## **EXHIBIT A SCOPE OF WORK**

### **A. OVERVIEW**

Contractor shall provide the City of San Diego's (City) Public Utilities Department temporary Biosolids Management and Hauling Services for the biosolids generated at the City's Metropolitan Biosolids Center (MBC).

### **B. BACKGROUND**

The City of San Diego operates the Metropolitan Biosolids Center (MBC) for the thickening, digestion and dewatering of wet biosolids which originates from wastewater solids pumped from both the Point Loma Wastewater Treatment Plant (PLWTP) and the North City Water Reclamation Plant (NCWRP). NCWRP has a current design capacity of 30 million gallons per day (mgd), and will be increasing its capacity to 52 mgd by December 2023, as part of the City's Pure Water San Diego program. While the Point Loma WWTP has a rated capacity of 240 mgd, this facility is currently treating approximately 150 mgd.

At the MBC, raw solids from the NCWRP are thickened in five centrifuges before being pumped into three anaerobic digesters. These solids are then combined and mixed with the digested sludge pumped from the Point Loma WWTP before being processed into biosolids using eight dewatering centrifuges. The City of San Diego currently contracts with a biosolids management provider and the end uses are either Class B biosolids used as daily cover at the Otay Landfill in San Diego County, directly landfilled at the Otay Landfill, or applied as land application material on farmland in Yuma County, Arizona. The current biosolids production at the MBC is approximately 300-350 wet tons per day (WTPD), dewatered to 25-29% total solids, and this biosolids production is not expected to change with the addition of the Pure Water San Diego project.

### **C. BIOSOLIDS MANAGEMENT AND HAULING SERVICES**

This section describes the services the Contractor is required to perform under this contract.

#### **1.0 General**

Contractor shall agree to accept delivery of, transport, and manage the City's biosolids at permitted and approved sites in quantities determined and directed by the City. Contractor is responsible for taking all required steps to provide this service which may include, but is not limited to, profiling, permitting, hauling, managing, landfill disposal, composting, marketing and selling compost, land application, meeting and conforming with federal, state and local regulations, recordkeeping, and reporting.

The City will be responsible for providing biosolids to the Contractor with the following specifications:

- Biosolids dewatered to approximately 25-29% total solids
- Biosolids quality – pollutant levels below Table 1 in 40 CFR Part 503.13

- Pathogen requirements – the City typically meets the Class B pathogen reduction requirements as defined in 40 CFR Part 503.32 but the Contractor shall have the required permits and approval to compost sub-Class B biosolids at a permitted, approved facility

The Contractor will accept the biosolids substantially meeting these specifications and will assume all risks in handling such material. Analytical test results from the City monitoring the quality of its biosolids, pursuant to the facility’s regulatory permits, will be made available to the Contractor. Any additional testing of the disposal or reuse sites required by the regulatory agencies that issue permitting for such disposal or reuse activities, shall be the sole responsibility of the Contractor.

### 1.1 Minimum Qualifications

Contractor must ensure the following minimum qualifications are met throughout the duration of the contract:

- a) **Project Experience** – Contractor shall have at least two years of successful experience managing Class A or Class B biosolids with at least 100 WTPD for a public agency or municipality within the United States or Canada. This requirement applies to the primary company principal, project manager or facility manager which must have been gained within the past ten (10) years.
- b) **Compost Facility Capacity and Permits** – If Contractor is managing the City’s biosolids at a composting facility, the Contractor must have a fully permitted facility for use on this project, with adequate capacity to receive, process, reuse and/or dispose of up to **350 WTPD** of Class B biosolids. Facility must have had at least one (1) year of successful, continuous operations prior to the proposal due date. A description, location map, operational information and other pertinent information about the compost facility (or facilities) must be submitted with the bid.
- c) **Land Application** – If Contractor is proposing to manage the City’s biosolids through land application, the Contractor must have all applicable local, state and/or federal permits for use on this project, with adequate capacity to receive, process and reuse up to **350 WTPD** of Class B biosolids. The land application site(s) must have been in operation for at least (1) year of successful, continuous operations prior to the proposal due date. City may request descriptions, location maps, operational information and other pertinent information about each land application site..
- d) **Landfill Disposal** – If Contractor is proposing to manage the City’s biosolids through landfill disposal, the Contractor must be able to provide documentation that the identified landfill disposal site is able to accept and manage biosolids for a period of at least five (5) years, with adequate capacity to receive and process up to **350 WTPD** of Class B or sub Class B biosolids. City may request descriptions, location maps, operational information and other pertinent information about each landfill site.

