**Supervisors, please print and forward this communication to staff who do not have access to city email.**

A General Development Plan (GDP) is a conceptual master plan for a park's design used in presentations to Parks and Recreation Department advisory bodies, as a basis for public project assessment and environmental documentation and as the exhibit on which construction plans will be based. The City's policy is outlined in [Council Policy 600-33](#).

The purpose of this memorandum is to inform staff that the Parks and Recreation Department has posted online all approved General Development Plans for City Parks for staff and the general public to have access.

We strive to provide transparency by having an online catalog of all our approved Park General Development plans. Any modified or future General Development Plans that are approved will be added to the website. The approved General Development Plans website link is found here: <https://www.sandiego.gov/park-and-recreation/general-info/gdp>

Should you have any questions or feedback, please contact us at [askparks@sandiego.gov](mailto:askparks@sandiego.gov).

Thank you for all you do to support the Department!
