The City of San Diego

M E M O R A N D U M

DATE: October 16, 2026

TO: Recycled Water Customers

FROM: Hudson McLintock, Associate Engineer, Public Utilities Department

SUBJECT: Notification of Recycled Water Restoration

This notice is to inform you that the scheduled shutdown announced on October 5, 2026, was completed on schedule and the Recycled Water System is now operational.

After the restoration of recycled water service, customers may notice temporary air in their plumbing lines and fluctuations in water pressure. This is a normal occurrence following system disruptions. We recommend that customers check their recycled water irrigation systems and release any trapped air before resuming normal operation. If issues continue for an extended period, please contact our service support for assistance.

In an effort to improve transparency with customers, we've recently updated our recycled water webpage, which includes posting notices sent to all recycled water customers for reference. We encourage customers to check the website periodically for the latest updates.

For any questions or concerns that you may have, please contact:

Recycled Water Group (619) 525-8288.
