Other Items (Action as noted)**10. Capital Budget Requests (Emerson)**

LJCPA, LJSA, LJP&B, and BRCC annually combine their Capital Budget requests and submit a combined request for all of La Jolla to CD1. To file La Jolla's requests in a timely manner, I am requesting that each of these organizations form a group and submit their Budget requests to their organizations for approval no later than October. Please contact Janie Emerson (jemfocus@aol.com) with any questions.

11. Red Rest Demolition (McArthur) Action

Request for LJCPA to support the La Jolla Historical Society's appeal of the city's permit that allows demolition of the National Register listed Red Rest with no community input and paltry mitigation. We do not know when the issue will go to City Council but are trying to raise greater awareness of the egregious violation of city processes that has allowed this to occur. Of wider concern to the greater San Diego community is the problematic staff abuse of discretion in determining the resource was no longer "historic" that enabled misapplication of CEQA processes. Whether or not one supports this specific issue, the administrative mishandling should concern everyone who supports transparent government and legal application of applicable regulations.

12. La Jolla Park Coastal Historic District (Kane) Action

Request for LJCPA to support the nomination of the District to the 11 Most Endangered Historic Places list. The approximately 2.5-mile District encompasses some of La Jolla's most important historic, cultural, recreational, and natural resources. A 2024 condition assessment documented widespread deterioration. The District requires a coordinated approach that brings together preservation, parks management, coastal resilience, public access, tourism management, environmental protection, and sustained funding. 11 Most Endangered designation would provide an important catalyst for that effort by bringing national attention to the District's condition and helping mobilize the partnerships and resources necessary to address its most urgent needs.
