Executive Summary

The Infrastructure Priorities Summary Report offers a comprehensive review of community feedback on infrastructure priorities, incorporating input from Asset-Managing Departments and highlighting how community input influenced the formulation of the Five-Year Capital Infrastructure Planning Outlook (Outlook). Asset-Managing Departments are departments that oversee managing a specific kind of asset. For example, the Parks and Recreation Department is the Asset-Managing Department for all public parks and public recreational facilities within the City.

This engagement effort is part of a comprehensive process outlined in Council Policy 800-14, which was amended in December 2022, and emphasizes the importance of community input in shaping the City's Capital Improvement Program (CIP) budget and multi-year infrastructure plan.

Council Policy 000-32, which was also amended in December 2022, further reinforces the need for an equitable and efficient process for gathering input on infrastructure needs and priorities. This policy underscores the evolution of community engagement efforts and emphasizes the importance of engaging with a diverse group of community members to ensure that the City's infrastructure investments align with the community's evolving needs.

The process outlined in Council Policy 000-32 calls for proactive outreach and engagement efforts, including providing user-friendly formats for public input, conducting public hearings and focusing engagement efforts in underserved communities. It also requires consideration of various factors, such as prior community recommendations, existing CIP projects, land use plans and adopted City policies, when prioritizing infrastructure projects.

The Outlook, developed and adopted by the City Council each year, serves as the roadmap for the City's infrastructure investment over the next five fiscal years (from July to the following June). It integrates input from multiple sources, including maintenance reports/service level reports, Asset-Managing Department needs, City Council input, adopted plans and policies, and ongoing public input.

What is the Capital Improvement Program development process?

SEP.

Project ideas from community members and the Community Planners Committee that are submitted throughout the year are collected by City Planning.

OCT.

Project ideas are shared with the City departments responsible for managing the assets.

NOV. - DEC.

Departments review the ideas and use factors such as project priority scores and public input to prepare their infrastructure plans.

DEC. - JAN.

Infrastructure plans are then incorporated into the Outlook, which summarizes project funding needs and is sent to the Department of Finance for budget allocation.

APRIL

City Planning posts the Infrastructure Priorities Report summarizing input received and feasibility of proposed project ideas.

Continued as part of the budget cycle

What is the Department of Finance Budget Cycle?

DEC.-JAN.

Departments submit budget requests for the fiscal year.

FEB. - MAR.

The Department of Finance prepares the proposed citywide budget.

APRIL

Mayor releases the proposed budget.

MAY

City Council holds public budget hearings to gather community input.

JUNE

City Council adopts the final budget.

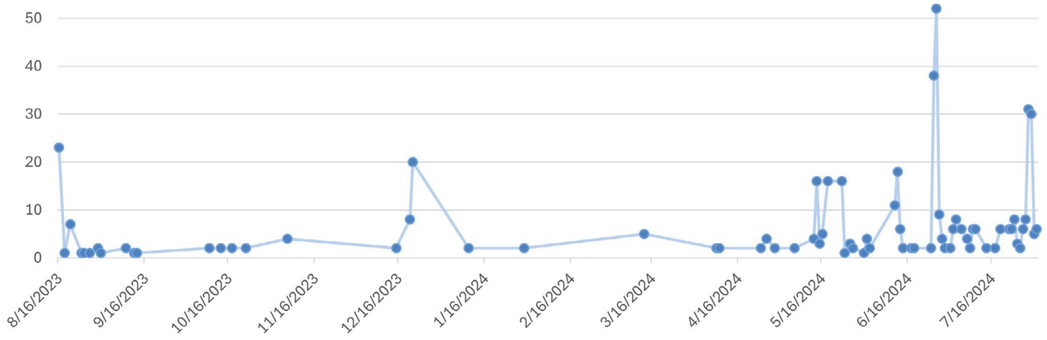

Community Engagement

The City Planning Department leads the community engagement process to collect input on what projects in our public spaces are most important to community members. The goal is to create a single, straightforward process for identifying community priorities across all types of public spaces, rather than focusing only on certain funding sources, such as Development Impact Fees. By gathering input on overall community needs, the City can better combine different funding sources to deliver the projects that matter most.

This process has strengthened communication between community members and the City, making it easier for people to share ideas for Capital Improvement Projects and suggest ways to care for existing public spaces. It also provides the City with another way to share updates on current projects or explain why some ideas may not qualify for the CIP Outlook. Overall, this approach helps make the process more transparent and keeps the community better informed and involved.

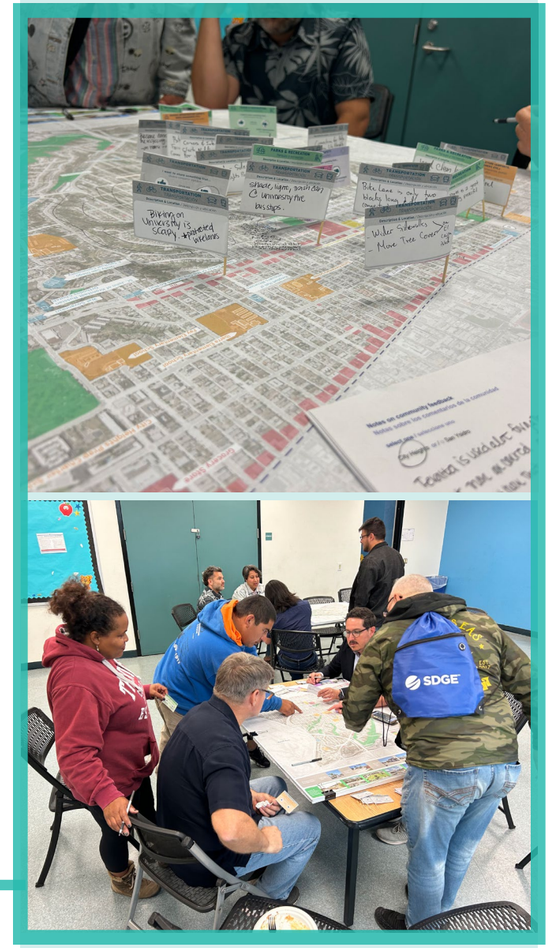

The survey to gather community input for infrastructure priorities remains open continuously all year. However, City Planning staff requested community members to take the survey by Aug. 1, 2024, to inform the Outlook for fiscal years 2026 – 2030. Community input on infrastructure priorities was received through the Infrastructure Priorities Survey, as well as in-person community events held from April to August, 2024.

City Planning staff, in collaboration with the Engineering and Capital Projects Department, engaged with community members and shared information about the Infrastructure Priorities Survey at the following :

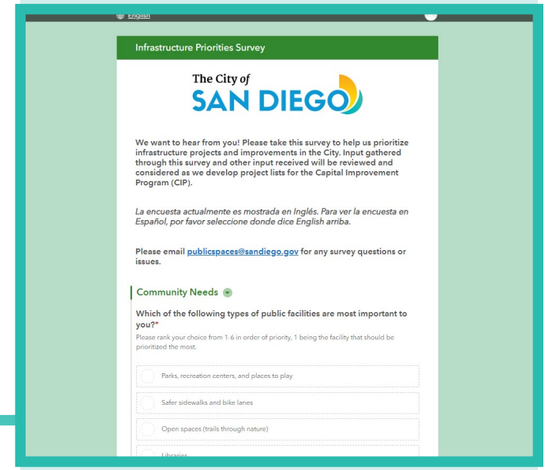

Participation from Survey and In Person Events: Aug. 16, 2023 to Aug. 01, 2024

1. Southeastern San Diego Community Planning Group Meeting on April 8, 2024
2. Four-Part Workshop Series in City Heights
   - Part 1: May 15, 2024
   - Part 2: May 29, 2024
   - Part 3: June 26, 2024
   - Part 4: July 10, 2024
3. Four-Part Workshop Series in San Ysidro
   - Part 1: May 16, 2024
   - Part 2: May 30, 2024
   - Part 3: June 20, 2024
   - Part 4: July 11, 2024
4. Southeastern San Diego Workshop on August 26, 2024

Four-Part Workshop in City Heights
May 2024

Online Infrastructure Priorities Survey

Community Engagement

The City Planning Department also shared the Infrastructure Priorities Survey through social media posts as well as email blasts to council offices, community planning groups and community members who signed up for updates.

Over 1,300 community members provided their input through the survey sharing their project ideas regarding various asset types such as parks, libraries, transportation, etc. This report summarizes the result of that engagement and input, as well as the responses of the applicable Asset-Managing Departments. The Infrastructure Priorities Survey will remain open continuously throughout the year, and community members can continue to provide input and help guide the future outlooks and budget process.

1300+ Responses

All responses are available in the appendix.

Four-Part Workshop in San Ysidro
June 2024

Summary of Community Input

Demographic Data

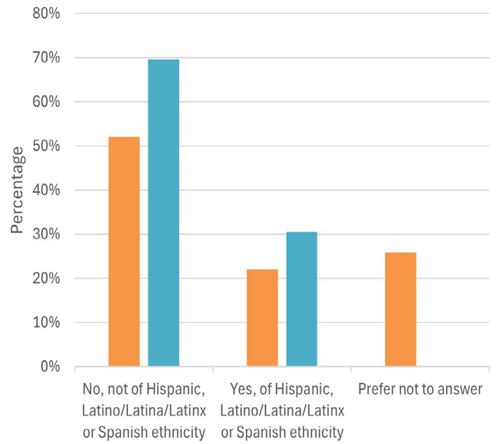

The survey included various demographic questions. Although this section was optional, it helps the City measure the success of our community outreach, and improve where needed. Knowing who has participated helps the City in its efforts to tailor its engagement to ensure that the people that provide feedback are representative of the City's demographics.

Summary of Community Input

Improvement Needs

Community members were asked to rank public facility and amenity categories to identify areas most important and most in need of improvement. The results inform the City's prioritization of new facility construction and improvements to existing public infrastructure.

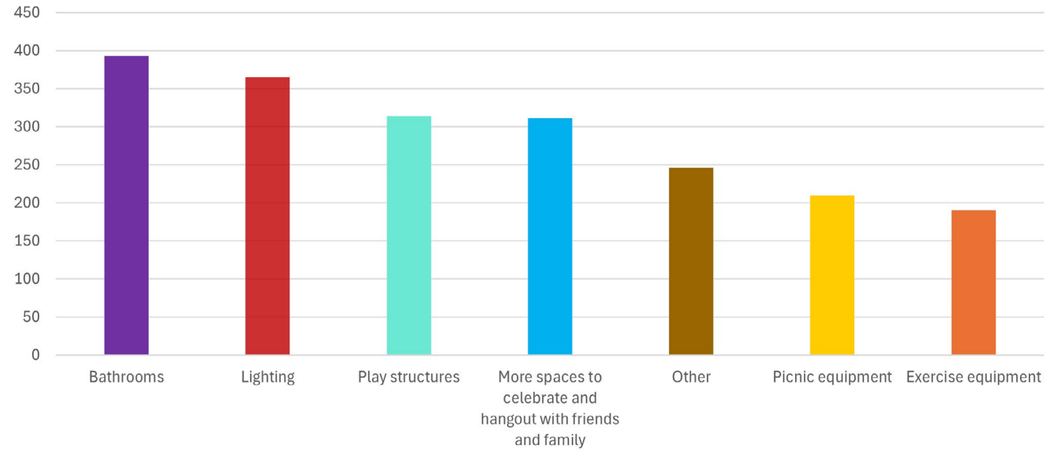

Which of the following types of public facilities are most important to you?

The above graph summarizes the input received. Consistent with results from the prior year, parks, recreation centers and places to play was identified as a top priority followed by safe sidewalk and bike lanes, open spaces and libraries.

Improvement Needs

For public facilities like parks that already exist in your community, what types of improvements would increase your use and enjoyment of these public spaces?

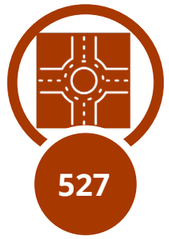

Answers	Count	Percentage
Bathrooms	393	81%
Lighting	365	75%
Play Structures	314	64%
More spaces to celebrate and hangout with friends and family	311	64%
Other (street repairs, trees, parking, operational, etc.)	246	50%
Picnic equipment	210	43%
Exercise equipment	190	39%

The graph above shows the number of respondents who selected each improvement option, with higher bars indicating more widespread interest. Because respondents could choose multiple improvements, counts reflect how many people prioritized each item rather than a ranking of exclusive choices. Overall, bathrooms and lighting emerged as the most commonly selected needs, followed by play structures and social gathering spaces, indicating a strong emphasis on amenities and shared-use features.

