

Beta Street Channel and Storm Drain Improvement Project

Potential Improvements Map

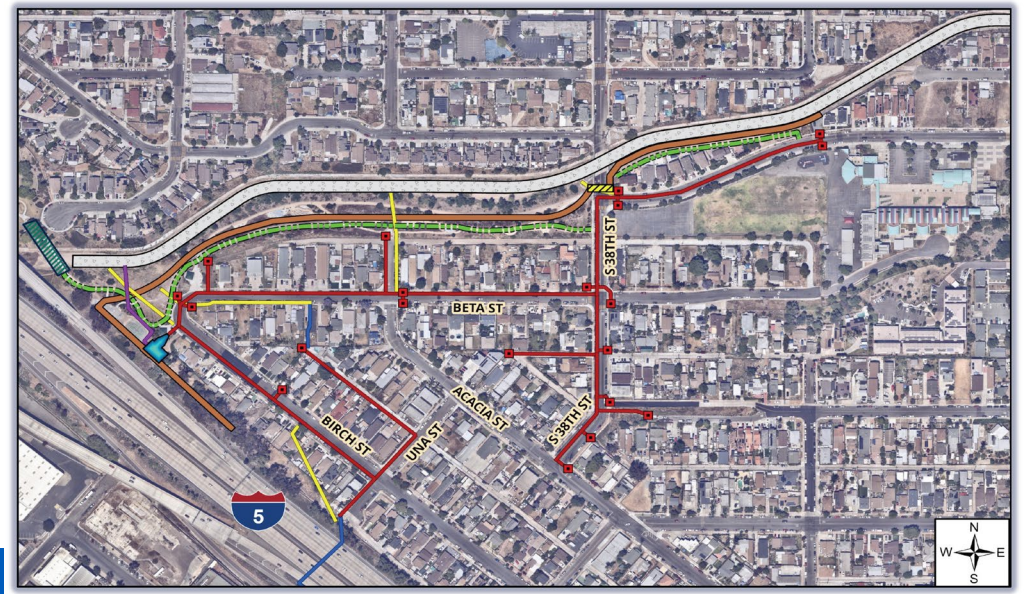

PROJECT PURPOSE

Beta Street Channel and Storm Drain Improvement Project will improve stormwater infrastructure in the southwestern corner of the Southcrest community. Potential improvements being evaluated are bounded by South Chollas Creek to the north, Interstate 5 to the west, South 39th Street to the east, and Birch Street to the south. The project provides the following benefits to the community:

- Increased Waterway Capacity
- New Storm Drain System
- Improved Southcrest Trails Park
- New Multi-Use Trail
- Minor Grading & Resurfacing for the Beta Alley

POTENTIAL IMPROVEMENTS UNDER EVALUATION MAP AND LEGEND

- Concrete Channel
- New Storm Drain
- Pump Station
- New Force Main
- Floodwall
- Floodgate
- Potential Proposed Trail
- Pedestrian Bridge
- Existing Storm Drain
