CONSTRUCTION UPDATE

Traffic Control Will Remain on Eastgate Mall During the Morning of Wednesday, July 2

Traffic control on Eastgate Mall for the North City Pure Water Pipeline project will need to remain in place during the morning of Wednesday, July 2 to accommodate paving activity. Throughout this time, traffic lanes will be reduced and flaggers will direct the flow of traffic on Eastgate Mall between Eastgate Court and Eastgate Drive. Traffic control will be removed from the roadway as soon as crews can safely complete their work.

In the meantime, residents and commuters are advised to use Towne Centre Drive to access Eastgate Mall throughout the morning of Wednesday, July 2.

The North City Pure Water Pipeline project is one of several major infrastructure projects that are part of Phase 1 of Pure Water San Diego. The pipeline will start on Eastgate Mall and follow Miramar Road to Kearny Villa Road and continue along Candida Street to Via Pasar and Via Excelencia. From there, the pipeline will tunnel under Interstate 15. On the east side of Interstate 15, it will continue along Businesspark Avenue to Carroll Canyon Road and follow Hoyt Park Drive to Meanley Drive before crossing Scripps Lake Drive to the Miramar Reservoir.

The City is committed to clear communication and providing up-to-date information about construction activities. Please visit scrippsranh.purewatersd.org for more information. Please contact purewatersd@sandiego.gov or **833-MIR-PWSD (833-647-7973)** with questions about the City's Pure Water Program and the North City Pure Water Pipeline project.

To forward this e-blast, [forward this link](#).

Safety of the construction crews and community is our top priority.
Please slow down near work sites and follow pedestrian instructions.

About Pure Water San Diego

Pure Water San Diego is the City of San Diego's phased, multi-year program that will provide nearly half of San Diego's water supply locally. The Pure Water Program will use proven water purification technology to clean recycled water to produce safe, high-quality drinking water. The Program offers a cost-effective investment for San Diego's water needs and will provide a reliable, sustainable water supply.