Summary of Community Input

Project Ideas

Public input received was categorized based on asset type and shared with various City departments for consideration. Below is a breakdown of the comments based on asset types:

Transportation

Parks and Recreation

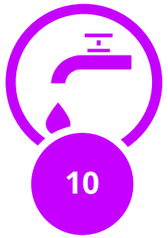

Library

Homelessness Strategies and Solutions

Stormwater

Public Utilities

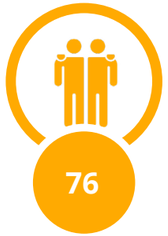

Fire-Rescue

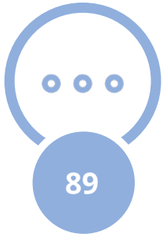

Police

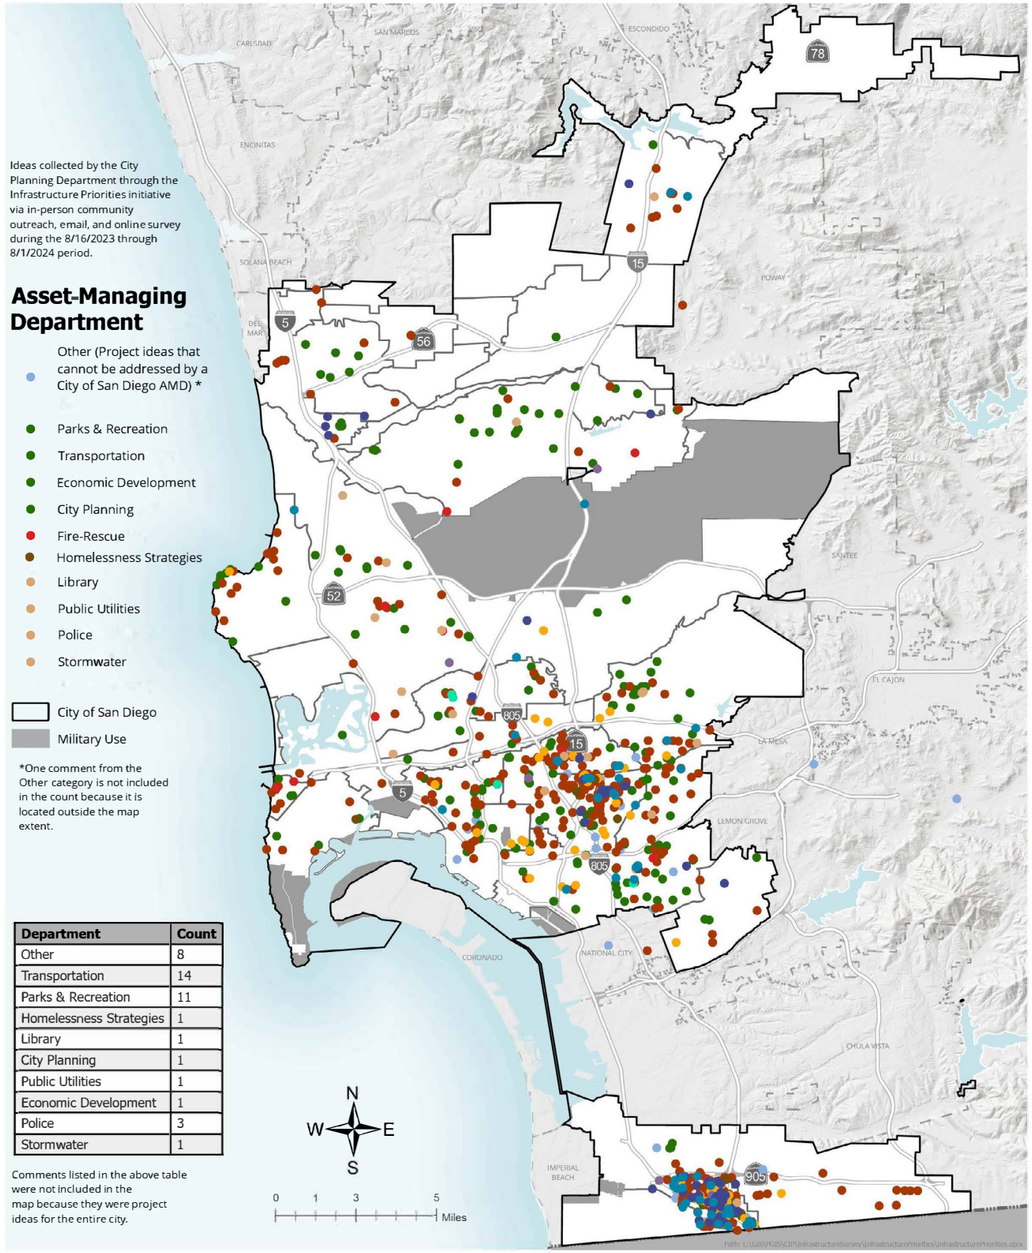

Economic Development

City Planning

The City of SAN DIEGO

Infrastructure Priorities

Community Project Ideas Collected For FY26-FY30 Infrastructure Plans

Overview of Department Responses

Based on the project ideas received, Asset-Managing Departments identified 12 common themes of responses. Further elaboration on these responses is provided below. For more detailed information on individual comments, please refer to Appendix A.

Active & Completed Projects

- Completed
- Project is in Progress

Projects for Future Consideration

- Insufficient Resources
- Needs Evaluation
- Insufficient Detail
- Not Currently Needed Based on Analysis

Projects Included in Outlook

- Included in the Outlook
- Funding Requested

Projects Not Eligible for Inclusion

- Operational
- Not Managed by City
- Not Feasible
- Does Not Align with City Policies

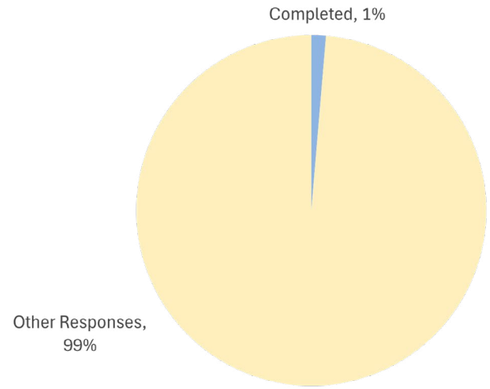

Overview of Department Responses

Active & Completed Projects

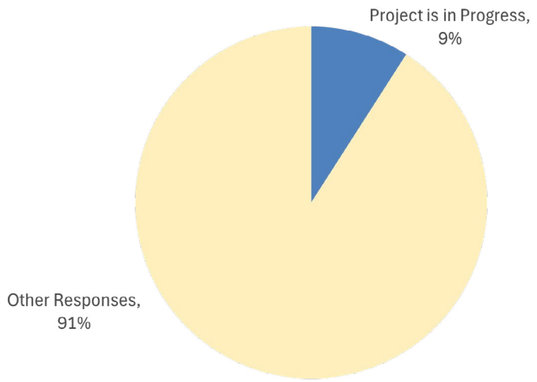

Completed

Project ideas with an outcome labeled Completed means the project idea has been implemented, and the community can enjoy the infrastructure provided. An example of this is the proposed idea to install bike lanes along El Cajon Boulevard, which has already been realized, as the corridor now includes bus/bike lanes from Park Boulevard to Fairmount Avenue.

Project is in Progress

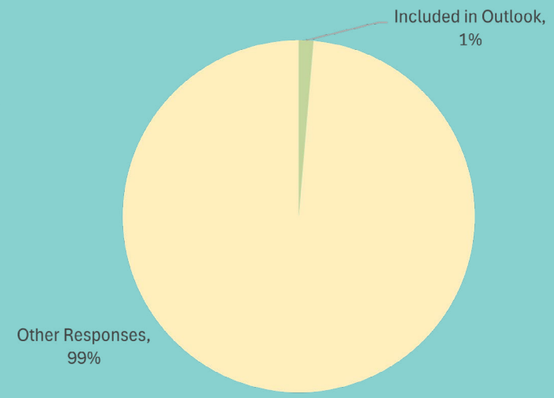

Project ideas with an outcome labeled Project is in Progress means the project idea is currently being worked on and may be in the design, construction, closeout, or other phase. Therefore, because it is currently in progress, inclusion in the Outlook is not warranted. An example of this is a request to rehabilitate a bathroom in Balboa Park. This work is already underway, and the Parks and Recreation Department provided a project number, L25000, where progress can be tracked. City CIP projects are tracked in a system called Project Finder. Using the search feature in the upper right-hand corner, enter the project number or address, to obtain more information about the project, including the project description and timeline.

Projects Included in Outlook

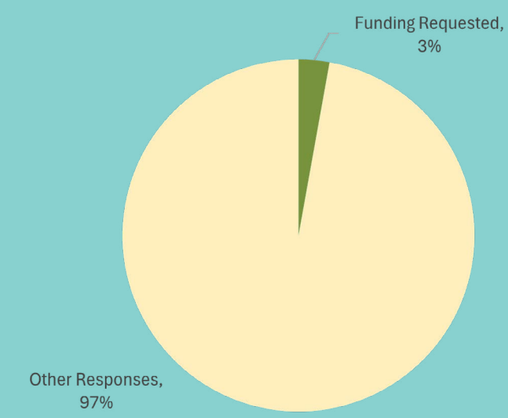

Included in the Outlook

Project ideas with an outcome labeled Included in the Outlook means the project idea has been included in the Asset-Managing Departments infrastructure plan, it has been accounted for in the current Outlook and funding for the project will be requested as part of the annual budget process. An example of this outcome type is the request for lane realignment at a specific road, which the Transportation Department has identified to be added to their current outlook.

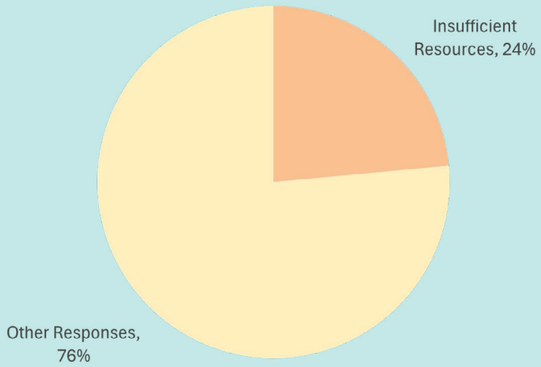

Funding Requested

Project ideas with an outcome labeled Funding Requested have been identified by the Asset-Managing Department as a priority need and are sufficiently defined to be considered for funding. These projects have been included in the Outlook but currently lack the funding necessary to advance. The primary barrier to implementation is the availability of capital funding rather than project definition, feasibility, or departmental capacity. An example of this outcome type is the installation of storm drains at a specific location that has been identified as a departmental priority but remains unfunded.

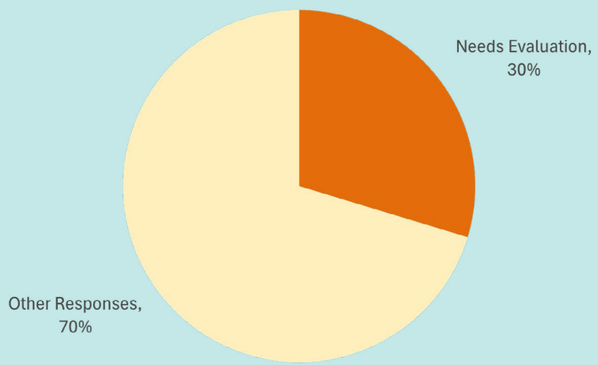

Overview of Department Responses

Insufficient Resources

Project ideas with an outcome labeled Insufficient Resources have not been included in the Outlook because additional staff resources, technical studies, planning, design, coordination, or other project development work is needed before the project can be fully scoped, evaluated, or considered for funding. While future funding may also be required, the primary constraint at this stage is the lack of resources needed to advance the project to a level where it can be programmed in the Outlook. An example is the North Park Water Tower soccer fields project, which requires additional studies, coordination, and feasibility evaluation before it can be considered for inclusion.

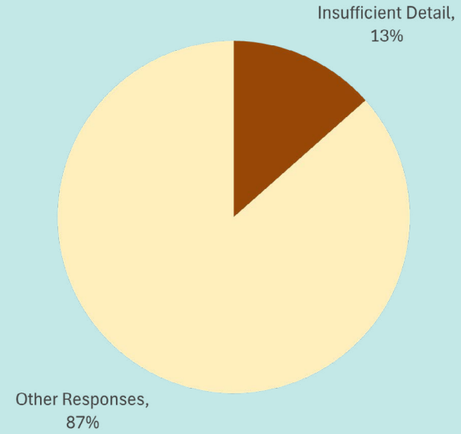

Needs Evaluation

Project ideas with an outcome labeled Needs Evaluation were not included in the Outlook as they require additional research and/or may involve more than one department's input. An example of this is the request for a bike path separated from traffic in La Jolla, which was not considered in the Outlook as additional research is required before it can be included in the Outlook.

Projects for Future Consideration

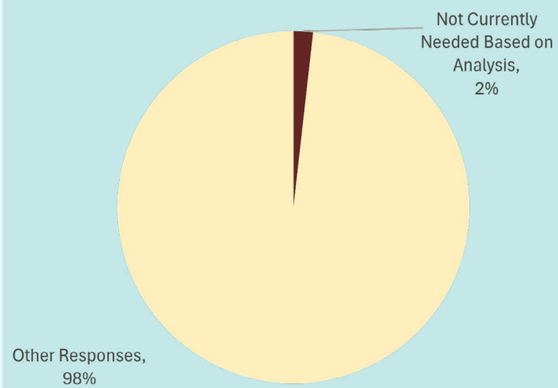

Insufficient Detail

Project ideas with an outcome labeled Insufficient Detail have not been included in the Outlook because the request lacks project details and perhaps a specific project location. A lot of these requests were general comments that the requester would like to see citywide. When possible, the Asset-Managing Department provided resources in Appendix A about where the requester can follow up to obtain more information on the efforts the City is doing to address their concern. However, due to the broad nature of the request, it was not able to be included in the Outlook.

Not Currently Needed Based on Analysis

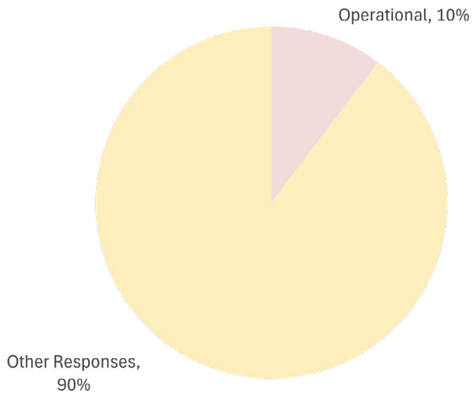

Project ideas with an outcome labeled Not Currently Needed Based on Analysis have not been included in the Outlook because they have been evaluated by the responsible department and have been determined as not currently needed. Each department employs diverse metrics to gauge the necessity of constructing or expanding assets. For instance, the Fire-Rescue Department relies on a Citygate Associates Consultant Report that evaluates response times for crews reaching a site. Depending on these response times, the necessity of new or expanded asset is determined. More information on these metrics for each Asset-Managing Department is included in the notes column and can be found in Appendix A.