- e) **Alternative Beneficial Use** – if Contractor is proposing to manage the City’s biosolids in an Alternative Beneficial Use that is less common, such as for biomass fuel, mine reclamation or soil amendment, this Alternative Beneficial Use shall be subject to the approval of the City and must be able to receive, process and reuse and/or dispose of up to **350 WTPD** of the City’s biosolids. The Alternative Beneficial Use must have had at least one (1) year of successful, continuous operations prior to the proposal due date. City may request descriptions, location maps, operational information and other pertinent information about each Alternative Beneficial Use site.
- f) **Hauling Experience** – Contractor must have a minimum of two (2) years of successful experience hauling biosolids with a demonstrated capacity to haul up to **350 WTPD**. Contractor may use Subcontractors to meet the **350 WTPD** capacity requirement, but each Subcontractor must also meet the two (2) years of experience requirement.
- g) **Minimum Biosolids Management Options** – The City desires to ensure that its biosolids management options have some diversity. Therefore, the City request the Contractor to utilize the biosolids management options provided by the Contractor in Section E. Pricing Schedule.

## 1.2 Biosolids Amount Allocation

The allocation of biosolids will be based on a Non-Guaranteed Minimum Tonnage, meaning the City will guarantee no minimum amount for the Contractor. The volume of the biosolids produced by the City will be allocated at the discretion of the City. For the purposes of the Proposal, the City will evaluate the total cost of the Contractor for the amount of the Non-Guaranteed Minimum Tonnage of 350 WTPD, combined with the pricing structure for the Contractor’s identified biosolids management options.

## 1.3 Loading, Transportation, Hauling, Storage and Operations

The Contractor and/or any Subcontractors of the Contractor is required to meet the City’s following Loading, Transportation, Hauling, Storage and Operations standards:

Contractor will be entitled to an extension of time to complete performance under the Contract equal to the length of the suspension unless otherwise agreed to in writing by the Parties.

**4.2 City's Right to Terminate for Convenience.** City may, at its sole option and for its convenience, terminate all or any portion of this Contract by giving thirty (30) days' written notice of such termination to Contractor. The termination of the Contract shall be effective upon receipt of the notice by Contractor. After termination of all or any portion of the Contract, Contractor shall: (1) immediately discontinue all affected performance (unless the notice directs

otherwise); and (2) complete any and all additional work necessary for the orderly filing of documents and closing of Contractor's affected performance under the Contract. After filing of documents and completion of performance, Contractor shall deliver to City all data, drawings, specifications, reports, estimates, summaries, and such other information and materials created or received by Contractor in performing this Contract, whether completed or in process. By accepting payment for completion, filing, and delivering documents as called for in this section, Contractor discharges City of all of City's payment obligations and liabilities under this Contract with regard to the affected performance.

Examples of default include a determination by City that Contractor has: (1) failed to deliver goods and/or perform the services of the required quality or within the time specified; (2) failed to perform any of the obligations of this Contract; and (3) failed to make sufficient progress in performance which may jeopardize full performance.

No amount shall be allowed for anticipated profit on unperformed services, and no amount shall be paid for an as needed contract beyond the Contract termination date.

**4.5.2 Termination for Default.** If, after City gives notice of termination for failure to fulfill Contract obligations to Contractor, it is determined that Contractor had not so failed, the termination shall be deemed to have been effected for the convenience of City. In such event, adjustment in the Contract price shall be made as provided in Section 4.3.2. City's rights and remedies are in addition to any other rights and remedies provided by law or under this Contract.

**4.6 Remedies Cumulative.** City's remedies are cumulative and are not intended to be exclusive of any other remedies or means of redress to which City may be lawfully entitled in case of any breach or threatened breach of any provision of this Contract.

## **ARTICLE V ADDITIONAL CONTRACTOR OBLIGATIONS**

**5.1 Inspection and Acceptance.** The City will inspect and accept goods provided under this Contract at the shipment destination unless specified otherwise. Inspection will be made and acceptance will be determined by the City department shown in the shipping address of the Purchase Order or other duly authorized representative of City.

**5.2 Responsibility for Lost or Damaged Shipments.** Contractor bears the risk of loss or damage to goods prior to the time of their receipt and acceptance by City. City has no obligation to accept damaged shipments and reserves the right to return damaged goods, at Contractor's sole expense, even if the damage was not apparent or discovered until after receipt.

**5.3 Responsibility for Damages.** Contractor is responsible for all damage that occurs as a result of Contractor's fault or negligence or that of its' employees, agents, or representatives in connection with the performance of this Contract. Contractor shall immediately report any such damage to people and/or property to the Contract Administrator.

**5.4 Delivery.** Delivery shall be made on the delivery day specified in the Contract Documents. The City, in its sole discretion, may extend the time for delivery. The City may order, in writing, the suspension, delay or interruption of delivery of goods and/or services.

**5.5 Delay.** Unless otherwise specified herein, time is of the essence for each and every provision of the Contract. Contractor must immediately notify City in writing if there is, or it is anticipated that there will be, a delay in performance. The written notice must explain the cause for the delay and provide a reasonable estimate of the length of the delay. City may terminate this Contract as provided herein if City, in its sole discretion, determines the delay is material.

