“Ocean Beach Palm-Tree Suit Dismissed; City Attorney to Pursue Court Costs From Filers”

Feb. 3, 2023

Question:

Can you please tell me how times/how many cases last year resulted in the city seeking reimbursement of costs?

Figures for 2021 would be fine too, if those are easier to pull.

Response:

The City Attorney's Office does not track the information you're seeking. But we do always try to recover our costs when the City prevails in litigation.

Question:

In that case, can you tell me how much, in total, the city attorney's office was able to recover in costs in 2022 or 2021?

I'm assuming that would be part of your financial accounting?

Also, can you please list for me three or four cases from the past two years that you were able to recover costs and how much was recovered in each case?

Response:

I'm sorry, but it looks like it will take a few days to extract this information.

Additional response:

Just wanted to let you know that your request for records is being handled as a California Public Records Act request. The City will keep you updated on its status.
