

THE CITY OF SAN DIEGO

M E M O R A N D U M

DATE: March 3, 2021
TO: Parks and Recreation Department Employees
FROM: Andy Field, Parks and Recreation Director
SUBJECT: Workplace Injury Processes and Safety Reminders – Please Post

Summer is the busiest time of the year for the Parks and Recreation Department as we work to meet the needs of the millions of park visitors who will visit our facilities. We all need to be aware of the risks this increased activity brings, especially the potential for workplace accidents and injuries.

Supervisors, please ensure your staff have recently completed the Personal Protective Equipment (PPE) Refresher, Back Safety, Heat Illness and Prevention, and Driving on Turf (D.I. 6.14) tailgates, and the October 4, 2017 policy memo regarding Driving on Areas Not Designated/Designed for Vehicular Travel.

Everyone, your well-being is important to us; please take the time to perform tasks safely and with care.

Listed below is a summary of steps to take if you or your employees experience an injury while on the job:

Notify your supervisor about the injury immediately. The supervisor can assist in determining if the injury is minor or not, and take required steps:

- a. **Minor – does not require medical treatment (e.g. minor cuts, scrapes, bruises, sprains, etc.)**
 - Have employee complete the Minor Injury Report (RM-1568) within 24 hours
 - Send a copy to Payroll and give a copy to the employee
 - Payroll will file in the employee's medical file and send a copy to the Administrative Services Program Coordinator at Eferreira@sandiego.gov within 7 days of the injury
 - If you are unsure if this is minor, please contact your supervisor

- b. **Requires medical treatment**
 - If an injury is potentially life threatening, call 911 immediately.
 - Otherwise, Supervisor provides the Medical Status Report of Occupational Injury or Illness (MSR) (RM-1634) to the employee to give to the doctor.
 - Direct the employee (or make arrangements for them to be taken) to the nearest Medical Provider Network facility (see attached MPN list).
 - You may visit your personal doctor ONLY if you have a Notification of Pre-designation of Personal Physician form (RM-1698) on file with Risk Management PRIOR to the injury. To confirm if you have a valid pre-designation on file, contact the Workers' Compensation Division of the Risk Management Department at 619-236-6395.
 - You do not need a form or your supervisor's permission to visit the City doctor for a

- workplace injury that requires medical treatment.
- If your supervisor is not available and you need medical attention for a workplace injury, go to a City MPN facility.
- The City's MPN facilities have the Medical Status Report of Occupational Injury or Illness (RM-1634) (MSR form) on site and will document the visit.
- Ensure the MSR form (RM-1634) is completed by the doctor before you leave the facility.
- For Pesticide and other **hazardous**¹ chemical related injuries, or for any chemical exposure requiring emergency treatment, please go to the nearest Emergency room; the City's Medical Provider Network (MPN) facilities do not treat these types of injuries.
- Follow up with your supervisor to report your injury and complete the Workers' Compensation Claim Form (RM-1642), regardless of whether there is any lost work time related to the injury.

Supervisors must report all workplace injuries/illnesses requiring medical attention (i.e. anything other than a minor injury) to the Worker's Compensation Call-in-Center within 24 hours of the notification of injury. The 24-hour Call-in-Center number is 800-427-7980.

Cal-OSHA Reporting ANY serious injury/illness that occurs at work and results in any of the following:

- a) Death
- b) Hospitalization other than for medical observation or diagnostic testing
- c) Loss of any member of the body including eyes
- d) Any serious degree of permanent disfigurement

MUST be reported immediately to your Deputy Director (it is not necessary to follow the chain of command, if your supervisors cannot be reached), and to the Administrative Services Program Coordinator, Erika Ferreira at 619-533-6527 or 619-870-6035.

IMPORTANT: Within 8 hours, any serious injury/illness listed in a, b, c or d above which occurs on the job **MUST be reported to Cal/OSHA, at their 24-hour Hotline** at 619-767-2280 or 800-321-6742. **This 8-hour requirement applies at all times, even on weekends and after hours.** If leaving a message, include details (e.g. your name and title, City of San Diego Parks and Recreation, name of injured employee, nature of incident, date/time/location (address) of incident, contact name and phone number.

For all workplace injuries requiring medical treatment, Supervisors must also complete the Parks and Recreation Supervisor's Accident and Injury Investigation Report.

- This form is located on the Shared Drive at <\\ad\dfs\SDPR-Shared\PRMet\SHARED\EntireDepartment\Forms> Supervisor's Accident and Injury Investigation Report.
- Submit this form, along with the Workers' Compensation Claim form and related Medical Status Reports (MSRs), to the District Manager (or equivalent) for review.
- Send a copy of the completed form to the Administrative Services Program Coordinator at Eferreira@sandiego.gov in the Safety and Training Office.

