Alvarado 2nd Extension Pipeline Project

Project-Wide Update

Crews on the Project are continuing to work during daytime hours to install pipeline on Friars Rd. between Napa St. and Via Las Cumbres, moving east on Friars Rd. as they progress. As part of this work, traffic control equipment has been installed in the roadway to give crews a safe space to work. Please observe any signage or changes in vehicle travel lanes when travelling through the work zone.

Next Milestone: Friars Road and Colusa Street Intersection

Current schedules estimate that work will reach the intersection of Friars Road and Colusa Street in approximately two weeks. Works plans and any associated traffic impacts or detours are still being developed and will be shared via email once approved. Work within this intersection is expected to occur during daytime hours.

Paving on Friars Road: Mission Center Road to Civita Property

Current schedules estimate that crews will be repaving Friars Road, in the areas where work has impacted the road surface, within three weeks. This repaving activity will occur on Friars Road, between Mission Center Road and Friars Road west of Russell Park Way. Additional notifications will be sent in advance of this work starting.

Regular Project updates are provided via email. To sign up for Project updates, scan the QR code below, enter your contact information, and select list "Project Updates: Alvarado 2nd Pipeline Extension."
