REQUIREMENTS AND RESPONSIBILITIES - SAN DIEGO MUNICIPAL CODE
SUMMARY SECTIONS 55.9901 THROUGH 55.9923 (FIRE AND HARMFUL GAS
ALARMS) SECTIONS 33.3700 THROUGH 33.3713 (ROBBERY/BURGLAR ALARMS)

The majority of alarms that the San Diego Fire-Rescue Department respond to are false, resulting in an enormous waste of resources. False alarms create an unnecessary danger to citizens, police officers, and firefighters. The City of San Diego requires permits for Burglary, Robbery, Fire, and Harmful Gas Alarm Systems for both Residential and Commercial Properties.

DEFINITIONS:

Fire-Harmful Gas Alarm System - Any mechanical or electrical monitoring device capable of giving, signaling, or transmitting a fire or harmful gas emergency alarm that when triggered by an emergency situation emits a sound or transmits a signal or message that is intended to evoke a response by the San Diego Fire-Rescue Department. Fire-harmful gas alarm system excludes manually activated residential alarm systems.

False Alarm - An alarm activation causing a response by San Diego Police or Fire-Rescue Departments when an emergency situation does not exist. This includes activations caused by mechanical failure, malfunction, accidental tripping, misuse, or negligent maintenance. It does not include activations caused by weather conditions, telephone line problems or power outages.

REQUIREMENTS FOR ALARM BUSINESSES:

- Obtain an alarm user permit on behalf of the alarm user before putting the alarm system into service.
- Collect the alarm user permit application and permit fee from each alarm user and mail or hand deliver the complete alarm permit application to the City of San Diego before putting the alarm into service.

ALL FEES MUST BE PAID AT THE TIME THE ALARM USER PERMIT IS FILED.

ALARM PERMIT REVOCATION AND APPEAL PROCESS:

For Fire and Harmful Gas Alarm Systems:

Permitted systems are allowed up to two (2) false alarms per calendar year without incurring a penalty. Additional false alarms in a calendar year will incur escalating penalties plus cost recovery for time spent responding to the alarm call and permit revocation.

If the number of false alarms exceed the allowable amounts per calendar year (two (2) for Fire-Rescue), your permit is subject to revocation. You will receive written notification by mail to the address on file and will be required to provide written satisfactory evidence within 15 calendar days that the cause of the false alarm has been corrected. You must fix whatever caused the false alarms. Excessive responses by San Diego Fire-Rescue or San Diego Police may result in a misdemeanor citation. Subsequent fire/harmful gas false alarms of three or more in the same calendar year are subject to the following fees and penalties:

| | |
|-----------------------|--|
| 3rd Occurrence: \$195 | 5th Occurrence: \$525 |
| 4th Occurrence: \$305 | 6 or more Occurrences: \$2,285 each additional alarm |

Appeal Process:

In accordance with Chapter 3 Article 3 Division 5 of the San Diego Municipal Code, you have the option to appeal the fines assessed. To appeal, you must send a letter within ten (10) calendar days of receiving an alarm permit revocation letter to: Administrative Hearing Coordinator, San Diego Fire-Rescue Department, 600 B Street Suite 1300 San Diego, CA 92101.

If you have additional questions regarding this matter, please contact the San Diego Fire-Rescue Department at **(619) 533-4371** between 8:00 a.m. and 4:30 p.m., Monday through Friday or email FireAlarmsClerk@sandiego.gov.
