Alvarado 2nd Extension Pipeline Project

Work Hours To Be Extended This Week in Coordination with Riverwalk Development

Crews on the Project are continuing to work during daytime hours to install pipeline on Friars Rd. between Napa St. and Via Las Cumbres, moving east on Friars Rd. as they progress. Pipeline installation is actively occurring on Friars Rd., east of Goshen St.

Because the work zone has approached the active Riverwalk Development nearby, crews on the project will be extending their work hours to end at 7 p.m. nightly, approximately through the end of this week, starting today.

Starting on Tuesday, September 29, the Project working hours will be extended to 7a.m. to 7p.m. These working hours may be required through the end of this week, to include Friday, October 2 if needed.

Crews are expected to return to regular working hours (7a.m. to 5:30 p.m.) starting on Monday, October 5.

Regular Project updates are provided via email. To sign up for Project updates, scan the QR code below, enter your contact information, and select list "Project Updates: Alvarado 2nd Pipeline Extension."