Overview of Department Responses

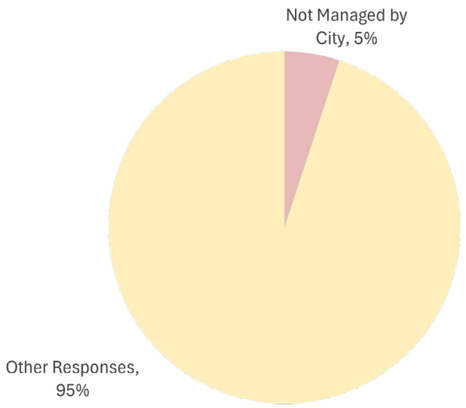

Operational

Project ideas with an outcome labeled Operational have not been included in the Outlook because the ideas are not infrastructure assets. An example of this is to pick up trash. This is not an infrastructure project, it is an operational effort, and therefore it is not included in the Outlook.

Not Managed by City

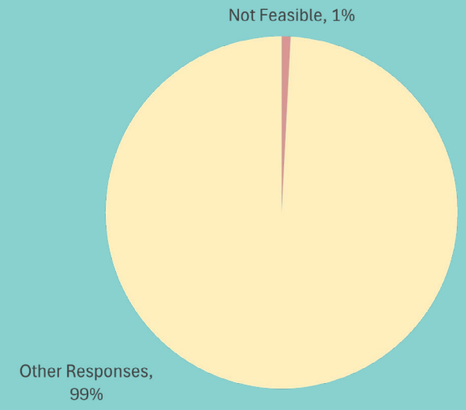

Project ideas with an outcome labeled Not Managed by City have not been included in the Outlook because they fall outside of the City's jurisdiction or responsibilities. These include projects managed by the private sector, projects located outside of City limits, or those under the authority of another agency. Examples include requests for additional grocery stores (private sector), improvements to trolley or freeway infrastructure (other agency's jurisdiction), or the construction of recreation centers in neighboring cities (outside City limits). Since these types of projects are not built or managed by the City, they are not considered Capital Improvement Projects and cannot be addressed through this process. Wherever possible, the City will share these comments with the appropriate agencies for their awareness and consideration.

Projects Not Eligible for Inclusion

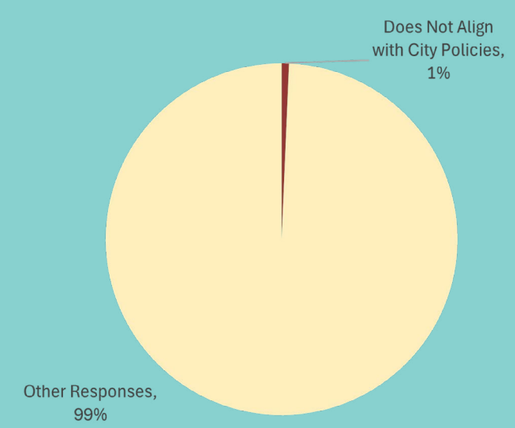

Not Feasible

Project ideas with an outcome labeled Not Feasible have not been included in the Outlook because they have been deemed infeasible due to site conditions or current restrictions on building height limits, etc. An example of this is a request to expand a specific library location including its parking area. The Library Department has reviewed the project idea and responded that it is not feasible as there is no land available for purchase next to the library, but a shared parking lease agreement is currently in place.

Does not Align with City Policies

Project ideas with an outcome labeled Does Not Align with City Policies have not been included in the Outlook because the ideas do not align with adopted City policies. Some examples of this are removing bike lanes and spending money obtained from a development project in a community solely in that community. These requests do not align with City's policies such as the Climate Action Plan, which encourages walking/rolling and biking to reduce greenhouse gas emissions and improve community health. They also do not align with City policies that encourage prioritizing public investments in areas with the greatest needs to enable the delivery of infrastructure equitably and sustainably across the city.

Summary of Department Responses

The following sections provide a summary of what each of the Asset-Managing Departments do, what requests have come in for each of the departments and what their responses were from the definitions listed above. Please refer to Appendix A for more detailed responses from the Asset-Managing Departments for each of the requests submitted.

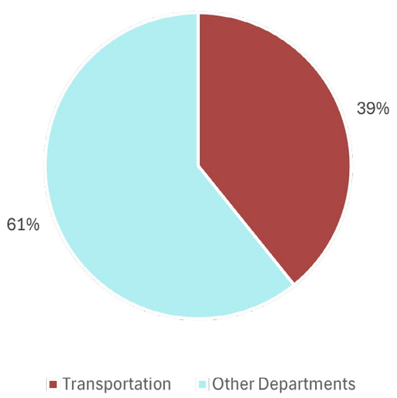

Summary of Department Responses

Transportation

There were 527 project ideas related to the work of the Transportation Department, which compose 39% of the total ideas collected.

The Transportation Department builds and maintains a safe, efficient and sustainable mobility network for residents and visitors alike. Responsible for managing a diverse array of transportation assets, the Department oversees an extensive network of sidewalks, bike lanes, streetlights and shared-use paths. The Transportation Department also manages the City's Urban Forestry Program, which includes the planning and policies for tree preservation, maintenance and planting. Through strategic planning, infrastructure maintenance and innovative initiatives, the Transportation Department works to improve mobility, reduce congestion, improve safety for vulnerable road users and enhance the overall quality of life for the community.

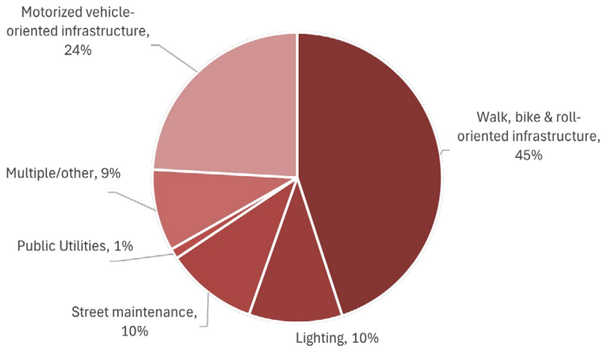

More information on the Transportation Department can be found here: https://www.sandiego.gov/transportation.

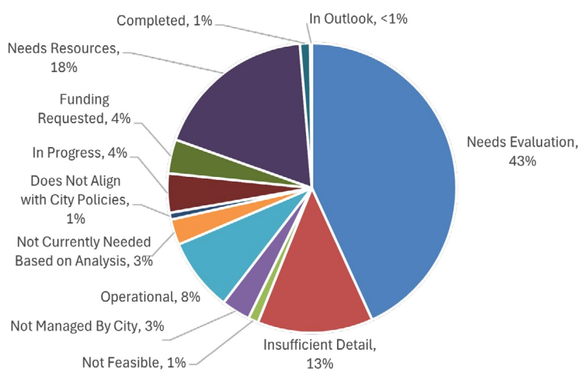

Summary of Department Responses

Parks and Recreation

There were 427 project ideas related to the work of the Parks and Recreation Department, which compose 32% of the total ideas collected.

The Parks and Recreation Department provides community members and visitors with access to clean, safe and well-maintained parks, open spaces and landscaped areas. The Department aims to enhance access to enjoyable recreational opportunities for everyone, particularly in areas identified as Communities of Concern, by reducing barriers to program participation and addressing gaps in services between various recreation facilities. Moreover, the Department prioritizes implementing climate action goals, including reducing fossil fuel usage, managing natural resources, and enhancing the urban shade canopy by planting trees in parks and replacing dead or dying trees. With over 40,000 acres of park assets, more than 400 parks, and various recreational facilities including recreation centers, pools, skate parks and golf courses, the Parks and Recreation Department plays a vital role in enhancing the quality of life for residents and visitors.

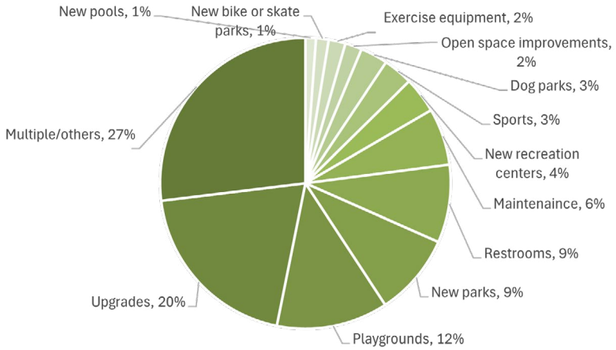

More information on the Parks and Recreation Department can be found here: [https://www.sandiego.gov/parks-and-recreation.](https://www.sandiego.gov/parks-and-recreation)

Library

There were 59 project ideas related to the work of the Library Department, which compose 4% of the total ideas collected.

The San Diego Public Libraries serve as a vibrant hub for the community, providing access to knowledge, education and recreation through its 36 branches, Central Library and online resources. With a mission to inspire lifelong learning and a commitment to serving a diverse population of over 1.4 million residents across 342 square miles, the library boasts a collection exceeding 5.3 million books, e-books, audio-visual materials and government documents, catering to a wide range of interests and languages.

With ongoing initiatives such as the Library Master Plan and new building projects including expansions and new branch libraries, the San Diego Public Library continues to evolve and adapt to meet the changing needs of its growing community. From literacy programs like READ/San Diego to innovative services such as digital memory labs and accessibility resources, the Library remains committed to its mission of connecting people to free educational and cultural resources, enriching lives and fostering lifelong learning. This infrastructure aspect, which includes the libraries themselves and the properties they occupy, is a crucial component of the Library's mission to connect people to free educational and cultural resources, and providing equitable resources throughout the city. Input on this infrastructure is sought to ensure that the Library system remains accessible, functional and responsive to the needs of the community it serves.

Summary of Department Responses

Homelessness Strategies and Solutions

There were 11 project ideas related to the work of the Homelessness Strategies and Solutions Department, which compose 1% of the total ideas collected.

Homelessness Strategies and Solutions is committed to combatting homelessness through a client-centered approach outlined in the Community Action Plan on Homelessness. With ambitious goals including a 50% reduction in unsheltered homelessness and ending veteran homelessness within three years, the department implements strategies focusing on prevention, diversion and increasing access to permanent housing solutions. This includes the establishment of a Leadership Council for cross-agency collaboration and an Implementation Team to ensure plan execution.

The department offers a range of essential services, such as outreach programs, safe shelter options, coordinated intake systems, diversion programs and family reunification initiatives. Additionally, initiatives like the Homelessness Response Center, Safe Parking Program and Safe Sleeping Program provide crucial support to individuals experiencing homelessness. Through proactive measures and collaborative efforts, Homelessness Strategies and Solutions aims to create a more inclusive and supportive community for all San Diegans.

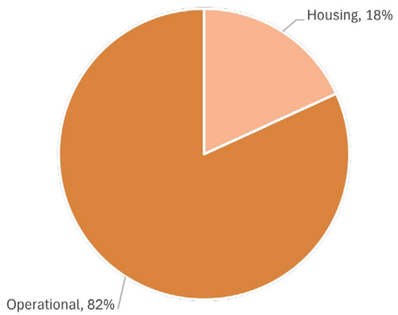

More information on Homelessness Strategies and Solutions can be found here: https://www.sandiego.gov/homelessness-strategies-and-solutions.

Community Project Ideas Collected For FY26-FY30 Infrastructure Plans

Summary of Department Responses

Stormwater

There were 53 project ideas related to the work of the Stormwater Department, which compose 4% of the total ideas collected.

The Stormwater Department manages and maintains the City's stormwater infrastructure to protect public health, safety and the environment. The Department oversees a comprehensive network of storm drains, channels and basins designed to mitigate the impacts of rainfall and storm events. With a focus on flood prevention, water quality management and environmental stewardship, the Department implements innovative solutions and best practices to minimize pollution and reduce the risk of flooding in communities across the city. Through ongoing maintenance programs, public education campaigns and collaboration with regulatory agencies, the Stormwater Department works to ensure compliance with federal and state water quality regulations while enhancing the resilience of San Diego's infrastructure in the face of changing weather patterns and climate challenges.

Public Utilities

There were 10 project ideas related to the work of the Public Utilities Department, which compose 1% of the total ideas collected.

The Public Utilities Department delivers high-quality water, wastewater and recycled water services, and oversees the operation, maintenance and management of extensive infrastructure networks. This includes water treatment plants, reservoirs, pumping stations, pipelines and wastewater treatment facilities. The Department is committed to providing safe, reliable and sustainable water services while also promoting water conservation and environmental stewardship. Additionally, it engages in initiatives to enhance water quality, improve infrastructure resilience, and support the community's long-term water needs through strategic planning and investment.

Summary of Department Responses

Fire-Rescue

There were 13 project ideas related to the work of the Fire- Rescue Department, which compose 1% of the total ideas collected.

The Fire-Rescue Department encompasses all fire, emergency medial, lifeguard, and emergency managements services. Covering 343 square miles and17 miles of coastline extending 3 miles offshore, the Department's reach is extensive. Boasting 52 fire stations strategically positioned throughout the city, along with nine permanent lifeguard stations (augmented by 31 seasonal stations during peak periods), the Department maintains a robust presence to swiftly respond to emergencies. With a dedicated team of uniformed fire and lifeguard personnel, the Department is equipped to handle a wide range of incidents, including fires, medical emergencies, hazardous material spills and water rescues. Through proactive fire prevention measures, public education campaigns and collaborative partnerships, the San Diego Fire-Rescue Department remains committed to safeguarding the lives and property of its diverse community.

