

City of San Diego Development Services 1222 First Ave., MS-302 San Diego, CA 92101 (619) 446-5000

FORM **Storm Water Requirements DS-560 Applicability Checklist** FEBRUARY 2016

Project Number (for City Use Only):

Project Addres	^{ss:} 1792 W. Washington	St.	Project Number (for City Use Only):					
SECTION 1. Construction Storm Water BMP Requirements:								
All construction sites are required to implement construction BMPs in accordance with the performance standards in the <u>Storm Water Standards Manual</u> . Some sites are additionally required to obtain coverage under the State Construction General Permit (CGP) ¹ , which is administered by the State Water Resources Control Board.								
For all project complete PART A: If project is required to submit a SWPPP or WPCP, con- tinue to PART B.								
PART A: Determine Construction Phase Storm Water Requirements.								
1. Is the project subject to California's statewide General NPDES permit for Storm Water Discharges Associated with Construction Activities, also known as the State Construction General Permit (CGP)? (Typically projects with land disturbance greater than or equal to 1 acre.)								
🖵 Yes; SW	PPP required, skip questions 2-4	X No; next question						
2. Does the pr bing, excav	oject propose construction or demo ation, or any other activity that res	lition activity, including but not ults in ground disturbance and	t limited to, clearing, grading, grub- contact with storm water runoff?					
Yes; WI	PCP required, skip 3-4	X No; next question						
3. Does the pr purpose of	oject propose routine maintenance the facility? (Projects such as pipeli	to maintain original line and g ne/utility replacement)	rade, hydraulic capacity, or original					
🛛 Yes; WI	PCP required, skip 4	No; next question						
	oject only include the following Per							
 Electrica mit, Spa 	ll Permit, Fire Alarm Permit, Fire S Permit.	Sprinkler Permit, Plumbing Per	mit, Sign Permit, Mechanical Per-					
 Individual Right of Way Permits that exclusively include only ONE of the following activities: water service, sewer lateral, or utility service. 								
• Right of Way Permits with a project footprint less than 150 linear feet that exclusively include only ONE of the following activities: curb ramp, sidewalk and driveway apron replacement, pot holing, curb and gutter replacement, and retaining wall encroachments.								
Yes; no document required								
Check one of the boxes to the right, and continue to PART B:								
	If you checked "Yes" for question 1, a SWPPP is REQUIRED. Continue to PART B							
X	If you checked "No" for question 1 a WPCP is REQUIRED. If the p of ground disturbance AND has le entire project area, a Minor WPC	, and checked "Yes" for question project proposes less than 5,000 less than a 5-foot elevation chan P may be required instead. Co	a 2 or 3,) square feet ge over the ntinue to PART B.					
	If you checked "No" for all questio PART B does not apply and no	ns 1-3, and checked "Yes" for qu document is required. Cont	nestion 4 cinue to Section 2.					
	n on the City's construction BMP requirements as gov/stormwater/regulations/index.shtml	well as CGP requirements can be found at:						
	Printed on recycled paper. Visit our web site at <u>www.sandiego.gov/development-services</u> .							

Upon request, this information is available in alternative formats for persons with disabilities.

Cor	nplete F	ART B and continued to Section 2	
1.		ASBS	
		a. Projects located in the ASBS watershed.	
2.		High Priority	
		a. Projects 1 acre or more determined to be Risk Level 2 or Risk Level 3 per the Cons General Permit and not located in the ASBS watershed.	truction
		b. Projects 1 acre or more determined to be LUP Type 2 or LUP Type 3 per the Const General Permit and not located in the ASBS watershed.	ruction
3.		Medium Priority	
		a. Projects 1 acre or more but not subject to an ASBS or high priority designation.	
		b. Projects determined to be Risk Level 1 or LUP Type 1 per the Construction Generation not located in the ASBS watershed.	al Permit and
4.	X	Low Priority	
		a. Projects requiring a Water Pollution Control Plan but not subject to ASBS, high, or priority designation.	· medium
SE	CTION	2. Permanent Storm Water BMP Requirements.	
Ado	ditional in	formation for determining the requirements is found in the <u>Storm Water Standards N</u>	<u>lanual</u> .
Pro vel	jects that	etermine if Not Subject to Permanent Storm Water Requirements. are considered maintenance, or otherwise not categorized as "new development projectorojects" according to the <u>Storm Water Standards Manual</u> are not subject to Permanent	cts" or "rede- Storm Water
If ' Pe	'yes" is o rmanen	checked for any number in Part C, proceed to Part F and check "Not S t Storm Water BMP Requirements".	bubject to
If	"no" is c	hecked for all of the numbers in Part C continue to Part D.	
1.	Does the existing	e project only include interior remodels and/or is the project entirely within an enclosed structure and does not have the potential to contact storm water?	Yes No
2.		e project only include the construction of overhead or underground utilities without new impervious surfaces?	Yes No
3.	roof or e lots or e	e project fall under routine maintenance? Examples include, but are not limited to: xterior structure surface replacement, resurfacing or reconfiguring surface parking xisting roadways without expanding the impervious footprint, and routine nent of damaged pavement (grinding, overlay, and pothole repair).	Yes No

