(CONTINUED ON THE NEXT PAGE)

Exhibits and other materials to provide:

Exhibits and other project-related presentation materials (e.g. site plan, elevations, exhibits showing addition/remodel areas, etc.) although not required, are extremely helpful in informing the Advisory Board's review and understanding of a project. The following exhibits and materials are recommended and if provided by the applicant, will be attached to the agenda and posted to the City's website for view by the public:

- Exhibits, which can contain the following:
 - A. A site plan showing the street, the property line on all sides, the setbacks on all sides, and the setbacks from the property lines to the neighboring building;
 - B. Elevations for all sides;
 - C. If the proposal is for a remodel, a clear delineation of what part of the proposed structure is new construction
 - D. If the proposal is for a building with more than one story, show:
 - how the upper story sits on the story beneath it (setback of the upper story from the lower story);
 - the distance from the proposed upper story to comparable stories of the neighboring buildings; and
 - the height of neighboring buildings compared to the proposed structure's height.
- Any surveys that indicate similarities in floor area or architectural style in the surrounding neighborhood
- Any communications from adjacent neighbors, local neighborhood groups, and/or the Homeowners' Association

PLEASE DO NOT PROVIDE THE FOLLOWING:

- The complete plan set of the project. Complete plan sets take up a lot of memory to distribute and most of the information is not necessary for the Advisory Board's review.
- Plans or exhibits of the interior of the project. Interiors are not reviewed by the Advisory Board.
- Personal contact information of the property owners of the project should not be included, unless they are the "owner/applicant" and they are the designated point of contact

The Trustees are very keen to know that the neighbors in the immediate vicinity have been noticed and their views noted. Community conformity, setbacks, FAR, parking, view corridors, bulk & scale, and articulation are key discussion points on all projects.

Name
Address

Dear Neighbor,

I would like to introduce myself. My name is Mark Lyon. I am an Architect and I represent The Said Family, owners of the property at 7834 Esterel Drive.

The Said Family would like you to know they are proposing to remodel their home. The remodel consists of an addition and interior remodel of the existing house and a new Companion Unit built on the property.

Because the Said property is visible from your property, we are notifying you of our intentions as part of our formal submittal for a Site Development Permit as part of the La Jolla Shores Planned District Ordinance.

If you would like to see the plans or meet to discuss the project, we would be happy to set up a meeting at your convenience.

Please contact me at:

Architect Mark D. Lyon, Inc.
410 Birdrock Ave.
La Jolla, CA 92037
(858) 459-1171
info@mdla.net

Thank you for our time.

Regards,

Mark D. Lyon
