2022 YEAR IN REVIEW

A message from Councilmember Raul Campillo

Happy 2023! Welcome to the 2022 Year in Review of the District 7 Dispatch.

I have officially been the Councilmember for District 7 for two years now, and it has been a pleasure to meet so many of you and listen to your suggestions, concerns, and excitement for things accomplished and for what's to come.

My vision when I took office was to make our local government more accessible, transparent, and accountable – that hasn't changed. I want to assure you that I will continue to fight for every resident in District 7 and the City of San Diego to ensure that we live up to our motto as "America's Finest City." I want to thank you all for your ideas and feedback within your communities – District 7 is one that truly has great neighbors.

I also want to thank our wonderful city staff for their tireless efforts, and Mayor Todd Gloria for listening and taking action to get many projects started and completed for District 7.

Finally, I want to thank my wife, Nadia, for her love and support, through this wonderful job.

Working Daily *for D7*

Our motto in the District 7 office is
"Bring it back to District 7".
In 2022, I was happy to deliver key
improvements to my communities, including
authorizing the actions on the following pages:

Proposed design of the future San Carlos Library (subject to change)

San Carlos Library

In 2022, I secured \$1.5 million in City funding and \$1.5 million in state funding to complete design of the future flagship branch. I also worked with Stantec, the consultant that was remediating the past groundwater issue, to finalize the work necessary to close out the case with the San Diego Water Board. I am also very excited to announce that in early 2023, the Mayor will be signing off on the acquisition of the neighboring lot, so the City will fully own the land needed to build the new branch. Once construction funding is identified, the project is on track to start construction in 2025.

SDPD Eastern Satellite Office

The Eastern Division serves a population of 155,892 and covers 47.1 square miles, including the Navajo community. Through a partnership with a Grantville business, and the Smith family, I was able to open a satellite office in Navajo to ensure officers can stay in the area for report-writing, food breaks, and other tasks to improve public safety response times for the District.

Allied Gardens Dog Park Forum

This year, I worked with the Parks and Recreation Department to identify a location for an off-leash dog park. After conducting a community workshop in September 2022, the proposal to place it at the current passive-use green area between the Allied Gardens Pool and Library received a unanimous recommendation from the Allied Gardens Community Recreation Group in November 2022. The proposal now heads to the City's Parks and Recreation Board in the spring, and if approved, will target installation in summer 2023.

Linda Vista Library Patio Expansion

This year I worked with U.S. Representative Sara Jacobs to secure \$500,000 in the federal budget to expand the current Linda Vista Library's patio to a full Early Learning Lab.

Bridge for Max

Early in my term in office, 21-year-old university student Max Lenail tragically passed away while crossing the San Diego River. Over the last two years, I am proud to have worked closely with the Lenail family and other stakeholders to advocate for this needed crossing in Mission Trails as we build a Bridge for Max. The Bridge for Max project saw quite a lot of traction over the last year. I was thrilled that the Lenail family secured KPFF as their design consultant and are now working to secure the necessary permits to begin construction soon.

Proposed design of the future Bridge for Max (subject to change)

Ruffin Canyon Palm Removal

I worked with San Diego Canyonlands to advocate for the Ruffin Canyon Trail extension, cleaned up debris in Ruffin Canyon, and secured \$100,000 for removal of the invasive palm trees in Serra Mesa. The palm tree removals will support fire abatement efforts, remove invasive species from the canyon, promote native species growth, and help with trail development.

ADDITIONAL DISTRICT 7 ACCOMPLISHMENTS

- Acquired 25 acres of open space lands within the East Elliott area to conserve natural habitat within Mission Trails Regional Park
- Planted 300 trees with SDG&E in Allied Gardens

Throughout this year, I was able to secure funds to expand the Safe-Parking facility in Mission Valley to a 24-hour facility to support our unhoused neighbors; joined the San Diego Wave for their first game at their new home in Snap Dragon Stadium; and to enjoy countless outdoor concerts at Civita.

We were also able to break ground on a new SDG&E microgrid that will ensure there is always backup energy available for the state in the instance that there is a major weather event. Finally, this year also saw the final issue of the Tierra Times, a beloved community paper that I loved reading as well. I would also like to pay tribute to its Editor-in-Chief, Mrs. Deanna Spehn, who passed away in late 2022. PUBLIC SAFETY

As a member of the City of San Diego's Public Safety Committee and SANDAG's Public Safety Committee, I was proud to advance these items that will promote health and safety throughout District 7 and across the City of San Diego. These wins will better prepare our region for any emergency or health crisis that comes our way:

Approved an ordinance to formally establish the Commission on Police Practices (CPP), which was approved by voters as Measure B in 2020.

- Approved the final ordinance regulating the City's use of surveillance technology and led the charge to exempt work assigned to officers as part of their partnership with the FBI and federal task forces in order to not compromise the City's ability to participate in key federal law enforcement operations and investigations.
- Approved the expenditure of state grant funding to allow the City Attorney's Office to continue providing statewide Gun Violence Restraining Order trainings for the next three years.

Approved a ban on flavored tobacco in the City of San Diego.

Authored the Solar Equity Program for middle- and low-income residents, that launched in August 2022.

HOUSING/HOMELESSNESS

As a City Councilmember and a member of the City's Housing Authority, I fought to increase our affordable housing supply while also safeguarding our most vulnerable from falling into homelessness.

Amended agreement with Jewish Family Service for the Safe Parking Program to operate for 24 hours a day at the Mission Valley site, provided additional flexible funding for families in the program, and secured funding to open an additional site in 2023.

Approved more than \$60 million in federal and state funding for the City's Housing Stability Assistance Program. Overall, at its conclusion, the program paid out more than \$218 million to help more than 18,300 qualifying households who were facing homelessness and economic hardships due to the pandemic.

Approved the development of over 1,300 affordable units in the City of San Diego.

Approved Homes for All of Us Housing Package 1.0 that incentivizes and promotes new housing opportunities throughout the City that San Diegans of all income levels can afford, through new local programs and incentives, implementation of SB9, and updates to the City's ADU regulations.

Championed and approved a new Housing Instability Prevention Program to assist 300 families in San Diego with low income and unstable housing situations. This is a proactive new program which focuses on keeping those housed who are on the brink of becoming homeless.

ENVIRONMENT

- Updated the formula for expending infrastructure funding, to ensure that funding for parks, transportation, fire stations and libraries are spent on projects that help meet the City's Climate Action Plan goals, in areas experiencing the most growth and areas with the most need.
- Adopted an updated Climate Action Plan and added language committing the City to implementing the San Diego River Park Master Plan and the San Diego Bicycle Master Plan, with more protected bikeways, and traffic speed reductions along selected corridors.
- Approved Memorandum of Understanding between the City and SDSU to construct the Fenton Parkway bridge across the San Diego River.

Adopted a Memorandum of Understanding with SDG&E to resume Citywide undergrounding projects, and added language to prioritize wildfire-prone areas and require more transparency.

Authored a resolution of intent to pursue an Enhanced Infrastructure Financing District (EIFD) to create a dedicated funding stream for San Diego River improvements. This will not charge additional taxes, but will earmark a portion to fund a connected trail on both sides of the river between Ocean Beach in the west and Julian in the east.
