SURFERS PETITION

We, the undersigned surfboarders, respectfully petition the City Council to adopt the proposal of the Park and Recreation Department to relocate the designated surfing area from the Law Street area to the commercially zoned area between Felspar and Diamond Street.

Our reasons are:

1. Parking is more abundant in the undeveloped commercial area near Felspar Street than in the residential neighborhoods.
2. Relocation near the commercial area will make it more convenient for us to make whatever purchases we desire for snacks and refreshments, rather than driving back and forth through the residential areas.
3. We want to minimize the serious problems suffered by the homeowners, which are caused by only a few rowdys but which acts are reflecting adversely on all of us who enjoy the sport of surfing.