Police

There were 72 project ideas related to the work of the Police Department, which compose less than 5% of the total ideas collected.

The San Diego Police Department is committed to upholding public safety and maintaining community trust. Through its network of precincts strategically positioned throughout the city and a dedicated force of highly trained officers and professional staff, the Department ensures swift and effective responses to a diverse array of law enforcement needs, including crime prevention, investigation and community policing initiatives.
With a strong emphasis on community engagement and partnerships, the San Diego Police Department works to foster collaborative relationships with residents, businesses and stakeholders, enhancing public safety and building stronger, more resilient communities across the city. The San Diego Police Department maintains 11 stations throughout the City of San Diego.

Summary of Department Responses

Economic Development

There were 7 project ideas related to the work of the Economic Development Department, which compose less than 1% of the total ideas collected.

The Department of Economic Development oversees the City of San Diego's vast and diverse real estate portfolio. With ownership of over 1,600 properties spanning approximately 123,000 acres, ranging from open spaces to crucial civic infrastructure, the Department ensures efficient management and utilization of these assets. Notably, the Department oversees Montgomery-Gibbs Executive Airport and Brown Field Municipal Airport, serving as vital aviation hubs supporting local jobs and contributing to the city's economy.

Beyond airport management, the Department's responsibilities extend to managing various City properties, including parks, police and fire stations, libraries and administrative spaces. Additionally, the Department oversees significant landmarks such as Petco Park, San Pasqual Valley Agricultural Preserve and extensive open spaces like Balboa Park and Mission Bay. The Department manages over 800 leases and agreements, generating more than $80 million in income annually while providing cultural and community-based services.

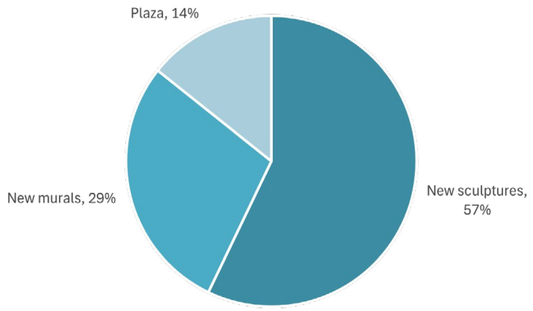

More information on the department can be found here: https://www.sandiego.gov/economic-development.

Other

There were 89 ideas submitted that have been categorized as “Other,” which compose 7% of the total ideas collected.

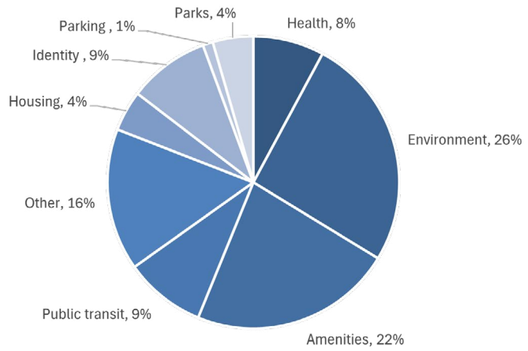

This section serves as a repository of ideas that do not fall within the City’s Capital Improvement Program. This includes suggestions or concerns regarding infrastructure or services provided by other agencies or private entities, such as neighboring cities or the Metropolitan Transit System (26), as well as ideas that relate to long-range planning or maintenance and operations of City facilities and are not related to the City’s Capital Improvement Program. This category also includes ideas that lacked sufficient detail for evaluation and response. For ideas related to the work of other agencies or private entities, City staff identified the correct agency in the response and the ideas were shared with the appropriate agency for their awareness wherever possible. For ideas related to long-range planning or maintenance and operations of City facilities, City staff provided brief responses. For ideas related to maintenance and operations, many of these items are more appropriately directed through the City’s Get It Done reporting system and can be reported throughout the year.

Community Project Ideas Collected For FY26-FY30 Infrastructure Plans

Conclusion

The input received from the community throughout the infrastructure priorities process has identified community needs, informed each of the Asset-Managing Departments infrastructure plan and directly shaped the current Outlook.

The Infrastructure Priorities survey will continue to remain open throughout the fiscal year. Community members are encouraged to continue to advocate for the projects they wish to see in their community.

Thank you to everyone who participated for your active engagement and dedication to advancing your community's well-being.

24	Citywide	safe bike lanes connecting us to imperial beach	Bayshoure to Border Bikeway that will connect to Imperial beach from Downtown San Diego .	Active Project	In Progress	Citywide
25	City Heights	Better and safer bike lanes	Thank you for your comment. There is not enough detail to determine whether this is a capital improvement project.	Projects for Future Consideration	Insufficient Detail	Mid-City: City Heights
26	Central Ave, by City Heights Community Development Corp	Bike lanes maintenance on roads	Class III on Central Ave	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
27	Carmel Valley Rd & Village Center Loop Rd	Convert the eastbound street parking lane on Village Loop Rd near Canyon Crest Academy to a two-way bicycle lane with a high curb. EB vehicles can continue to drop off and pick up pedestrians on lane No. 2.	BMP Designate this location as Class II. Study is needed to remove a lane, provide concept design, and funding forClass IV (cycle track) with concrete curb. Place on Funded Needs List.	Projects Considered for Outlook	Funding Requested	Carmel Valley
28	Camino de la Plaza (in front of Okeefe St)	bike lanes	Existing Bike Lanes on Cam De La Plaza.	Projects for Future Consideration	Insufficient Detail	San Ysidro
29	Camino de la Plaza	bike lane along dairy mart rd to park	Existing Class II btw Beyer Bl and W San Ysidro and btw Cam De La Plaza and Monument Rd	Projects for Future Consideration	Needs Evaluation	San Ysidro
30	Between the west end of the B St bike lanes at 22nd St and the east end of the C St protected bike path at 19th St; connected East/West via C St between 19th and 22nd, then North/South on 22nd between B st and C St.	Wayfinding and roadway improvements to support connectivity in regional bike network. A connection of bicycle paths on the described area. Alternatively, simply connecting the east end of the C St protected bike path at 19th St to 25th St, 100% via C St. -Along the northern end of the 1900 block of C st (between 19th and 20th st) where the one-way st transitions into a two-way street -On C St between 20th and 22nd as deemed appropriate by city planners -On 22nd between B St and C St as deemed appropriate by city planners Alternatively: -Along C St from 19th to 25 St Golden Hill's bike paths would be properly connected with the C St bike path in East Village as well as the newly completed Pershing Bike path, ending exactly at the intersection of 19th and C. This would advance both San Diego's climate goals as well as its efforts towards goal zero. Prioritizing the interconnection of existing higher-traffic bike path networks will help bicyclists feel safer, thus raising confidence and ridership. C St is in need or repaving, especially between 19th and 22nd, and this project could be executed with pain only. The alternate plan of having C St directly connect from 19th to 25th would have the additional benefit of separating bicycle traffic from the more traveled B St route taken by cars.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Greater Golden Hill
31	AF Collision	Bike access from Pacific Beach to the Balboa Ave Trolley Station. It is currently very unsafe to bike the short distance from rose creek to the trolley	Comment noted.	Projects for Future Consideration	Needs Evaluation	Pacific Beach

157	Redland Pl. and Alvarado Rd.	New Roads or Roadway Widening/reconfiguration	Thank you for your comment. There is not enough detail to determine whether this is a capital improvement project.	Projects for Future Consideration	Insufficient Detail	College Area
158	Rail Ct	Handicap spots in the station	This is not a CIP project. Depending on the scope, this could be requested from MTS and/or the private parkings in the area.	Projects Not Eligible for Inclusion	Not Managed By City	San Ysidro
159	Prospect & Silverado	Install roundabout	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	La Jolla
160	Poplar St	Dangerous. Vehicles speed dangerously through Azalea Park, need roundabouts	They can request an evaluation for a more specific location using: https://www.sandiego.gov/transportation/tools-resources/traffic-service-request	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
161	Park and El Cajon Boulevards	Traffic Study and remedies planned	Many improvements have been implemented on these streets or are in progress	Projects for Future Consideration	Insufficient Detail	Uptown
162	Otay Mesa Southwest Village planning area	The extension of Beyer Boulevard and Caliente Avenue in the Otay Mesa Southwest Village planning area.	This was included in the outlook. Not fully funded.	Projects Considered for Outlook	Funding Requested	Otay Mesa
163	On the upper left corner of the houss lot on Boysenberry Ct	Provide better parking areas	This is a private street	Projects Not Eligible for Inclusion	Not Feasible	San Ysidro
164	On Qualcomm Way from Camino del Rio South to Friars Rd	Adaptive signalization of impacted signalized intersections	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mission Valley
165	On on San Diego Avenue at Middletown boundary southbound and one northbound on Columbia Street associated with the entry monument at Laurel and Columbia on the Bankers Hill list.	Consider Uptown/Middletown location signage along San Diego Avenue. The Uptown area and its neighborhoods are not known by the visiting public nor the residents of Uptown. Uptown would be the first line and Middletown would be the second smaller line on any entry monument.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Uptown
166	On Mission Center Rd from Camino del Rio South to Friars Rd	Adaptive signalization of impacted signalized intersections	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mission Valley
167	On Friars Rd from Frazee to the Interstate-15	Adaptive signalization of impacted signalized intersections	Adaptive system proposed by developers of UCSD project, status unknown	Projects for Future Consideration	Needs Evaluation	Mission Valley
168	On Beyer Blvd between Blackshaw lane and Averil road	Parking	Streets don't intersect	Projects for Future Consideration	Insufficient Detail	San Ysidro
169	North Park	Traffic Relief Study and Vehicular Traffic Master Plan. As this vibrant community becomes more dense in both residential and commercial properties, consider traffic flows into/out of/and within the North Park Community. Consider appropriate redesignation of two-way streets into one way streets, and compatability with public transportation, bike lanes, and pedestrian routes. The plan should also consider parking both in residential and commercial destinations.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	North Park

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
170	near Otay Mesa Rd	Provide better parking spaces	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Otay Mesa
171	N Mountain View Dr & Hawley Blvd	Add speed humps on Mountain View Drive and Hawley Blvd. Cars travel too fast on these streets which also have bicycle traffic and children at play. There have been several incidents on both these streets.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: Normal Heights
172	My neighbors between 30th and Texas has criminally dangerous pot hole filled alleys. It's dangerous and they keep getting over looked. Look at our alley on Hamilton between Adams and Monroe. The neighboring ones aren't any better. Also the alleyway from Landis to Dwight between Ray St and Grim.	Pave or provide hard surface (concrete) for all alleyways in North Park	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	North Park
173	Mission Village Drive and Ronda Avenue	Traffic control to prevent accidents at Mission Village Dr and Ronda Ave	TUNL# 3955 Traffic Signal	Projects for Future Consideration	Needs Resources	Serra Mesa
174	LJ Parkway at merge with Torrey Pines Blvd and LJ Shores Drive	Conduct comprehensive traffic study at Throat	Numerous past studies, adaptive traffic signal system installed in 2016	Projects for Future Consideration	Needs Evaluation	La Jolla
175	La Jolla Shores	Install roundabouts at 3-4 intersections on La Jolla Shores Drive	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	La Jolla
176	Juniper Street between 6th Ave. and Balboa Drive as well as Quince between 6th and Balboa Drive	Return Quince and Juniper to 2-way traffic between 6th and Balboa Dr.	This is a Park road and needs to be evaluated by Parks & Rec	Projects for Future Consideration	Needs Evaluation	Uptown
177	Intersection of North Park Wy. and Ray St.	Pedestrian safety improvements at intersection of North Park Wy. and Ray St. Putting in traffic calming measures, such as curb extensions/bump-outs, or perhaps a realignment of the intersection would help tie this area together as a walkable area and would create a safer walking route from Jefferson Elementary School to the North Park branch library.	This location has a marked crosswalk. Will evaluate for RRFBs. SN will be created.	Projects for Future Consideration	Needs Evaluation	North Park
178	Intersection of El Cajon Blvd., Park Blvd., and Normal Street	Consider a Roundabout	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	North Park
179	Hyatt and Judson Streets	Stop Sign Installation. This project provides for an additional safety measure for pedestrian and vehicular traffic.	They can request an evaluation for a more specific location using: https://www.sandiego.gov/transportation/tools-resources/traffic-service-request	Projects for Future Consideration	Needs Evaluation	Linda Vista
180	Genesee Avenue Between SR-163 Offramps	Genesee Avenue Widening Between SR-163 Offramps. This project would provide for three eastbound through lanes on Genesee, and two through lanes and two right-turn lanes on the westbound approach on Genesee.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Linda Vista
181	Genesee Ave & Clairemont Mesa Blvd	Optimize traffic signals along major Clairemont corridor to improve travel efficiency and modernize traffic signal communication infrastructure	CIPs in progress to do this	Projects for Future Consideration	Needs Evaluation	Clairemont Mesa