PA	RT D: PDP Exempt Requirements.				
PI	PDP Exempt projects are required to implement site design and source control BMPs.				
If ⁶ be	"yes" was checked for any questions in Part D, continue to Part F and check th led "PDP Exempt."	ne box l	a-		
If	"no" was checked for all questions in Part D, continue to Part E.				
1.	Does the project ONLY include new or retrofit sidewalks, bicycle lanes, or trails that:				
	 Are designed and constructed to direct storm water runoff to adjacent vegetated areas, or oth non-erodible permeable areas? Or; 	ner			
	• Are designed and constructed to be hydraulically disconnected from paved streets and roads				
	• Are designed and constructed with permeable pavements or surfaces in accordance with the Green Streets guidance in the City's Storm Water Standards manual?				
	☐ Yes; PDP exempt requirements apply ☐ No; next question				
2.	Does the project ONLY include retrofitting or redeveloping existing paved alleys, streets or road and constructed in accordance with the Green Streets guidance in the <u>City's Storm Water Stand</u>	ls design dards Ma	ied anua		
	□ Yes; PDP exempt requirements apply □ No; project not exempt. PDP requirements ap	ply

Page 4 of 4 City of San Diego • Development Services Department • Storm Water Requirements Applicability Checklist								
7.	New development or redevelopment discharging directly to an Environmentally Sensitive Area. The project creates and/or replaces 2,500 square feet of impervious surface (collectively over project site), and discharges directly to an Environmentally Sensitive Area (ESA). "Discharging directly to" includes flow that is conveyed overland a distance of 200 feet or less from the project to the ESA, or conveyed in a pipe or open channel any distance as an isolated flow from the project to the ESA (i.e. not commingled with flows from adjacent lands).	Yes	No					
8.	New development or redevelopment projects of a retail gasoline outlet (RGO) that create and/or replaces 5,000 square feet of impervious surface. The development project meets the following criteria: (a) 5,000 square feet or more or (b) has a projected Average Daily Traffic (ADT) of 100 or more vehicles per day.	Yes	D No					
9.	New development or redevelopment projects of an automotive repair shops that creates and/or replaces 5,000 square feet or more of impervious surfaces. Development projects categorized in any one of Standard Industrial Classification (SIC) codes 5013, 5014, 5541, 7532-7534, or 7536-7539.	Yes	🖵 No					
10.	. Other Pollutant Generating Project. The project is not covered in the categories above, results in the disturbance of one or more acres of land and is expected to generate pollutants post construction, such as fertilizers and pesticides. This does not include projects creating less than 5,000 sf of impervious surface and where added landscaping does not require regular use of pesticides and fertilizers, such as slope stabilization using native plants. Calculation of the square footage of impervious surface need not include linear pathways that are for infrequent vehicle use, such as emergency maintenance access or bicycle pedestrian use, if they are built with pervious surfaces of if they sheet flow to surrounding pervious surfaces.	Yes	🗋 No					
PA	PART F: Select the appropriate category based on the outcomes of PART C through PART E.							
1.	The project is NOT SUBJECT TO STORM WATER REQUIREMENTS.		X					
2.	The project is a STANDARD DEVELOPMENT PROJECT . Site design and source control BMP requirements apply. See the <u>Storm Water Standards Manual</u> for guidance.							
3.	The project is PDP EXEMPT . Site design and source control BMP requirements apply. See the <u>Storm Water Standards Manual</u> for guidance.		Ū,					
4.	The project is a PRIORITY DEVELOPMENT PROJECT . Site design, source control, and structural pollutant control BMP requirements apply. See the <u>Storm Water Standards Manual</u> for guidance on determining if project requires a hydromodification plan management