**5.5.1** If a delay in performance is caused by any unforeseen event(s) beyond the control of the parties, City may allow Contractor to a reasonable extension of time to complete performance, but Contractor will not be entitled to damages or additional compensation. Any such extension of time must be approved in writing by City. The following conditions may constitute such a delay: war; changes in law or government regulation; labor disputes; strikes; fires, floods, adverse weather or other similar condition of the elements necessitating cessation of the performance; inability to obtain materials, equipment or labor; or other specific reasons agreed to between City and Contractor. This provision does not apply to a delay caused by Contractor's acts or omissions. Contractor is not entitled to an extension of time to perform if a delay is caused by Contractor's inability to obtain materials, equipment, or labor unless City has received, in a timely manner, documentary proof satisfactory to City of Contractor's inability to obtain materials, equipment, or labor, in which case City's approval must be in writing.

**5.6 Restrictions and Regulations Requiring Contract Modification.** Contractor shall immediately notify City in writing of any regulations or restrictions that may or will require Contractor to alter the material, quality, workmanship, or performance of the goods and/or services to be provided. City reserves the right to accept any such alteration, including any resulting reasonable price adjustments, or to cancel the Contract at no expense to the City.

**5.7 Warranties.** All goods and/or services provided under the Contract must be warranted by Contractor or manufacturer for at least twelve (12) months after acceptance by City, except automotive equipment. Automotive equipment must be warranted for a minimum of 12,000 miles or 12 months, whichever occurs first, unless otherwise stated in the Contract. Contractor is responsible to City for all warranty service, parts, and labor. Contractor is required to ensure that warranty work is performed at a facility acceptable to City and that services, parts, and labor are available and provided to meet City's schedules and deadlines. Contractor may establish a warranty service contract with an agency satisfactory to City instead of performing the warranty service itself. If Contractor is not an authorized service center and causes any damage to equipment being serviced, which results in the existing warranty being voided, Contractor will be liable for all costs of repairs to the equipment, or the costs of replacing the equipment with new equipment that meets City's operational needs.

**5.8 Industry Standards.** Contractor shall provide goods and/or services acceptable to City in strict conformance with the Contract. Contractor shall also provide goods and/or services in accordance with the standards customarily adhered to by an experienced and competent provider of the goods and/or services called for under this Contract using the degree of care and skill ordinarily exercised by reputable providers of such goods and/or services. This includes, but is not limited to, any laws or regulations requiring the use of licensed contractors to perform parts of the work.

**5.16 Contractor and Subcontractor Registration Requirements.** Prior to the award of the Contract or Task Order, Contractor and Contractor's subcontractors and suppliers must register with the City's web-based vendor registration and bid management system. The City may not award the Contract until registration of all subcontractors and suppliers is complete. In the event this requirement is not met within the time frame specified by the City, the City reserves the right to rescind the Contract award and to make the award to the next responsive and responsible proposer of bidder.

If Deliverable Materials provided hereunder become the subject of a claim, suit or allegation of copyright, trademark or patent infringement, City shall have the right, in its sole discretion, to require Contractor to produce, at Contractor’s own expense, new non-infringing materials, deliverables or works as a means of remedying any claim of infringement in addition to any other remedy available to the City under law or equity. Contractor further agrees to indemnify, defend, and hold harmless the City, its officers, employees and agents from and against any and all claims, actions, costs, judgments or damages, of any type, alleging or threatening that any Deliverable Materials, supplies, equipment, services or works provided under this contract infringe the copyright, trademark, patent or other intellectual property or

### WAGE REQUIREMENTS: SERVICE AND MAINTENANCE CONTRACTS EXECUTED ON OR AFTER JANUARY 1, 2015

By signing this Contract, Bidder certifies that he or she is aware of the wage provisions described herein and shall comply with such provisions before commencing services.

**A. Living Wages.** This Contract is subject to the City's Living Wage Ordinance (LWO), codified at SDMC sections 22.4201 through 22.4245. The LWO requires payment of minimum hourly wage rates and other benefits unless an exemption applies. SDMC section 22.4225 requires each Bidder to fill out and file a living wage certification with the City Manager within thirty (30) days of Award of the Contract. LWO wage and health benefit rates are adjusted annually in accordance with SDMC section 22.4220(b) to reflect the Consumer Price Index. Service contracts, financial assistance agreements, and City facilities agreements must include this upward adjustment of wage rates to covered employees on July 1 of each year. In addition, Bidder agrees to require all of its subcontractors, sublessees, and concessionaires subject to the LWO to comply with the LWO and all applicable regulations and rules.

**1. Exemption from Living Wage Ordinance.** Pursuant to SDMC section 22.4215, this Contract may be exempt from the LWO. For a determination on this exemption, Bidder must complete the Living Wage Ordinance Application for Exemption.