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
182	Ft. Stockton from Goldfinch to West Lewis Intersection and on West Lewis from Goldfinch to Ft. Stockton intersection.	Study a one-way couplet (Ft. Stockton and West Lewis) to improve parking and traffic flow. Could distribute traffic better, allow angled parking, could support a bike lane on Fort Stockton and have higher visibility of businesses.	This is a planning study that requireds resources. Could potentially be done by a consultant.	Projects for Future Consideration	Needs Resources	Uptown
183	From downtown on 6th Avenue to University to Normal to Washington to Park to Robinson back to 4th. Would be in street tracks with multiple stops.	Further detailed study of Electric Street Cars for Bankers Hill and increased prioritization. Includes ongoing coordination with MTS to increased prioritization well before 2050.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Uptown
184	From downtown on 6th Avenue to University to Normal to Washington to Park to Robinson back to 4th. Would be in street tracks with multiple stops.	Further analysis of Electric Street Cars for Hillcrest. Major density increases in uptown (especially Hillcrest Core). This will need to be coordinated with MTS / develop strategies to move up from 2050.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Uptown
185	Fort Stockton Dr, San Diego, California, 92103	Double round-about (two locations for modern roundabout next to each other)	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	Uptown
186	Fort Stockton and Sunset and West Lewis	Mission Hills oval roundabout, or two roundabout, or three way stop sign. Blind corner, collisions here with 1-2 ped. deaths, may lose some residential parking.	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	Uptown
187	Fashion Valley trolley station to Uptown (UCSD Medical Campus)	Develop Skyway between trolley station and Uptown	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mission Valley
188	Fairmount Ave and Myrtle Ave	Corners and intersections are dangerous for students and families (Needs traffic calming)	Signalized intersection has pedestrian signals in all four directions	Projects for Future Consideration	Not Currently Needed Based on Analysis	Mid-City: City Heights
189	Fairmount Ave & Thorn St	Needs traffic calming	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
190	extension of Carroll Canyon Road west from Camino Santa Fe to Interstate 805	Carroll Canyon Road Extension	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	Mira Mesa
191	Euclid Ave & Logan Ave	Park Euclid & Logan Avenues 5-corner intersection. Decrease distance across street for greater safety. Currently a hazardous distance for slower travelers.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Encanto Neighborhoods
192	Entire length of Cypress Canyon Park Drive	Traffic calming on Cypress Canyon Park Drive	They can request an evaluation for a more specific location using: https://www.sandiego.gov/transportation/tools-resources/traffic-service-request	Projects for Future Consideration	Needs Evaluation	Scripps Miramar Ranch
193	Either move monument towards Dove Street or add an over the road Mission Hills monument at Goldfinch.	Relocate East End Entry Monument at Albatross (current location is in Hillcrest) or add an over the road Mission Hills monument. Albatross sign can stay, but add arch at Goldfinch as a "you have arrived" to both north & south MH.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Uptown

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
194	Downtown-wide	Flashing yield lights near school zones.	They can request an evaluation for a more specific location using: https://www.sandiego.gov/transportation/tools-resources/traffic-service-request	Projects for Future Consideration	Needs Evaluation	Downtown
195	Dairy Mart Rd, Servando Ave	Install a small speed bump because people don't respect the stop sign	Location will be signalized. Do not recommend a speed bump.	Projects for Future Consideration	Not Currently Needed Based on Analysis	San Ysidro
196	Cottonwood Rd, W Seaward Ave	Make one way, too narrow	Streets are standard width. Don't recommend making one-way	Projects for Future Consideration	Not Currently Needed Based on Analysis	San Ysidro
197	Cottonwood Rd, behind Casa Familiar	Parking	They can request an evaluation for a more specific location using: https://www.sandiego.gov/transportation/tools-resources/traffic-service-request	Projects for Future Consideration	Insufficient Detail	San Ysidro

344	Piacere Mio South Park	Eliminate slip turns, shorten crossing distances, provide crossings on all legs. Consider raised intersection	They can request an evaluation for a more specific location using: https://www.sandiego.gov/transportation/tools-resources/traffic-service-request	Projects for Future Consideration	Insufficient Detail	Greater Golden Hill
345	Paseo del Ocaso & Paseo Grande; cross streets: Paseo Dorado, Avenida de la Playa, Vallecitos, Camino del Oro	Install stop signs and crosswalks at all intersections west of La Jolla Shores Drive	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	La Jolla
346	W San Ysidro Blvd	shade trees	Although this is not a CIP request, the City keeps adopting and enforcing laws to increase tree canopy.	Projects Not Eligible for Inclusion	Operational	San Ysidro
347	University Ave, Wightman St	More trees	Although this is not a CIP request, the City keeps adopting and enforcing laws to increase tree canopy.	Projects Not Eligible for Inclusion	Operational	Mid-City: City Heights
348	Orchard ave. at Sunset Cliffs Blivd	Orchard at Sunset Cliffs Blvd. Lighted Ped Crossing	SN will be created	Projects for Future Consideration	Needs Evaluation	Ocean Beach
349	Orange St	Cleaner streets and sidewalks	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	Mid-City: City Heights
350	Orange Ave + Marlborough Ave	Need safe crossing at Orange and Marlborough	Signalized intersection with ped signals on three of four legs; fourth is not included due to unusual intersection configuration	Projects for Future Consideration	Not Currently Needed Based on Analysis	Mid-City: City Heights
351	Orange Ave + Euclid St	Need for safer crosswalk on orange + euclid - need crosswalk with flashing lights	Signalized intersection has pedestrian signals in all four directions; flashing lights not allowed at traffic signals	Projects for Future Consideration	Not Currently Needed Based on Analysis	Mid-City: City Heights
352	Orange Ave + 39th St	Need crosswalk st 39th + ORange in front of Orange Ave -- need safe crossing in front of Central Elementary School and Wilson Middle School	They can request an evaluation for a more specific location using: https://www.sandiego.gov/transportation/tools-resources/traffic-service-request	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
353	On land south side of Del Mar Heights Rd, between Mira Montana Dr and Mango Dr	On narrow raised dirt walkway, create a concrete ramp and ADA compliant to allow safe passage to the Del Mar Heights School. This would allow students to be safely above the vehicular traffic on Del Mar Heights Rd as they make their way to school.	The proposed pedestrian access path connecting Mango Drive and Mira Montana to Del Mar Heights Road faces significant feasibility challenges, making it a difficult project to implement. ADA standards require a maximum rise of 30 inches per run before a landing is needed, necessitating a zigzag or switchback ramp design to maintain compliant slopes. This design would involve extensive construction of retaining walls and railings, significantly increasing both complexity and costs. Furthermore, preliminary reviews indicate that the available land is insufficient to accommodate the required switchback design. Land acquisition would likely be necessary, further complicating and delaying the project while adding substantial financial and logistical burdens. Given these challenges, the project may not be practical.	Projects Not Eligible for Inclusion	Not Feasible	Torrey Pines

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
354	On land between Boquita Dr and southern side of Del Mar Heights Rd	Sidewalk Improvements – Safe Walk to Del Mar Heights Elementary School: Improvements to enable pedestrian access through a City-owned triangle of property connecting DMHTs Road and Boquita Drive. Cost: TBD.	The proposed pedestrian access path connecting Boquita Dr to Del Mar Heights Road presents significant feasibility challenges, making it a difficult project to implement. ADA standards require a maximum rise of 30 inches per run before a landing is needed, necessitating a zigzag or switchback ramp design to maintain compliant slopes. This design would require extensive construction of retaining walls and railings, increasing both complexity and costs significantly. Additionally, preliminary reviews indicate that the available City-owned land is insufficient to accommodate the required switchback design. Land acquisition would likely be necessary, further complicating and delaying the project while adding substantial financial and logistical burdens. Given these challenges, the project may not be a practical.	Projects Not Eligible for Inclusion	Not Feasible	Torrey Pines
355	On eastern side of Mercado Dr, between Del Mar Heights Rd and Cordero Rd	Complete sidewalks along Mercado Drive allow pedestrians to walk safely to the new elementary school, separated from vehicular traffic. Currently, this is the only segment void of sidewalks to the school.	The west and east sides of Mercado between Del Mar Heights and Cordero share similar challenges for sidewalk construction. Both sides span approximately 500 linear feet and have 10 feet of right-of-way, allowing for a standard 5-foot sidewalk. However, existing features pose significant obstacles. On both sides, large trees, custom landscaping, and privacy hedges would need removal, while private utility structures would require relocation by their respective companies. Additionally, 10 driveways on each side, some featuring custom pavers or steep slopes, would need reconstruction to meet current standards.	Projects for Future Consideration	Needs Resources	Torrey Pines
356	On Andrews, Columbia and Chalmers Streets	Look at pedestrian safety/walkways for streets heading uphill. Walking routes into the hillside neighborhood are missing. Consider at least shoulder markings for walking.	They can request an evaluation for a more specific location using: https://www.sandiego.gov/transportation/tools-resources/traffic-service-request	Projects for Future Consideration	Insufficient Detail	Uptown
357	University Ave, 36th St	More Trees	Although this is not a CIP request, the City keeps adopting and enforcing laws to increase tree canopy.	Projects Not Eligible for Inclusion	Operational	Mid-City: City Heights
358	On Alvarado Road from 70th Street to College Avenue.	Install a continuous sidewalk from 70th Street to College Avenue on Alvarado Road.	A portion of this request is on TUNL. TUNLID #289	Projects for Future Consideration	Needs Evaluation	College Area
359	Ocean View Boulevard between 38th Street & 36th Street was recently repaved.	Greening Ocean View Boulevard - We want the City to add trees, rain gardens, and permeable pavement wherever possible to this street. These will make our neighborhood more beautiful and help cool down the street, clean up air and water pollution, and help decrease future flooding.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: Normal Heights

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
360	North side of Bernardo Center Drive from current sidewalk terminus approx. 420 ft west of I-15 to approx. 150 ft east of Cloudcrest Drive in Rancho Bernardo	Sidewalk Installation	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Rancho Bernardo
361	Normal Heights	Fix the sidewalks in the community	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: Normal Heights
362	Mt Carmel Dr, Alaquinas Dr	Need handicap sidewalk with corner ramps and access for wheelchairs at mt Caramel road and Alaquinas behind Caramel church	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	San Ysidro
363	Montezuma Road from Yerba Santa to Fairmount.	Complete the northside sidewalk on Montezuma from Yerba Santa to northbound Fairmount.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	College Area
364	University Ave, 35th St	More trees on University Avenue	Although this is not a CIP request, the City keeps adopting and enforcing laws to increase tree canopy.	Projects Not Eligible for Inclusion	Operational	Mid-City: City Heights
365	Milton St West of Garfield Road	Add sidewalks at missing locations along Milton St. west of Garfield Road, Napier St., Denver St, and Erie St.	Erie Street, from Ashton Street to Napier Street, is listed on TUNL (TUNLID 9333). There is an existing TUNL entry for the sidewalk on Jellett Street to Ingulf Street (west side), which has already been completed. There are no other sidewalk requests on Denver Street. Please provide the specific location and limits of Denver Street for a sidewalk evaluation. Additionally, there are no sidewalk requests on TUNL for Napier Street. Specific locations and limits are needed for further review. Milton Street west of Garfield Road is on TUNL (TUNL ID 4582).	Projects for Future Consideration	Needs Resources	Clairemont Mesa
366	Meade Ave, San Diego, California, 92116	Need crosswalks along these streets.	They can request an evaluation for a more specific location using: https://www.sandiego.gov/transportation/tools-resources/traffic-service-request	Projects for Future Consideration	Insufficient Detail	North Park
367	Lomaland Dr Between John St and Catalina Blvd.	Sidewalk Improvements Lomaland Drive.	An evaluation will be conducted for the installation of sidewalks on both sides of Lomaland Street. Extensive private landscaping encroaches into the public right-of-way on both sides, which will need to be resolved. The project will also require retaining walls along the sidewalks.	Projects for Future Consideration	Needs Evaluation	Peninsula
368	University Ave from 54th (EACPC west boundary) to Aragon Dr.	Tree canopy on University Ave from 54th to Aragon Dr	Although this is not a CIP request, the City keeps adopting and enforcing laws to increase tree canopy.	Projects Not Eligible for Inclusion	Operational	College Area

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
369	Larsen Field & Cesar Chavez Recreation Center	Install a walkway around the perimeter	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	San Ysidro
370	La Jolla Shores Drive from Torrey Pines Road to SIO	Repair or replace crosswalks on La Jolla Shores Drive from Torrey Pines Road to SIO, particularly the west side	The Department has developed a draft priority list for these plans (see page 12): https://www.sandiego.gov/sites/default/files/2025-06/item-9a-natural-resource-management-plans.pdf.	Projects Not Eligible for Inclusion	Operational	La Jolla
371	La Jolla Shores Dr. & Vallecitos	Install pedestrian-activated signal	Qualifes for a crosswalk & RRFB but not signal	Active Project	In Progress	La Jolla
372	La Jolla Blvd. between Palomar & Colima	Add & upgrade pedestrian signals	Both the Scripps/Miramar Ranch and La Jolla NRMPs are currently on hold pending boundary definition.	Projects for Future Consideration	Needs Evaluation	La Jolla
373	Joyner Elementary and Clark Middle School	Install bulb-outs at all school sidewalks, cars are too fast	They can request an evaluation for a more specific location using: https://www.sandiego.gov/transportation/tools-resources/traffic-service-request	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
374	Intersection of W San Ysidro Blvd + Alverson Rd	Upgrades in the sidewalks and the roads	Thank you for your comment. There is not enough detail to determine whether this is a capital improvement project.	Projects for Future Consideration	Insufficient Detail	San Ysidro
375	Intersection of Dairy Mart Rd Beyer Blvd	Add/improve sidewalk/walkway to Trolley Station along trolley tracks	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	San Ysidro
376	University Ave bus stops	Shade	Although this is not a CIP request, the City keeps adopting and enforcing laws to increase tree canopy.	Projects Not Eligible for Inclusion	Operational	Mid-City: City Heights
377	Fort Stockton from West Lewis to Witherby.	Traffic calming on Fort Stockton. To improve slower speeds and safer pedestrian crossing, consider stops signs, ped. crosswalks, RRFB crossing flashers, speed radar & speed tables.	A SN will be created	Projects for Future Consideration	Needs Evaluation	Uptown
378	Federal Blvd, San Diego, California, 92102	Install Rectangular Rapid Flashing Beacons for safe crossing on Federal and 48th street crosswalk.	Active projects to install rectangular rapid flashing beacons (WBS B-24110)	Active Project	In Progress	Mid-City: Eastern Area
379	Fairmont Ave & University Ave	Diagonal (X) crossing instead of one at a time	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
380	Euclid ave, Wightman St	Needs sidewalks where none exist	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
381	Euclid Ave, Myrtle Ave	Sidewalks are too narrow	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights

400	3585 Governor Dr, San Diego, CA 92122	Standley Recreation Center Modernization. Renovation of the Standley park recreation center, including new lobby, new façade, and air conditioning added to the Standley recreation building.	This project is listed on the Unfunded Parks Improvement List and is identified as a potential future CIP project. For more information, please visit: https://www.sandiego.gov/parks-and-recreation/design-development/faq	Projects for Future Consideration	Needs Resources	University

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
401	Public ROW near the terminus of Regents Road (south section) ends in Rose Canyon.	South Rose Canyon Regents Linear Overlook Park: Included in the Community Plan. The proposed park area lies on the public Right-of-Way where Regents Road touches Rose Canyon and runs parallel to Regents Road, up towards Governor Drive. The proposal is to create an overlook park, add native plants, trees, and shrubs, benches, storm water drainage, a natural winding pathway leading through the park adjacent to Regents Road, and environmental education on native plants and trees found in the adjacent Rose Canyon Open Space. It would restore an area that is adjacent to a large open space, Rose Canyon. The added storm water drainage would help to improve the path access down into the canyon, as the current path is severely eroded. The education would include information about native plants and animals in the Canyon and the importance of open space. Currently, there is some parking, but this should be adapted and improved, while increasing the available green space. Traffic calming measures taken on Reagents Road where the road meets the proposed overlook park would improve community and pedestrian safety.	This project is listed on the Unfunded Parks Improvement List and is identified as a potential future CIP project. For more information, please visit: https://www.sandiego.gov/parks-and-recreation/design-development/faq	Projects for Future Consideration	Needs Resources	University
402	Public ROW near the terminus of Regents Road (north section) ends in Rose Canyon.	North UC Regents Road Rose Canyon Overlook Park Create a Canyon Overlook Park on the North side of Rose Canyon to replace the existing portion of Regents Road from a little south of Porte de Merano south to the existing dead end. Included in Community Plan.	This project is listed on the Unfunded Parks Improvement List and is identified as a potential future CIP project. For more information, please visit: https://www.sandiego.gov/parks-and-recreation/design-development/faq	Projects for Future Consideration	Needs Resources	University
403	North side of Governor Drive at Gullstrand.	UC Gardens parking, safety, and park upgrades: Convert the sparse Eucalyptus and weeded area on the corner of Governor and Gullstrand to an additional parking lot. The existing adjacent parking area can only accommodate 42 vehicles, of which 2 are Disabled spaces.	Removal of mature trees is inconsistant with the Climate Reslient SD Plan;https://www.sandiego.gov/climate-resilient-sd/plan Climate Resilient SD Plan | City of San Diego Official Website	Projects Not Eligible for Inclusion	Not Align with City Policies	University
404	South end of West Mesa Balboa Park in and near the Fire Alarm Building	Multi-generational community and recreation center and picnic grounds for West Mesa Balboa Park. Re-utilize Fire Alarm bldg. and build addition recreation space near future bridge across I-5.	Acknowledged/ Balboa Park Master Plan update in progress	Projects Considered for Outlook	In Outlook	Balboa Park
405	Could use the 4100 block at the church site if ever available (adaptive reuse) or DMV site or in University Heights.	Normal St. Joint Use Facility: Community/Recreation Center along Normal St. somewhere. The Uptown area is void of any park facilities. The future Normal Street Promenade will count but could handle more park facilities.	Acknowledged	Projects for Future Consideration	Needs Resources	Uptown
406	As identified in the Final adopted Hillcrest Focus Plan and Uptown Community Plan Amendment	Any of the potential parks / pocket parks / plazas that are listed in the Hillcrest Focus Study. Hillcrest is void of parks and Uptown has a major deficiency (Normal St. Promenade will be the first). Library

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
1	4155 Governor Dr, San Diego, California, 92122	I am writing about the University Community Library at 4155 Governor Drive. This building needs a complete modernization with upgraded electricals and HVAC to make it fit the technology needs of patrons and the community.	This was included in the outlook. Not fully funded.	Projects Considered for Outlook	Funding Requested	University
2	5100-5132 Linda Vista Rd, San Diego, California, 92110	Linda Vista Library Expansion	Grant of $500k received for patio improvements. However the total project cost is $1.0M.	Projects for Future Consideration	Needs Resources	Linda Vista
3	San Diego Public Library - Allied Gardens/Benjamin	Expansion as necessary to accommodate the increased population of Grantville and to include a Senior Citizens Center and Child Development Center	Re: suggestion for child development center at the specific library location, OCYS would be open to using existing space at library branches across the city that could be suitable for either license child care or license-exempt short term prekinder programs.	Projects Not Eligible for Inclusion	Operational	Navajo
4	5220 Waring Rd, San Diego, California, 92120	Upgraded/bigger library	San Carlos Library is not fully funded. Needs construction money.	Active Project	In Progress	Navajo
5	San Diego Public Library - Allied Gardens/Benjamin	Upgrade and improve the library facilities	San Carlos Library is not fully funded. Needs construction money.	Active Project	In Progress	Navajo
6	Kensington-Normal Heights Branch San Diego City Public Library	This library desperately needs rebuilt. It's the smallest by far, has outdated facilities, and yet doesn't appear to be a priority in the library master plan doc. It is by far in the worst condition and is embarrassing compared to other branch libraries	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	Mid-City: Kensington-Talmadge
7	9850 Campus Point Dr, San Diego, California, 92121	Expansion and renovation of South University City Library	Thank you for your comment. At this time, this project is not feasible.	Projects Not Eligible for Inclusion	Not Feasible	University
8	San Diego Public Library - San Ysidro	Shade structure for library patio, allowing projection screen to be used and protect from sunburn.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	San Ysidro
9	San Diego Public Library - North Park	Rebuild North Park Library with a community room, larger family play areas, a sound proofed cry room with board books and space for nursing moms, and green space in partnership with the parks department (like Reno Public Library's main library).	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	North Park
10	San Diego Public Library - San Ysidro	Digital Signage on exterior of library to announce upcoming programming	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	San Ysidro
11	San Diego Public Library - San Ysidro	Fix leaky roof during rain storms	Thank you for your comment. The project has been considered, but further feasibility and planning work is needed before it can be evaluated for the Outlook.	Projects for Future Consideration	Needs Resources	San Ysidro
12	4235 Beyer Blvd, San Ysidro, California, 92173	Shade structure for outdoor platio to use projection wall during daylight hours	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	San Ysidro
13	4235 Beyer Blvd, San Ysidro, California, 92173	Exhaust system for Makerspace room to vent bad air from equipment	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	San Ysidro

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
14	Citywide	We need a room dedicated to parents! Knowledge is power a space for parents to have a room to teach other parents about various issues impacting our community! Where we can print stuff and have meetings to work together and make a real change!	Thank you for your comment. There is not enough information to determine whether this request qualifies as a capital improvement project.	Projects for Future Consideration	Insufficient Detail	
15	Beyer Park	Interactive libraries for nuerodiverse children	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	San Ysidro
16	City Heights/Weingart Library	Parking for Urban Village/City Heights Library	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights

39	Normal Heights	Build a library, a proposal was routed with multiple possible locations	Thank you for your comment. This project has been reviewed; however, additional steps—such as feasibility analysis and planning work—are required before it can be considered for inclusion in the Outlook.	Projects for Future Consideration	Needs Resources	Mid-City: Normal Heights

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
40	5148 Market St, San Diego, CA 92114	Malcolm X Library Correction needed. Library name is listed as being in Valencia Park on sign & website, but physically is in Emerald Hills. Confuses people. Just a decorative sign for Emerald Hills is fine. Most call it Malcolm X Library, rather than Valencia Park/ Malcolm X Library.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Encanto Neighborhoods
41	2920 Burgener Blvd, San Diego, CA 92110	Address deferred maintenance needs at the South Clairemont Library at 2920 Burgener Blvd. Complete ADA path of travel improvements from the parking lot to the library. Repave the parking lot and widen the parking spaces.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Clairemont Mesa
42	6600 Montezuma Road, San Diego, CA 92115	Provide 50 permanent exclusive parking spaces for the College - Rolando Library.	Thank you for your comment. At this time, this project is not feasible.	Projects Not Eligible for Inclusion	Not Feasible	College Area
43	Linda Vista Library 2160 Ulric Street	Linda Vista Library Expansion. The only library in Linda Vista, $500,000 was appropriated by Congresswoman Sara Jacobs in FY23 federal budget appropriations. The project is to expand the Linda Vista Library to include an Outdoor Learning Lab. The project needs additional funding to ensure the project proceeds.	Grant of $500k received for patio improvements. However the total project cost is $1.0M.	Projects for Future Consideration	Needs Resources	Linda Vista
44	Kensington-Normal Heights Library	Relocate branch library to unused lots at 35th & Adams	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: Kensington-Talmadge
45	Kensington-Normal Heights Library	Reuse the current building for children's programs.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: Kensington-Talmadge
46	Kensington-Normal Heights Library	Integrate the Adams Elementary cluster into the design.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Mid-City: Kensington-Talmadge
47	3795 31st St.	North Park Library. The new city library master plan calls for one three times the size of the current one, to be built on the existing site. (Building such a library would almost certainly mean eliminating the existing parking lot, putting in underground parking as was done at Mission Hills-Hillcrest and likely building a multi-story building with housing units on the floors above the library.) Please note that this would be a multi-year project. It would involve getting major funding from sources other than city capital improvement money.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	North Park
48	3795 31st St.	Bathroom renovation at North Park library	Thank you for your comment. This project has been reviewed; however, additional steps—such as feasibility analysis and planning work—are required before it can be considered for inclusion in the Outlook.	Projects for Future Consideration	Needs Resources	North Park
49	North Clairemont Branch Library (4616 Clairemont Dr)	Fund strategic investments at the library	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Clairemont Mesa
50	Balboa Branch Library (4255 Mt Abernathy Ave)	Fund strategic investments at the library. Complete ADA path of travel improvements from the parking lot to the library. Slurry seal the parking lot and replace the concrete driveway on Chateau Drive.	Thank you for your comment. This project idea was not included in the Outlook because it requires additional research and interdepartmental review.	Projects for Future Consideration	Needs Evaluation	Clairemont Mesa

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area

Homelessness Strategies and Solutions

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
1	Citywide	programs for older adults, help for the homeless, housing	Expansion of shelter bed cpacity included in five year CIP outlook.	Projects Considered for Outlook	Funding Requested	
2	San Ysidro Park	Eradicate homelessness in the area	Expansion of shelter bed cpacity included in five year CIP outlook.	Projects Considered for Outlook	Funding Requested	San Ysidro
3	Manup Bootcamp	Reduce the homeless population in this area	Expansion of shelter bed capacity included in five year CIP outlook.	Projects Considered for Outlook	Funding Requested	Peninsula
4	Azalea Park	presence of unhoused population can feel unsafe / unnerving	Expansion of shelter bed capacity included in five year CIP outlook.	Projects Considered for Outlook	Funding Requested	Mid-City: City Heights
5	Charles Stevens III Memorial Park	the bad is there are alot of unhoused nearby	Expansion of shelter bed capacity included in five year CIP outlook.	Projects Considered for Outlook	Funding Requested	Mid-City: City Heights
6	Cherokee Point Park	homeless there	Expansion of shelter bed capacity included in five year CIP outlook.	Projects Considered for Outlook	Funding Requested	Mid-City: City Heights
7	Colonial Irving Salomon San Ysidro Community Activity Center	have it cleaner, homeless people deficate here	Expansion of shelter bed capacity included in five year CIP outlook	Projects Considered for Outlook	Funding Requested	San Ysidro
8	Highland & Landis Park / City Heights Recreation Center	Seems like alot of homeless hang out there	Expansion of shelter bed capacity included in the five-year CIP outlook.	Projects Considered for Outlook	Funding Requested	Mid-City: City Heights
9	Howard Lane Park	Limit homeless in the parks, prevent them from leaving shopping carts at park	Expansion of shelter bed capacity included in the five-year CIP outlook.	Projects Considered for Outlook	Funding Requested	San Ysidro
10	Larsen Field & Cesar Chavez Recreation Center	There is a lack of security, there are alot of unhoused people and drug dealers. It needs cleaning.	Expansion of shelter bed capacity included in the five-year CIP outlook.	Projects Considered for Outlook	Funding Requested	San Ysidro
11	Van Dyke Ave between Orange Ave and Polk Ave	Less graffitti, homeless, underground casinos	Expansion of shelter bed cpacity included in five year CIP outlook.	Projects Considered for Outlook	Funding Requested	Mid-City: City Heights

