Alvarado 2nd Extension Pipeline Project

Work is Ongoing Near Friars Road and Donahue Street Intersection Crews Anticipate Base Paving on Friday, Sept. 4

Crews on the Project are continuing to work during daytime hours to install pipeline on Friars Rd. between Napa St. and Via Las Cumbres, moving east on Friars Rd. as they progress. Pipeline installation is actively occurring near Friars Rd. and Donahue St.

On Friday, September 4, crews are expecting to base pave areas impacted by recent work on Friars Rd., between Colusa St. and the Mission Valley YMCA driveway. This is an initial, temporary paving that allows the contractor to reopen portions of the road to normal traffic. In the future, a full asphalt overlay will occur in the areas where pipeline work occurred. Additional notifications will be sent when this work is scheduled.

Work at Friars Road and Donahue Street

- Access in and out of Presidio Place will be maintained at all times, though there may be a reduction in vehicle lanes to accommodate work.
- Working hours are 7 a.m. to 5:30 p.m., Monday through Friday
- After the pipeline has been installed, crews will temporarily pave over the trench before moving to the next section.
