

I WANT TO VOTE ON THE REDISTRICTING. Since Monica has decided to do a GDP on "our" park it is funny to me there is a sudden desire to change the border lines. Why would this be? I wanted to attend virtual meeting but was unable. I will write a letter to Todd Gloria and tell him what I suspect is happening. At this point, I do not trust a one of you. Especially our councilwoman. I want to send the mapping however I don't trust it will be considered. I know how politics work and how you will twist it to your specifications – not ours.

While I am at it, could someone please cut down the damn trees in the park (50th request).

Ursula Varey
