duration of the grinding and paving work.
- Electronic message boards will provide advance notice of traffic control changes.
- Parking restrictions will be enforced. Please do not park in posted no-parking areas; vehicles in violation will be towed.
- Access for emergency vehicles, residents, and businesses will be maintained at all times.
- Please expect traffic delays and construction noise during work hours.
- For your safety, please follow all posted signs and traffic detours.

The City and project team are committed to completing construction as safely and efficiently as possible, and the University City community's patience and coordination are appreciated. Please note that construction schedules are subject to change at any time.

Why: Pure Water San Diego is the City of San Diego's advanced water purification program that will provide nearly half of San Diego's water supply locally by 2035 and significantly reduce treated discharges from the Point Loma Wastewater Treatment Plant. Pure Water San Diego will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The phased, multi-year program offers a cost-effective investment for San Diego's water and wastewater needs. San Diegans are getting dual value from this investment — reliable, sustainable drinking water and avoided wastewater costs. The Morena Northern Pipelines and Tunnels project is one of several major water infrastructure projects in Phase 1 of Pure Water San Diego.

The City is committed to clear communication and providing up-to-date information about construction activities. Properties along the construction area will receive printed notices before work begins near their address, and construction notices will be regularly posted on utc.purewatersd.org. Please contact purewatersd@sandiego.gov or **833-UTC-PWSD (833 882-7973)** with questions about the City's Pure Water Program and the Morena Northern Pipelines and Tunnels project, and a team member will get back to you within one business day.