Stormwater

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
1	4395 Cartagena Dr, San Diego, California, 92115	1. Headwall and storm drain replacement beneath Paseo Los Pinos Catwalk between Lorca and Cartagena Drives. The catwalk is closed as a result of a wash out during last spring's rain storms related to a plugged/damaged storm drain.	There is an active SWD CIP at this location: B24143 - 6201 Lorca Drive SD Emergency. The project will replace the existing Corrugated Metal Pipe with new Reinforced Concrete Pipe	Active Project	In Progress	Mid-City: Eastern Area
2	5706 Bates St	Chollas Parkway ROW below 5706 Bates St., across from storage yards APNs 472-520-16-00 & 472-520-17-00: Install approved structural stormwater BMPs at the 3 box culverts discharging trash and other gross pollutants to the riparian strip of Chollas Creek	This location falls within Chollas Integrated Drainage Engineering Analysis (IDEA); Funding is not available for further evaluation, studies and design.	Projects for Future Consideration	Needs Evaluation	Mid-City: Eastern Area
3	4598 Bancroft St, San Diego California 92116	Place a storm drain at Monroe and Bancroft	What is the drainage issue?	Projects for Future Consideration	Insufficient Detail	Mid-City: Normal Heights
4	3712 Menlo Ave, San Diego, California, 92105	Most of the streets and unpaved alleys get flooded. We need to get them fix.	This location falls within Chollas Integrated Drainage Engineering Analysis (IDEA); it will be considered for future evaluation and potential improvements when funding becomes available.	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
5	I-15 N, San Diego, California, 92145	Please fortify the road leading to 163/15 fork for flooding. When it rains, it's pretty scary to drive through.	The 163/15 intersection falls within Caltrans ROW.	Project Not Eligible for Inclusion	Not Managed By City	Military Facilities
6	3560-3598 Ocean View Blvd, San Diego, California, 92113	Ocean View Corridor, Pasqual to 15 fwy entrance. Repair sidewalks; plant trees; cover bus stops; clear landscape; urban greening by adding native foliage to deter mudslides to capture stormwater.	The SWD Channel Section submitted the CIP Ocean View Channel Improvements for FY26. Funding has not been identified.	Projects for Future Consideration	Needs Resources	Southeastern San Diego
7	3661 47th St, San Diego, California, 92105	Storm drain for the corresponding owners of the area	This location falls within Chollas Integrated Drainage Engineering Analysis (IDEA); it will be considered for future evaluation and potential improvements when funding becomes available.	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
8	17333 Bernardo Oaks Dr, San Diego, California, 92128	we have had our storm drains cleaned over a dozen times and still a constant very strong odor. this has caused vomiting, unable for children to play outside, open windows for fresh air. clean the sewer	Stormwater does not cause bad odor. I recommend creating a Get it Done Request and refering to PUD to inspect the sewer main.	Project Not Eligible for Inclusion	Operational	Rancho Bernardo
9	2769-2565 Dairy Mart Rd	improve water drainage with streams and detention ponds	This area has not been evaluated or studied. It will be evaluated in the future as part of the Tijuana River Integrated Drainage Engineering Analysis (IDEA), which is currently unfunded	Projects for Future Consideration	Needs Evaluation	San Ysidro
10	Averil Rd, W San Ysidro Blvd	more trees and clean drainage systems	This is not a CIP project, but the multiple aspects from this request have been acknowledged. Please send future requests of this kind via the Get It Done app.	Project Not Eligible for Inclusion	Operational	San Ysidro
11	Between Bibler Dr and Sycamore Rd, Northeast of Janse Way	vegetated storm drains	Request is unclear	Projects for Future Consideration	Insufficient Detail	San Ysidro
12	Beyer Blvd, East of Dairy Mart Rd	Bioswale along sidewalk to capture sediment and water along Beyer Blvd	This area has not been evaluated or studied. It will be evaluated in the future as part of the Tijuana River Integrated Drainage Engineering Analysis (IDEA), which is currently unfunded	Projects for Future Consideration	Needs Evaluation	San Ysidro

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
13	Calle Primera, Border Village Rd	Storm drainage	Thank you for your comment. There is not enough detail to determine whether this is a capital improvement project.	Projects for Future Consideration	Insufficient Detail	San Ysidro
14	Calle Primera, East of Willow Rd, North of Camino de la Plaza	San Ysidro Ranch: More Drains, Cleanups	Thank you for your comment. There is not enough detail to determine whether this is a capital improvement project.	Projects for Future Consideration	Insufficient Detail	San Ysidro
15	Camino de la Plaza across from Lynch Ln	Bad odors	Odor is not related to stormwater or drain maintenance.	Project Not Eligible for Inclusion	Not Managed By City	San Ysidro
16	Camino de la Plaza on the other side of Hires Way	Bad odors	Available information indicates odor is not related to stormwater or drain maintenance.	Project Not Eligible for Inclusion	Not Managed By City	San Ysidro
17	Citywide	Its urgent to have clean and maintain storm drains	Request is too broad and does not identify specific drainage issues.	Projects for Future Consideration	Insufficient Detail	
18	Cottonwood Rd, Sellsway St	clean drains, they smell bad	Available information indicates odor is not related to stormwater or drain maintenance.	Project Not Eligible for Inclusion	Not Managed By City	San Ysidro
19	Dwight St, 43rd St	Solve flooding, as pedestrians have to go on the street	This location falls within the Chollas Integrated Drainage Engineering Analysis (IDEA). Funding is not available for further evaluation, studies, or design.	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
20	E Camino de la Plaza	Fix the stormwater puddling with sewer water issue as it is smelly	This does not seem to be an infrastructure request. Create a GID to be evaluated.	Project Not Eligible for Inclusion	Operational	San Ysidro
21	E San Ysidro Blvd south of E Beyer Blvd	Trash can signs with "Do not throw garbage because it gets stuck in the drains"; Cleaning of storm drains so that the water is flushed off	This is not a CIP project, but the multiple aspects from this request have been acknowledged. Please send future requests of this kind via the Get It Done app.	Project Not Eligible for Inclusion	Operational	San Ysidro
22	Las Americas	the smell is strong	Odor is not related to stormwater or drain maintenance. It could be related to the regional cross boarder sewage flow.	Project Not Eligible for Inclusion	Not Managed By City	San Ysidro
23	Marlborough Ave and Orange Ave	Eradicate street flooding	This location falls within Chollas Integrated Drainage Engineering Analysis (IDEA); Funding is not available for further evaluation, studies and design.	Projects for Future Consideration	Needs Evaluation	Mid-City: City Heights
24	Orange Ave + 41st St	Need drainage	What is the drainage issue?	Projects for Future Consideration	Insufficient Detail	Mid-City: City Heights
25	Orange Ave and Euclid Ave	Flooding is a risk. Better pavement storm drains	There is an active SWD CIP B22058 Accelerated 4275 48th St Improv (SD) East of intersection.	Active Project	In Progress	Mid-City: City Heights
26	Primera Iglesia Bautista de San Ysidro	prevention before flooding	This area has not been evaluated or studied. It will be evaluated in the future as part of the Tijuana River Integrated Drainage Engineering Analysis (IDEA), which is currently unfunded	Projects for Future Consideration	Insufficient Detail	San Ysidro
27	Rail Ct, E San Ysidro Blvd	Horrible odors	Odor is not related to stormwater or drain maintenance. It could be related to the regional cross boarder sewage flow.	Project Not Eligible for Inclusion	Not Managed By City	San Ysidro

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
28	San Ysidro Border Area	the bad smells	Odor is not related to stormwater or drain maintenance. It could be related to the regional cross boarder sewage flow.	Project Not Eligible for Inclusion	Not Managed By City	San Ysidro
29	Smythe Ave in front of Shooting Star Dr	Need to build a cement canal next to ousing by 905 and Smythe underpass. Houses get flooded every winter!	This area has not been evaluated or studied. It will be evaluated in the future as part of the Tijuana River Integrated Drainage Engineering Analysis (IDEA), which is currently unfunded	Projects for Future Consideration	Needs Evaluation	San Ysidro
30	Smythe Ave, Avenida de la Madrid	We need bioswale water rain controlled mud on sidewalks	This area has not been evaluated or studied. It will be evaluated in the future as part of the Tijuana River Integrated Drainage Engineering Analysis (IDEA), which is currently unfunded	Projects for Future Consideration	Needs Evaluation	San Ysidro
31	Upper corner of Camino de la Plaza	better drainage at intersection	This area has not been evaluated or studied. It will be evaluated in the future as part of the Tijuana River Integrated Drainage Engineering Analysis (IDEA), which is currently unfunded	Projects for Future Consideration	Needs Evaluation	San Ysidro
32	Vista Ln, Dairy Mart Rd	Water pools in streets, fix drains	This area has not been evaluated or studied. It will be evaluated in the future as part of the Tijuana River Integrated Drainage Engineering Analysis (IDEA), which is currently unfunded	Projects for Future Consideration	Needs Evaluation	San Ysidro
33	W San Ysidro Blvd at the La Pacifica RV Park	Needs gutters	Why is a gutter needed? is there a flooding or ponding problem?	Projects for Future Consideration	Insufficient Detail	San Ysidro
34	W San Ysidro Blvd between Dairy Mart Rd and Howard Ave	bioswales and stormwater drainage	Need more information to be able to properly evaluate this location.	Projects for Future Consideration	Insufficient Detail	San Ysidro
35	W San Ysidro Blvd, Howard Ave	Strong odor	Odor is not related to stormwater or drain maintenance. It could be related to the regional cross boarder sewage flow.	Project Not Eligible for Inclusion	Not Managed By City	San Ysidro
36	W San Ysidro Blvd, Isla del Carmen Way	Clean drainage system	Is there a problem or an issue? What is triggering the need for cleaning?	Projects for Future Consideration	Insufficient Detail	San Ysidro
37	West on Camino de la Plaza	Water harvesting through bioswales catchment; Increased rainwater capacity	Need more information to be able to properly evaluate this location.	Projects for Future Consideration	Insufficient Detail	San Ysidro
38	Normal Heights	Fix the flooding issues in the community (e.g.: Hawley, Felton, 34th)	This area has not been evaluated or studied. It will be evaluated in the future as part of the San Diego River Watershed Integrated Drainage Engineering Analysis (IDEA), which is currently unfunded	Projects for Future Consideration	Needs Evaluation	Mid-City: Normal Heights
39	Imperial Ave N of Willie James Jones to 47th St, down Castana St	Storm Drains-expand, upgrade Imperial Ave N of Willie James Jones to 47th St, down Castana St. Imperial Ave contaminated run-off flows down into homes & Chollas Creek.. HEALTH AND SAFETY ISSUE.	This needs further evaluation to determine if there is an drainage issue, flooding or erosion - Not very clear what the issue is from the description.	Projects for Future Consideration	Needs Evaluation	Encanto Neighborhoods
40	47th & Castana St San Diego, CA 92102	47th & Castana City needs to install storm drains that the city and developers did not install as required: 47th St.(East side), Castana Street, Escuela St. 47th St & Imperial Ave intersection, causes severe flooding & pollutes Chollas Creek. 1.04 miles PVC Sewer Mains replaced including all associated sewer laterals, manholes, curb ramps, traffic control, and other appurtenances	This location involves several issues across multiple departments; there are unpermitted encroachments that need to be addressed as well.	Projects for Future Consideration	Needs Evaluation	Encanto Neighborhoods

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
41	Imperial Ave N of Willie James Jones to 47th St, down Castana St	Storm Drains-expand, upgrade Imperial Ave N of Willie James Jones to 47th St, down Castana St. Imperial Ave contaminated run-off flows down into homes & Chollas Creek.. HEALTH AND SAFETY ISSUE.	This needs further evaluation to determine if there is an drainage issue, flooding or erosion - Not very clear what the issue is from the description.	Projects for Future Consideration	Needs Evaluation	Encanto Neighborhoods
42	Lincoln Park 47th & Castana St San Diego, CA 92102	Lincoln Park 47th & Castana St Vacant lot is HEALTH AND SAFETY ISSUE. City Transportation Dept, dug 3 trenches for polluted water from Imperial Ave to flow, through streets, people homes & yards and into Chollas Creek causing loose land falling into the creek. Dept should have & needs to install storm drains to stop flooding & damage.	47th & Castana parcel involves several issues across multiple departments; there are unpermitted encroachments that need to be addressed as well. The second part of the inquiry about the 3 trenches is unclear; recommend creating a GID so issue can be evaluated.	Project Not Eligible for Inclusion	Operational	Encanto Neighborhoods
43	5154 Roswell St, San Diego, CA 92114	Winston Dr at Roswell St, 92114 -repeated flooding, damaged sidewalks, roads & private property. Problems from lack of city building adequate storm drains.	This location falls within Chollas Integrated Drainage Engineering Analysis (IDEA); Funding is not available for further evaluation, studies and design.	Projects for Future Consideration	Needs Evaluation	Encanto Neighborhoods
44	5109 Roswell St, San Diego, CA 92126	Roswell & 51St 92114 - Water damage caused sidewalk cracks & that caused sidewalk cracks & raised cement, endangers pedestrians, needs immediate repair. HEALTH & SAFETY ISSUE	This seems to be a trasportation issue not a drainage issue.	Projects for Future Consideration	Needs Evaluation	Encanto Neighborhoods
45	North East Corner of Montezuma Road & College Avenue	Improve the storm drain system at the north east corner of Montezuma Road and College Avenue to prevent flooding. The flooding impedes accessibility for people with mobility issues.	This area has not been evaluated or studied. It will be evaluated in the future as part of the San Diego River Integrated Drainage Engineering Analysis (IDEA), which is currently unfunded	Projects for Future Consideration	Needs Evaluation	College Area
46	Reservoir Drive between Alvarado Rd. and Montezuma	Cover the open 800 ft. storm drain channel, add sidewalks and add streetlights on the east side of Reservoir.	The SWD Channel Section submitted the CIP Alvarado 1 Channel Improvements. Funding is not available for further evaluation, studies and design.	Projects for Future Consideration	Needs Resources	College Area
47	Throughout La Jolla	Evaluate, update, repair and maintain storm water system	The request is very broad; considering limited resources and lack of funding, it is infeasible to evaluate the entire disctrict.	Projects for Future Consideration	Insufficient Detail	La Jolla
48	From Qualcomm Way to SR163	San Diego River dredging from Qualcomm Way to SR163. (CIP FY24 Project # S00606)	The project scope needs to be re-evaluated to develop a more sustainable solution for this portion of the San Diego River. This will be accomplished as part of the San Diego River Watershed Master plan which is on hold currently due to lack of funding. When funding is available to restart the San Diego River Watersged Master Plan, a new project will be initiated.	Projects Considered for Outlook	In Outlook	Mission Valley
49	Pomerado Road between Pomerado Court and Pomerado Place in Rancho Bernardo	Storm Drain Installation	is there a drainage issue?	Projects for Future Consideration	Insufficient Detail	Rancho Bernardo
50	Southeast Corner Aero/Sandrock	Fix drainage issue at Aero/Sandrock	Need more information to be able to properly evaluate this location.	Projects for Future Consideration	Insufficient Detail	Kearny Mesa