¹ To determine if a chemical is considered hazardous, consult your Safety Data Sheets (SDS).

- Forward the completed form to the Division Payroll Specialist.
- This should be done promptly, in most cases within 48 hours of any doctor visit.

Within 24 hours of any doctor visit, the employee must submit the Medical Status Report (MSR) (RM – 1634) to his or her supervisor.

- The doctor documents the date, time and duration of the doctor visit on this form
- If there are any work restrictions, they will be listed on the form and must be followed
- Ensure the form is completed by the doctor prior to leaving the facility
- Return the completed form to your supervisor who will sign and forward it to the assigned Payroll Specialist
- For clarification regarding the work restrictions, contact the assigned Workers' Compensation Claims Representative in the Risk Management Department
- For questions or assistance with this process you may contact Interim Deputy Director Louis Merlin at lmerlin@sandiego.gov or by calling 619-235-5913.

If you fill out a minor injury report and then later need medical treatment related to that injury, go to one of the MPN facilities immediately. City Medical Facilities are open 7 days a week, some of them 24 hours a day. Do not visit your personal doctor unless you have a Pre-Designation registered with the Risk Management Department.

Attachment: 2017 Policy Memo: Driving on Areas Not Designated/Designed for Vehicular Travel

THE CITY OF SAN DIEGO
M E M O R A N D U M

DATE: October 4, 2017

TO: Park and Recreation Employees

FROM: Herman D. Parker, Park and Recreation Director

SUBJECT: Policy Update: Driving on *Areas Not Designated/Designed for Vehicular Travel*

The purpose of this memorandum is to provide guidance on the safe operation of City vehicles/equipment when driving on turf and other *Areas Not Designated/Designed for Vehicular Travel*. With increasing use of our park systems resulting in more congestion on our turf areas, it has become necessary to develop and implement this Department Policy.

Areas Not Designated/Designed for Vehicular Usage include, but are not limited to, turf (grass, lawn, sod), parks, road medians; recreational areas and developed or undeveloped areas (e.g., sidewalks, pedestrian plazas, beaches, boardwalks, unincorporated areas, and paper streets).

This policy includes, but is not limited to, activities such as mowing, spraying, turf sweeping, aerification in ballfields, playgrounds, cemetery, open space parks, emptying waste receptacles, cleaning remotely located drinking fountains, etc. and applies to all street-legal vehicles, motive equipment, golf carts, mules, etc.

At all times, employees are directed to refrain from driving on *Areas Not Designated/Designed for Vehicular Usage*, unless it is absolutely necessary or required as part of their work duties. If it is determined by the supervisor that driving in *Areas not Designated/Designed for Vehicular Usage* is necessary or required as part of an employee/volunteer's work duties, the employee/volunteer is required to follow this policy:

This policy does not require employees/volunteers to exit the vehicle when stopped temporarily in street traffic. This policy does not apply to Golf Division employees working on golf courses.

Employees are instructed to tailgate Administrative Regulation 75.85 Driving on Areas Not Designated for Vehicular Usage and adhere to the following provisions whenever they must drive on *Areas Not Designated/Designed for Vehicular Usage*:

- There should be at least 50 feet of unobstructed vision in the direction of travel.
- Vehicles must not travel at more than ten miles per hour.
- In low visibility conditions and when approaching blind spots, humps, mounded/hilly areas or corners, driver must stop, sound horn, then proceed at 2-3 miles per hour until visibility is clear to 50 feet.
- Emergency flashers must be used at all times, as well as hazard and strobe light(s), when available.
- When driving alone, driver must always walk completely around the vehicle when stopped for any length of time and/or returning to the vehicle before proceeding.
- If another employee/volunteer is present, he/she may act as a spotter and walk around the vehicle instead of the driver before the vehicle proceeds.
- When available, other City employees/volunteers will assist with vehicle/equipment movement in the role of a spotter. Spotters should walk approximately ten (10) feet in front/back of the vehicle, yet not directly in the vehicle's path of travel. The spotter is responsible for ensuring the vehicle's path of travel is clear and free of potential hazards.
- The vehicle driver/operator must follow the backing procedures as stated in the vehicle backing policy. See City of San Diego Driver/Operator Manual, "Backing a Vehicle/Equipment" and Administrative Regulation 75.05 – Vehicle/Equipment Backing Procedures.

Supervisors must immediately tailgate all employees who drive on this policy, and once per year afterwards, and employees must follow this policy at all times.

Thank you for your attention to this important matter.