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
51	All other Middletown Streets with traffic above 25mph and with a volume above 2,000 average daily traffic per day.	Sustainability and safety Improvements within other Middletown streets. Primarily to address safety issues for pedestrians but would also include storm-water run-off and parkways planted for urban canopy improvements.	Request is too broad and does not identify specific drainage issues.	Project Not Eligible for Inclusion	Not Feasible	Uptown
52	4400 & 4500 blocks of Euclid Ave	EUCLID AND MONROE STORM DRAIN: Project provides for installation of missing storm water inlets in and around the intersection of Euclid & Monroe Avenues, as necessary, to prevent repeated flooding of private properties located on the south side of Monroe Ave. during each substantial rain event.	This area has been partially evaluated and studied as part of the Chollas Integrated Drainage Engineering Analysis (IDEA). It will be evaluated further in the future as part of the San Diego River Watershed IDEA, which is currently unfunded.	Projects for Future Consideration	Needs Evaluation	Mid-City: Kensington-Talmadge
53	4650 to 4800 blocks of Monroe Ave	EUCLID AND MONROE STORM DRAIN: Project provides for installation of missing storm water inlets in and around the intersection of Euclid & Monroe Avenues, as necessary, to prevent repeated flooding of private properties located on the south side of Monroe Ave. during each substantial rain event.	This area has not been evaluated or studied. It will be evaluated in the future as part of the San Diego River Watershed Integrated Drainage Engineering Analysis (IDEA), which is currently unfunded.	Projects for Future Consideration	Needs Evaluation	Mid-City: Kensington-Talmadge

Public Utilities

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
1	Normal Heights	Increase water supply to the area to support multiple pumper trucks in case of multiple structure fires related to wildfires. The increased density in the VHFHZ via ADU builds in making the problem worse.	The City of San Diego water system is designed to meet the fire flow capacity based on the Development type (single family 1,500gallons per minute, multi-family 3,000 gpm, commercial 4,000gpm and industrial 6,000gpm). The City Water Design Guidelines or California Fire Code (CFC) is used to calculate fire flows, determine the placement of fire hydrants, and establish water storage requirements to ensure adequate flow (GPM) and pressure (PSI) for firefighting purposes. Additionally, City water mains serving more than two hydrants or more than 30 homes must be looped, fed from two sources, or provided with a reservoir of sufficient capacity to supply the emergency needs and fire storage.	Projects for Future Consideration	Needs Evaluation	Mid-City: Normal Heights
2	232-298 Cottonwood Rd	alkaline water supply	The City produces on average 180 mgd millions of gallons of drinking water a day in accordance with regulatory standards. Annual drinking water quality reports can be found at: https://www.sandiego.gov/public-utilities/water-quality/water-quality-reports. A City CIP (Sewer and AC Water Group 1032) is currently in design that will replace 3.45 miles of asbestos cement pipe with PVC. CIP project status can be viewed by clicking on the link below. https://webmaps.sandiego.gov/cippublic/. If you have questions or concerns about the quality of your water, please contact the City's Water Quality Lab at 619-668-3232 or DrinkingWaterQuality@sandiego.gov.	Active Project	In Progress	San Ysidro

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
3	Calle Primera, Border Village Rd	Increased water capacity	As part of the City's water and sewer replacement projects, the City evaluates future flow demands to ensure the system operates with proper pressure to ensure adequate flow and to protect water quality. If you have questions about your water services or the sizing/capacity of your connections, please reach out to customer services at (619) 515-3500 or go to As part of the City's water and sewer replacement projects, the City evaluates future flow demands to ensure the system operates with proper pressure to ensure adequate flow and to protect water quality. If you have questions on your water services or the sizing/capacity of your connections, please reach out to customer services at (619) 515-3500 or go to www.sandiego.gov/public-utilities/customer-support.	Projects for Future Consideration	Needs Evaluation	San Ysidro
4	Citywide	fix sewage. we have very strong smells	The City prioritizes the replacement of sewer pipes based on age, condition, history of breaks, and regulatory requirements. The pipeline replacement program targets 40 miles of sewer pipe annually, targeting the highest-priority pipelines. Additionally, the City inspects over 80 miles of pipeline a year and maintains a robust sewer cleaning program. To report a sewer spill or bad sewer odor, call 619-515-3525.	Active Project	In Progress	
5	I-5 & SR-905 vicinity	The sewers get clogged often and release foul smells	The City prioritizes the replacement of sewer pipes based on age, condition, history of breaks, and regulatory requirements. The pipeline replacement program targets 40 miles of sewer pipe annually, targeting the highest-priority pipelines. Additionally, the City inspects over 80 miles of pipeline a year and maintains a robust seer cleaning program. To report a sewer spill or bad sewer odor, call 619-515-3525.	Projects for Future Consideration	Needs Evaluation	Otay Mesa Nestor
6	Sunset Ln, Beyer Blvd	Clean the sewers	The City inspects over 80 miles of pipeline a year and maintains a robust sewer cleaning program. To report a sewer spill or bad sewer odor, call 619-515-3525.	Active Project	In Progress	San Ysidro
7	Marlesta Dr/ Beagle St	Complete design and initiate construction for Clairemont Mesa East Improvements 4 (S) in order to repave Marlesta Drive and Beagle Street as expeditiously as possible.	This is CIP No. B20034 (Sewer asset), information can be found at https://www.sandiego.gov/cip/project-info#lookup	Active Project	In Progress	Clairemont Mesa

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
8	One block north and south of Howard and Idaho and Oregon Streets, boundaries El Cajon Boulevard to the North and Polk Ave to the south.	Study of land for the purpose of finding out about sinking in area underneath North Park Sr Center Building at Howard and Idaho and Oregon Streets. This was the historical site of a water treatment plant that become part of the NP Community Park when it was torn down. When doing the study please include the block north of this, containing the Water Tower and water storage tanks, between Howard and El Cajon Boulevard. Both of these areas have been used by the community but problems with sinking earth have prevented continued use and development of other buildings and recreational facilities.	Sinking land does not appear to be a PUD issue. (Note: PUD has some records about the historical water facilities located at this location).	Projects for Future Consideration	Needs Evaluation	North Park
9	Pomerado Road - Ave of Nations east to Fairbrook Road	Extend reclaimed water line east on Pomerado (See Scripps Ranch CPG priorities letter)	The City has paused new service connections in the Northern Service Area. https://www.sandiego.gov/sites/default/files/recycled_water_policy_fact_sheet.pdf No expansion of the purple pipe system or new connections will be permitted until Phase 1 of the Pure Water Program is in operation and the availabiity of wastewater for recycling can be evaluated.	Projects Not Eligible for Inclusion	Not Feasible	Miramar Ranch North
10	San Ysidro	Test the water in our community and educate us on how it affects us	The City of San Diego regularly tests water quality to ensure it meets state and federal standards, and shares results through the annual Drinking Water Quality Report. Additional information is available at: https://www.sandiego.gov/public-utilities/water-quality/water-quality-reports	Projects Not Eligible for Inclusion	Operational	San Ysidro

Fire-Rescue

No.	Project Location	Project Description	Department Response	Dept. Rec. for 5-Yr Outlook	Outcome	Community Plan Area
1	4901-4939 W Point Loma Blvd, San Diego, California, 92107	Replace the lifeguard tower and parking and bathrooms.	Funding has been requested to update a feasbility study, which is the first step to replacing the station. Project is included in 5 year CIP outlook.	Projects Considered for Outlook	Funding Requested	Ocean Beach
2	Center St between E Beyer Blvd and E San Ysidro Blvd	fire station, safety on trolleys	Additional details needed.	Projects for Future Consideration	Insufficient Detail	San Ysidro
3	Fairmount Ave & 47th St	New fire station	CIP in environmental analysis phase. Per community concerns, environmental analysis phase to be completed prior to any additional funding considered for project.	Projects Considered for Outlook	In Outlook	Mid-City: City Heights
4	Fairmount Ave, 47th St	I support this location for a new fire station	CIP in environmental analysis phase. Per community concerns, environmental analysis phase to be completed prior to any additional funding considered for project.	Projects Considered for Outlook	In Outlook	Mid-City: City Heights
5	San Diego Fire Station	Fire stations, EMT response	Additional details needed.	Projects for Future Consideration	Insufficient Detail	San Ysidro
6	Emerald Hills/ North Encanto	Emerald Hills/North Encanto Neighborhoods - Build New Fire/Rescue Station. Location has had many canyons fires, since it is by 94. Filled with overgrown, combustible grasses & native plants. Brush fires need quick actions to quickly prevent them spreading up the hills to houses as firestorms. It's worse now with climate change. Many residents cannot afford home/apartment insurance, some companies no longer offer fire insurance is SD/ CA. HEALTH & SAFETY ISSUE - CLIMATE CHANGE ISSUE - EQUITY ISSUE	Added to CIP outlook for beyond five years (e.g. FY31 or beyond)	Projects Considered for Outlook	In Outlook	Encanto Neighborhoods

84	At vital points in the Linda Vista Community such as Linda Vista Road between Comstock and Ulric and Morena Boulevard at Sherman Street.	Linda Vista Community Markers. This project would provide for community markers or monuments similar to the iconic styles of the Hillcrest, North Park, and Little Italy neighborhood signs, not only for the heart of Linda Vista but other areas in the community such as the Morena District.	Project like this are sponsored by community groups and processed through DSD. Please refer to https://docs.sandiego.gov/municode/MuniCodeChapter14/Ch14Art01Division11.pdf for more details	Projects Not Eligible for Inclusion	Not Managed By City	Linda Vista
85	All of North Park with considerations of traveling to other neighborhoods such as Hillcrest, University Heights, Kennsington, City Heights, South Park, or Balboa Park.	A Master Bike Lane Plan should be created which allows cyclist to travel in a protected lane. Bike lanes should be thought out, they don’t need to be on all roads, but allow cyclist to travel from neighborhood to neighborhood. Considerations of space and traffic should dictate whether bike lanes are protected and separated or shared with other vehicular traffic, i.e. designate Class I through IV bike lanes. Add protections to dissuade other traffic from encroaching in bike lanes and creating further safety concerns, i.e. cars/trucks parked in bike lanes for short term drop-off, loading, unloading. Designate sites and provide bike corrals or bike racks near destinaion areas.	Separated bike lanes included in Focus Area 3 (North Park) in the Mobility Master Plan on Wightman, 43rd,Washington, and Euclid.	Projects for Future Consideration	Needs Resources	North Park

86	Throughout Otay Mesa Nestor	Maintenance for existing facilities in the Otay Mesa Nestor Community.	This submission is very broad. The requestor appears to be asking for increased janitorial services at existing facilities, or repairs of existing facilities; which would be operational and not CIP projects. Please submit future requests of this kind via the Get It Done app.	Projects for Future Consideration	Insufficient Detail	Otay Mesa Nestor
87	Improve the two West Mesa bathrooms north of Laurel Street.	Screening (translucent) and plantings of the 2 restroom buildings in West Mesa. Although surveillance is very important, translucent screens and some plantings can avoid blocking view around the screen and into the restrooms.	These are new restrooms, single-use/gender neutral. Each restroom has its own door. Privacy should not be a concern. P&R and PD may have concerns about screens blocking the view of the restroom.	Projects for Future Consideration	Insufficient Detail	Balboa Park
88	Entry into Bankers Hill on Laurel and Columbia Streets on City parcel (NE side) as well as integral to the new 6th Ave. roundabout or at 6th and I-5.	Uptown/Bankers Hill signage and plaza at Laurel and Columbia Street and on 6th and Juniper to include art, Balboa Park, Uptown, and Juniper Signage for wayfinding	The Economic Development section of Cultural Affairs administers public art that is included in Capital Improvement Projects as well as other City-initiated projects, as resources allow. Currently, these activities do not include plans to address this project directly. However, this information is helpful for further consideration.	Projects for Future Consideration	Needs Evaluation	Uptown
89	Southwest corner of the bridge at University Ave. near SR-163.	Permanent improvements to the left-over triangular area on the SW side of University Ave. near SR-163. Current efforts have not worked, need city or sponsorship to manage maintenance.	The land in question is not owned by the City, it might be private property or right-of-way for the State Route. Please submit a request via the Get It Done app.	Projects Not Eligible for Inclusion	Operational	Uptown
